- (a) the substantial impact the massacre has had on the local and international Christian and Sri Lankan community, following ten years of relative peace in Sri Lanka,
- (b) that Easter represents the most holy of religious holidays for Christians throughout the world, symbolising the sacrifice Christ made for humanity on the Cross, and
- (c) that this devastating attack will never be forgotten by members of the religious community within New South Wales, as every religious worshipper deserves the right to congregate in churches, mosques, synagogues and temples without fear of attack or victimisation.

3. That this House condemns the violent actions and crimes committed by terrorist perpetrators in Sri Lanka.

4. That this House notes that:

- (a) there is no place in our society for such terrorist acts, and
- (b) there can be no excuse to justify these actions.

5. That this House acknowledges the strong contribution that religious and faith-based communities make towards the state of New South Wales.

(Notice given 8 May 2019—expires Notice Paper No. 21)

38. Ms Faehrmann to move—

1. That this House notes that:
 - (a) the United Nations Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services Report found that "around one million animal and plant species are threatened with extinction, many within decades, more than ever before in human history",
 - (b) the Government's 2015 State of the Environment report showed 999 native plant, animal and ecological communities threatened with extinction in New South Wales,
 - (c) the New South Wales Report on Native Vegetation 2014-16, the last report which the Government has released, shows that permission was given to clear over 7,000 hectares of native vegetation in 2015-16, the second highest rate of clearing in a decade,
 - (d) two million hectares of New South Wales' public native forests continue to be logged, much of which is koala habitat, and
 - (e) koala numbers in New South Wales have plummeted by one third between 1990 and 2010.
2. That this House calls on the Government to protect our threatened plant, animal and ecological communities by:
 - (a) preventing the clearing of high conservation value land and remnant vegetation,
 - (b) ending the logging of public native forests,
 - (c) expanding our national parks estate, including establishing a Great Koala National Park and adequately resourcing the National Parks and Wildlife Service to maintain our national parks estate,
 - (d) banning destructive activities in our national parks,
 - (e) strengthening our response to invasive species including by significantly reducing the number of feral horses in Kosciusko National Park,
 - (f) protecting environmental water and river flows throughout New South Wales river systems, wetlands and estuaries, and
 - (g) protecting and expanding our marine reserve system.

(Notice given 8 May 2019—expires Notice Paper No. 21)

39. Mrs Houssos to move—

(Notice given 8 May 2019—expires Notice Paper No. 21)

40. Mr Shoebridge to move—

1. That this House acknowledges that:
 - (a) in 2018, UN Secretary-General Antonio Guterres warned that the world must take action in the next two years to avert the disastrous consequences of runaway climate change,

- (b) seven local councils in New South Wales, including Bellingen Shire Council, Blue Mountains City Council, Byron Shire Council, Clarence Valley Council, Hawkesbury City Council, Randwick City Council, and Upper Hunter Shire Council, have recognised that we are in a state of climate emergency that requires urgent action by all levels of government, and
 - (c) Greens councillors across New South Wales have led the campaign within local councils to declare a climate emergency and implement urgent action in response.
2. That this House recognises the vital importance of urgent action to prevent further climate catastrophe and congratulates the above named local councils for their declaration of climate emergency.
3. That this House call on the Government to:
- (a) declare a climate emergency,
 - (b) commit to providing maximum protection for all people, economies, species, ecosystems, and civilisations, and to fully restore a safe climate,
 - (c) mobilise the required resources and take effective action at the necessary scale and speed, and;
 - (d) encourage all other governments in Australia and around the world to take these same actions.

(Notice given 8 May 2019—expires Notice Paper No. 21)

42. Mr Field to move—

1. That this House notes that:
- (a) an Environmental Impact Statement is currently being prepared for the Government's proposal to raise the Warragamba Dam wall,
 - (b) the Minister for Western Sydney, Stuart Ayres, in public statements, and the Government in response to the 2018 Parliamentary Inquiry into the Water NSW Amendment (Warragamba Dam) Bill 2018, have continually asserted that the proposal to raise the dam wall would be limited to 14 metres and that the additional capacity would be used for flood mitigation and not additional water storage,
 - (c) in the Government's submission to the inquiry, the following statement was made on page 21, "Raising Warragamba Dam proposal does not involve increased water storage. The flood mitigation zone created by the raised dam would only be used to temporarily store floodwaters during floods.",
 - (d) this submission also made clear that a 14 metre raising was the preferred option and a higher raising was not supported,
 - (e) during the recent State election campaign, documents were obtained and reported in the media showing the plans being developed would enable a 17 metre raising,
 - (f) in an interview responding to the claims, the Premier responded saying a higher dam wall "will make sure in the future we also have capacity for extra water storage",
 - (g) the use of any created air space for additional water storage would undermine the Government's stated intent to provide flood mitigation, and

- (h) a higher raising and additional permanent water storage would have significantly more extensive ecological and cultural heritage impacts than those subject to the debate in this house over the bill.
2. That this House call on the Government to clarify the nature of its dam wall proposal including any planning for additional raisings in the future and the use of additional dam capacity for water storage and explain to the house and the New South Wales public why its statements during the election campaign differed from its previous representations to this house.

(Notice given 8 May 2019—expires Notice Paper No. 21)

44. Mr Shoebridge to move—

1. That this House notes that:
 - (a) according to the Australian Bureau of Statistics, the median estimate for employee income in New South Wales is \$49,256,
 - (b) according to a 2018 poll conducted by The Australia Institute, most Australians believe CEOs are paid far too much, and
 - (c) executive salaries along with corporate profits are at record highs while average households have less than they did a decade ago and worker wages have stagnated.
2. That this House recognises:
 - (a) the vital contribution public servants including teachers, nurses, and firefighters make to New South Wales, and
 - (b) that there is no justification for publicly-funded executives to earn more than ten times the median wage of ordinary workers.
3. That this House calls on the Government to limit the maximum salary package of all public sector CEOs, Vice Chancellors and managers to no more than 10 times the median wage.

(Notice given 8 May 2019—expires Notice Paper No. 21)

1. That this House notes that:

 - (b) Level 1 water restrictions are no more severe than the already existing "Water Wise Rules" other than the use of sprinklers.
2. That this House acknowledges that:
 - (a) Sydney's water reservoir levels are almost certain to dip below 50 per cent in the next ten weeks, and

- (b) the impact of climate change will lead to increasingly dry conditions that will exacerbate the effects of drought and put a greater strain on our water supply.
3. That this House calls on the Government to immediately impose Level 2 water restrictions in the Sydney area in anticipation of continued severe drought exacerbated by the climate crisis.

(Notice given 28 May 2019—expires Notice Paper No. 22)

 - (b) speakers included Bruce Shillingsworth, Aunty Hazel Collins and Helen Eason.
3. That this House notes that:
 - (a) it is now 22 years since the Bringing Them Home report was tabled in the Australian Parliament,
 - (b) since that report was tabled, the number of First Nations children taken from their families by child protection authorities across the country has increased five-fold,
 - (c) less than 10 per cent of the 54 recommendations in the Bringing Them Home Report have been adopted in 22 years,
 - (d) in June 2016, the Legislative Council committee inquiring into Reparations for the Stolen Generations in New South Wales, chaired by the Honourable Jan Barham MLC, tabled the report entitled 'Unfinished Business', which recommended the creation of a Stolen Generations Reparations program, Stolen Generation Scholarship Program, and a Stolen Generation Advisory Committee, amongst others, and that the Government has made some progress towards implementing these recommendations,
 - (e) in November 2018, this Parliament passed further laws that facilitate the adoption of Aboriginal children, and
 - (f) if sorry is to mean anything, it means you don't do it again.
4. That this House recognises that:
 - (a) First Nations people have a continuous and rich culture spanning over 60,000 years,
 - (b) NSW Parliament has a responsibility to implement laws that respect Aboriginal kinship and culture, and deliver on the promise of reconciliation, and
 - (c) reconciliation must include child protection laws that respect community culture, and above all, provide legislative measures and resources to allow genuine self-determination by First Nations peoples in regards the care and protection of their children.

(Notice given 28 May 2019—expires Notice Paper No. 22)

58. Ms Faehrmann to move—

1. That this House recognises that:

 - (d) a recent study published in the Journal of Science found that reducing meat consumption is the single biggest way to reduce your carbon footprint.
2. That this House congratulates all who are taking part in No Meat May for raising awareness about the impact of mass meat production and for their commitment to a sustainable future.

66. Mr Latham to move—

1. That this House notes:
 - (a) the results of the 2019 Federal election, especially in Northern and Central Queensland and the Hunter Valley, where working class communities have said they do not want their jobs and industries destroyed by reckless, irresponsible climate change policies,

- (b) that the so-called "transition to a clean energy economy" should not mean the destruction of mining and manufacturing in the Hunter region, throwing whole communities onto the welfare scrapheap,
 - (c) that if there is one thing worse than a so-called "climate emergency" it is a power emergency in New South Wales that causes blackouts after the scheduled closure of the Liddell power station, and
 - (d) that if the lights go out in New South Wales, public support for "action on climate change" will drop like a stone.
2. That this House urges the Morrison and Berejiklian Governments to reach a Federal/State Energy Security Agreement that guarantees a reliable supply of dispatchable baseload electricity in New South Wales.

2. That this House recognises that:
- (a) an education system that respects the continuous and rich culture and history of First Nations people in Australia is essential to reconciliation,
 - (b) reconciliation must include recognition of historical wrongs, and

79. Mr Shoebridge to move—

1. That this House notes that:
 - (a) before 1982, the recurrent and capital budgets were managed from two separate funds, the Consolidated Revenue Fund and the General Loan Account,
 - (b) appropriations for capital works are clearly distinct from appropriations for 'the ordinary annual services of Government',
 - (c) there is a strong argument that capital works appropriations do not fall within the meaning of section 5A of the *Constitution Act 1902*, and that a bill containing appropriations for capital works may be directly amended by the Legislative Council,
 - (d) at a practical level the Legislative Council is in an uncertain position as capital works appropriations are now included as part of the annual budget appropriation bill, and
 - (e) at the Commonwealth level, the Australian Senate has reasserted its position as recently as 22 June 2010 in a resolution building on the 'Compact of 1965', that appropriations for expenditure for the construction of public works and buildings are not part of the ordinary annual services of Government, and are appropriately contained in an additional Appropriation Bill separate from the bill dealing with the ordinary annual services of Government.
2. That this House calls on the Government to clearly articulate separate capital and recurrent budget bills in the upcoming budget to avoid unnecessary delay in the passage of budget measures.

(Notice given 4 June 2019—expires Notice Paper No. 25)

 - (b) the charge came about after video footage was released to the media of the man dragging, riding and plucking feathers from a visibly distressed emu, and
 - (c) despite the extensive research showing the link between abuse of animals and abuse of humans, perpetrators of animal cruelty are often given lenient punishments that do not adequately punish or rehabilitate the offender.
2. That this House condemns this sickening act of animal cruelty, and recognises the need for mandatory psychological assessments for anyone found guilty of animal cruelty in New South Wales.

(Notice given 18 June 2019—expires Notice Paper No. 28)

2. That this House notes with concern that:
 - (a) 12 years later, no park has been built,
 - (b) Ku-ring-gai Council is seeking to rezone the land from community land to operational land,
 - (c) the operational land will contain a strip plaza and ancillary open space of little value or use to the community, and
 - (d) if the operational land rezoning goes ahead, the people of Gordon will be deprived of much-needed open space.
3. That this House acknowledges:
 - (a) the work undertaken by the Parks 4 Gordon advocacy group in holding the council to account on their promise, and
 - (b) the urgent need for more green open space across Sydney, to address the pressures of population growth and increased density.

(Notice given 6 August 2019)

148. Ms Faehrmann to move—

1. That this House notes that:

- (a) Australia is the only nation in the developed world to make the World Wildlife Fund's (WWF) global list of deforestation hotspots,
- (b) 20 of these deforestation hotspots are in New South Wales, 17 of which contain substantial Koala habitat,
- (c) New South Wales is experiencing a species extinction crisis, with 60 per cent of land based mammals and 30 per cent of birds listed as threatened and predictions koalas could be extinct by 2050,
- (d) the Natural Resources Commission proposed remapping of 13 sites within state forest informal reserves in North East New South Wales would reduce the extent of protected old growth forest in those sites by 78 per cent,
- (e) these sites are of significant ecological value, with high densities of hollow-bearing trees and dead standing trees which provide vital habitat to threatened native fauna,
- (f) Forestry Corporation is set to begin logging in the Kalang Headwaters which have significant ecological value, containing old growth and rainforest and other mature native forest, providing habitat for threatened native species such as the Long Nosed Potoroo, Spotted Quoll and the koala, and
- (g) a local ecologist has found breaches by Forestry Corporation in its preparations for logging the Kalang Headwaters including extensive damage to Lowland Rainforest (a Threatened Ecological Community), including destruction of a Glossy Black Cockatoo feed tree and Koala Long-nosed Potoroo habitat and habitat.

2. That this House calls for an immediate halt to logging operations in the Kalang Headwaters outside of Bellingen and an end to logging in all public native forests.

(Notice given 6 August 2019)

151. Mr Field to move—

1. That this House notes that:
 - (a) on Thursday 30 May 2019, the House ordered the production of documents relating to the Murray River Broken Hill Pipeline, and
 - (b) on Friday 12 July 2019, the House received a return to order, the index to which included a submission in support of a claim of privilege over various documents at Annexure 3 which stated:

'The Broken Hill Long-Term Water Supply Solution Preliminary Business Case and Final Business Case were prepared by staff within the NSW Department of Primary Industries for two purposes:

1. to inform the Infrastructure NSW Gateway process for major infrastructure over \$10 million; and
2. for consideration by the Cabinet Standing Committee for Expenditure Review regarding project approval.

As such, information is of the kind that should not be revealed, as to do so, would disclose deliberation that took place in Cabinet.'

2. That this House notes that, on 5 June 2018, this House:
 - (a) censured the Leader of the Government as the representative of the Government in the Legislative Council for the Government's failure to comply with orders for the production of documents under standing order 52 dated 15 March 2018, 12 April 2018 and 17 May 2018,
 - (b) ordered that, under standing order 52, there be laid upon the table of the House by 9.30 am on 6 June 2018 certain of those documents not previously provided to the resolutions dated 15 March 2018, 12 April 2018 and 17 May 2018, and
 - (c) ordered that, should the Leader of the Government fail to table the documents by 9.30 am on 6 June 2018, the Leader of the Government was to attend in his place at the Table at the conclusion of prayers to explain his reasons for continued non-compliance.
3. That this House notes that on 6 June 2018:
 - (a) the Leader of the Government failed to table documents in compliance with the resolution of 5 June 2018,

- (b) the Clerk tabled correspondence from the Deputy Secretary, Cabinet and Legal, Department of Premier and Cabinet in relation to the order of 5 June 2018, which stated that "after considering advice from the Crown Solicitor, a copy of which is enclosed, I advise that there are no further documents for production",
 - (c) on the President calling on the Leader of the Government to explain his reasons for continued non-compliance, in accordance with the resolution of 5 June 2018, the Leader of the Government stated that "further to the earlier advice of the Deputy Secretary, Cabinet and Legal, the Department of Premier and Cabinet the documents ordered to be tabled by the resolution of the House would be provided by 5.00 pm on Friday 8 June 2018", and
 - (d) the documents were subsequently provided.
4. That this House notes that:
- (a) the documents tabled on 8 June 2018 included correspondence from the Secretary of the Department of Premier and Cabinet stating that "on this occasion, the Government had decided to provide the documents sought to the Legislative Council on a voluntary basis, even though the Council has no power to provide such production", and
 - (b) in response, on Thursday 21 June 2018, the House agreed to a resolution rejecting the statement made by the Secretary of the Department of Premier and Cabinet on behalf of the Government that the documents provided on 8 June 2018 were provided voluntarily.
5. That this House notes that the resolution of the House of Thursday 21 June 2018 acknowledged the judgements of Chief Justice Spigelman, and Justices Meagher and Priestley in the Court of Appeal in *Egan v Chadwick* (1999), in relation to Cabinet documents in which:
- (a) Spigelman CJ held that:
 - (i) a distinction has been made between documents which disclose the actual deliberations within cabinet and documents in the nature of reports or submissions prepared for the assistance of Cabinet,
 - (ii) it is not reasonably necessary for the proper exercise of the functions of the Council to call for documents the production of which would conflict with the doctrine of collective ministerial responsibility by revealing the "actual deliberations of Cabinet",
 - (iii) however, the production of documents prepared outside Cabinet for submission to Cabinet may, or may not, depending on their content, be inconsistent with the doctrine of collective ministerial responsibility to Cabinet,
 - (b) Meagher JA took the view that the immunity of cabinet documents from production was "complete", arguing that the Legislative Council could not compel their production without subverting the doctrine of responsible government, but without exploring the distinction between different types of Cabinet documents drawn by Spigelman CJ, and
 - (c) Priestley JA noted that:
 - (i) a court has "the power to compel production to itself even of Cabinet documents",
 - (ii) the "function and status of the Council in the system of government in New South Wales require and justify the same degree of trust being reposed in the Council as in the courts when dealing with documents in respect of which the Executive claims public interest immunity",
 - (iii) "...notwithstanding the great respect that must be paid to such incidents of responsible government as cabinet confidentiality and collective responsibility, no legal right to absolute secrecy is given to any group of men and women in government, the possibility of accountability can never be kept out of mind, and this can only be to the benefit of the people of a truly representative democracy".
6. That this House notes that the resolution of the House of Thursday 21 June 2018 observed that:

- (a) the Government apparently relies on the broad definition of “Cabinet information” adopted in the Government Information (Public Access) Act 2009,
 - (b) the Legislative Council rejects the proposition that the test in the Government Information (Public Access) Act 2009 of what constitutes Cabinet information is applicable to Parliament,
 - (c) the Government’s apparent reliance on the definition in the Government Information (Public Access) Act 2009 is likely to have led to a much broader class of documents being withheld from production to this House than that articulated by the majority of the NSW Court of Appeal in the judgments of Spigelman CJ and Priestly JA in *Egan v Chadwick*, the provision of which is necessary for the Legislative Council to fulfil its constitutional role, and
 - (d) the true principle from *Egan v Chadwick* concerning the power of the House to order the production of Cabinet documents is, at a minimum, that articulated by Spigelman CJ, and that the Government has failed to undertake the discrimination between classes of documents required by the reasoning of Spigelman CJ.
7. That this House asserts that it has the power to require the production of Cabinet documents such as those produced on 8 June 2018 and 12 June 2018 and that the test to be applied in determining whether a document is a Cabinet document captured by an order of the House is, at a minimum, that articulated by Spigelman CJ in *Egan v Chadwick*.
8. Accordingly, that, under standing order 52, there be laid upon the table of the House within seven days following the passing of this resolution the following documents in the possession, custody or control of the Department of Premier and Cabinet or the Department of Planning, Industry and Environment as identified in Annexure 3 of the return provided on Friday 12 July 2019:
- (a) the Broken Hill Long-Term Water Supply Solution Final Business Case, and
 - (b) any legal or other advice regarding the scope or validity of this order of the House created as a result of this order of the House.

(Notice given 6 August 2019—expires Notice Paper No. 31)

152. Ms Faehrmann to move—

1. That this House notes that:
 - (a) an analysis of samples collected by WaterNSW over five years by Western Sydney University researchers at seven sites on the Hawkesbury river show a sharp increase in bacteria readings even after a few millimetres of rain,
 - (b) E.Coli bacteria was up to ten times higher at one popular swimming site after only 3mm of rain the preceding week, and
 - (c) despite WaterNSW being aware of high levels of dangerous bacteria at the popular swimming sites, no results are made public and no warnings are issued to swimmers.
2. That this House calls on WaterNSW to perform its duty of care to the public by:
 - (a) applying the Australian National Health and Medical Research Council guidelines on Australian drinking and recreational water quality for managing recreation in popular swimming sites in New South Wales,
 - (b) performing regular monitoring of microbial water quality of popular swimming sites during the swimming season for bacterial water quality and faecal contamination, especially after rain events, and

- (b) rapidly communicating these results with river users, in a manner similar to the methodology used for Sydney's 'Beachwatch'.

(Notice given 6 August 2019—expires Notice Paper No. 31)

153. Mr Shoebridge to move—

1. That this House notes that:
 - (a) the Codong and Broadwater co-gen sugar mills are owned by Cape Byron Power,
 - (b) locals have reported truckloads of trees being delivered to the stations for burning from the surrounding native forests which are being clear-felled,
 - (c) groups including the North East Forest Alliance (NEFA) and the Biomass Action Group (BAG) are standing with the local community against this damaging practice, and
 - (d) the Government has previously indicated support for the creation of more wood burning power plants, as well as considering the export of wood for burning.
2. That this House recognises that burning trees for power is inefficient, destroys critical habitat, increases local air pollution and contributes directly towards climate change with burning wood releasing about 50 per cent more CO₂ than burning coal.
3. That this House affirms that:
 - (a) burning native forests for biomass is not clean, not renewable and has no social licence,
 - (b) the clean energy future is here with jobs in solar and other renewables already growing rapidly and there is plenty of scope for Government support and investment, and
 - (c) our native forests are worth far more standing as carbon storage, habitat for animals and birds, and for recreation opportunities.

(Notice given 6 August 2019—expires Notice Paper No. 31)

157. Mrs Houssos to move—

That leave be given to bring in a bill for an Act to create the office of Dairy and Fresh Food Price Advocate and to provide for the objectives and functions of that office; and for related purposes.

2. That this House thanks the dedicated WIRES volunteers who give up their time to rescue injured native Australian animals.

(Notice given 7 August 2019—expires Notice Paper No. 32)

163. Remapping of old-growth and high-conservation-value public forests: resumption of the adjourned debate (8 August 2019) of the question on the motion of Mr Field:

1. That this House notes that:
 - (a) the Government is planning to allow logging in thousands of hectares of old-growth and high-conservation-value public forests on the North Coast that have been off limits for decades,
 - (b) these forests are rare and important ecosystems which provide irreplaceable habitat for many threatened species, such as koalas, gliders, quolls, frogs and owls,
 - (c) they have been protected as part of the nationally agreed reserve system for decades and have been granted state significant heritage protection for their historical significance, including to Aboriginal people, aesthetic significance, research potential, rarity and valuable habitat,
 - (d) this process is being driven by a desire to access more timber, based on a Forestry Corporation calculation that new rules under the Coastal Integrated Forestry Operations Approvals (CIFOA) to protect koala habitat and threatened ecological communities could result in a small timber supply shortfall of up to 8,600 cubic metres per year,
 - (e) despite advice from the Natural Resources Commission (NRC) that this wood supply shortfall “represent[s] the worst case scenario and may never be realised”, the Premier requested the NRC consider remapping old growth forests and rainforests to meet this shortfall,
 - (f) a pilot study of 13 areas of state forest found that remapping could open up 78 per cent of protected old growth forest to logging, despite all sites having vitally important habitat,
 - (g) the Government has committed over \$2 million to this remapping process, despite this cost far outweighing the \$1.5 million value of buying back the contracts for the maximum claimed timber shortfall,
 - (h) the funding is being provided by the Government despite the NRC recommending that any remapping and rezoning should be paid for by Forestry Corporation as the beneficiary, and
 - (i) remapping on private land has already opened up over 29,000 hectares of previously protected old growth forests to logging in recent years.
2. That this House agrees that remapping old growth forests:
 - (a) breaks the Government’s commitment to no erosion of environmental values under the new CIFOA,
 - (b) is based on timber supply impacts that are not verified and probably do not exist, and
 - (c) is a subsidy to logging which exceeds the value of the extra wood supply.
3. That this House call on the Government to:

- (a) end the remapping and rezoning of old-growth and rainforest on public and private land,
- (b) ensure no areas of forest currently protected will be opened up to logging, and
- (c) conserve native forests to protect biodiversity, store carbon and provide new tourism and recreational opportunities—Mrs Maclaren-Jones. (15 minutes)

Debate: 1 hour and 45 minutes remaining.

168. Mr Shoebridge to move—

1. That this House notes that:
 - (a) the Cumberland State Forest is the only metropolitan state forest in New South Wales,
 - (b) these 40 hectares of native forest provide important habitat for five threatened species including the Gang-gang Cockatoo, the Powerful Owl and the Greater Broad-nosed Bat, and
 - (c) this forest is also a valued recreation area for visitors and locals with bushwalks, picnic facilities, and a forest school education program.
2. That this House notes with concern that:
 - (a) Forestry Corporation has lodged an application for the rezoning of two sections of this forest from RU3 Forestry to R2 Low Density Residential with a height limit of 9 metres, and
 - (b) these sites at 87-97 Castle Hill Rd and 121-131 Oratava Ave, West Pennant Hills contain critically endangered Sydney Turpentine Ironbark Forest and Blue Gum High Forest.
3. That this House recognises that:
 - (a) the Hills shire area is growing with the 2006 population of 165,931 increasing to 172,473 in 2018,
 - (b) nearby Hornsby Shire is also experiencing constant growth and has grown by 9.1 per cent since 2003, and
 - (c) the increasing growth and densification in these surrounding areas creates a clear need for increased access to public green open spaces and recreation opportunities.
4. That this House recognises that the future of our publicly owned native forests is one where they are managed for their environmental values, and where resources are provided to support recreational opportunities including picnickers, bushwalkers and children.

(Notice given 7 August 2019—expires Notice Paper No. 32)

170. Mr Fang to move—

 - (e) members of the Committee for the Hunter include Newcastle Airport, The University of Newcastle, Compass Housing Services, the Hunter Business Chamber, the Hunter Medical Research Institute, Hunternet, Hunter Water, the Independent Creative Alliance Newcastle, the Property Council of Australia, the Samaritans, and the Urban Development Institute of Australia, New South Wales.
2. That this House congratulate the Committee for the Hunter on a successful launch event and wishes it every success in its work.

(Notice given 8 August 2019—expires Notice Paper No. 33)

173. Mr Shoebridge to move—

1. That this House notes that:
- (a) more than 120,000 welfare recipients who had their payments suspended last financial year were later found by their job agency to have had a valid reason for not meeting their obligations,
 - (b) since changes were introduced in July last year there has been a 70 per cent increase in the number of suspensions, with job seekers having their payments temporarily cut off 2.3 million times in 2018-19,
 - (c) one in five parents on the ParentsNext Scheme have had their payments cut off,

- (e) in one case an Aboriginal woman caring for eight children, seven of which were her late sister's children, had her payments completely cut off under the ParentsNext Scheme.
2. That this House acknowledges:
- (a) the Federal Government has recovered over \$41 million worth of false claims made by private employment agencies in just the past three years, under a privatised welfare-to-work program called Job Services Australia, and
 - (b) whistle-blowers who are current and former employees working in the ParentsNext Scheme have stated on public record that caseworkers are pressured to sign up and retain people who face significant personal crises, even though departmental guidelines stipulate they should be exempted.

 - (b) abolish Robodebt, and
 - (c) make the ParentsNext scheme genuinely voluntary.

 - (c) expanded across the world using small groups to deliver a big message,

 - (e) asks for the truth about climate change to be recognised and that governments act now on climate issues, and
 - (f) has 15 branches in New South Wales, including branches in Bondi, Sydney, Katoomba and Wollongong.
2. That this House acknowledges:
- (a) that civil society is leading the action on climate change where governments both state and federal have failed to act,
 - (b) that Extinction Rebellion and other groups in civil society are doing essential work, raising awareness and demanding action about the climate emergency, and
