- 163. Remapping of old-growth and high-conservation-value public forests:** resumption of the adjourned debate (8 August 2019) of the question on the motion of Mr Field:

- (1) That this House notes that:
 - (a) the Government is planning to allow logging in thousands of hectares of old-growth and high-conservation-value public forests on the North Coast that have been off limits for decades,
 - (b) these forests are rare and important ecosystems which provide irreplaceable habitat for many threatened species, such as koalas, gliders, quolls, frogs and owls,

- (c) they have been protected as part of the nationally agreed reserve system for decades and have been granted state significant heritage protection for their historical significance, including to Aboriginal people, aesthetic significance, research potential, rarity and valuable habitat,
 - (d) this process is being driven by a desire to access more timber, based on a Forestry Corporation calculation that new rules under the Coastal Integrated Forestry Operations Approvals (CIFOA) to protect koala habitat and threatened ecological communities could result in a small timber supply shortfall of up to 8,600 cubic metres per year,
 - (e) despite advice from the Natural Resources Commission (NRC) that this wood supply shortfall “represent[s] the worst case scenario and may never be realised”, the Premier requested the NRC consider remapping old growth forests and rainforests to meet this shortfall,
 - (f) a pilot study of 13 areas of state forest found that remapping could open up 78 per cent of protected old growth forest to logging, despite all sites having vitally important habitat,
 - (g) the Government has committed over \$2 million to this remapping process, despite this cost far outweighing the \$1.5 million value of buying back the contracts for the maximum claimed timber shortfall,
 - (h) the funding is being provided by the Government despite the NRC recommending that any remapping and rezoning should be paid for by Forestry Corporation as the beneficiary, and
 - (i) remapping on private land has already opened up over 29,000 hectares of previously protected old growth forests to logging in recent years.
- (2) That this House agrees that remapping old growth forests:
- (a) breaks the Government’s commitment to no erosion of environmental values under the new CIFOA,
 - (b) is based on timber supply impacts that are not verified and probably do not exist, and
 - (c) is a subsidy to logging which exceeds the value of the extra wood supply.
- (3) That this House call on the Government to:
- (a) end the remapping and rezoning of old-growth and rainforest on public and private land,
 - (b) ensure no areas of forest currently protected will be opened up to logging, and
 - (c) conserve native forests to protect biodiversity, store carbon and provide new tourism and recreational opportunities—Mrs Maclaren-Jones. (15 minutes)

Upon which Mr Searle has moved: That the question be amended by inserting after paragraph (c):

- "2. That this House notes that the House and its committees have consistently maintained that so-called statutory secrecy provisions, that is, provisions in statutes which prohibit in general terms the disclosure of certain categories of information, have no effect on the law of privilege, including the common law power of this House to order the production of State papers, unless they do so expressly or by necessary implication.
- 3. That this House further notes that this position has recently been expressly accepted by the Solicitor-General and the Crown Solicitor in a legal opinion provided to the Auditor General concerning the powers of parliamentary committees, in which the Crown Solicitor observed:

The Solicitor General expressed the general view that a statutory prohibition on disclosure of information will only be held to apply to disclosure to a Parliamentary committee if that is done expressly or by necessary implication.

I defer to the views of the Solicitor General. ... I would only add that the principle applied by the Solicitor General - that legislation will be presumed not to diminish the "privileges" of Parliament or its committees, unless it does so expressly or by necessary implication - has been accepted in several Australian cases.
- 4. That notwithstanding the power of the House to order the production of State papers subject to statutory privacy or secrecy provisions, the documents returned to the House under this order of the

House be redacted to remove information subject to the privacy and secrecy provisions of the Taxation Administration Act 1996."—Mr Buttigieg speaking. (3 minutes remaining)

 - (b) there have been submissions to the review from people with disability, as well as the organisations who work with them, outlining the importance of a well-funded, specialised and independent disability advocacy sector,
 - (c) people with disability must be the decision-makers about their lives and advocacy can assist people with disability to be fully able participate in decision-making, and
 - (d) while the NDIS has increased the need for advocacy, it only adds to the full range of work advocacy organisations do, including improving access to education, transport, housing, health, justice and more.

- (1) That this House notes that:
 - (a) 4 August 2020 is National Aboriginal and Torres Strait Islander Children’s Day, a day to focus on First Nations kids, culture, family and community, and
 - (b) National Aboriginal and Torres Strait Islander Children’s Day was established by 'SNAICC – National Voice for Our Children' in 1988 to recognise the many Aboriginal kids living in orphanages and institutions do not know their birthday and that this day was for them.
- (2) That this House notes that:
 - (a) Aboriginal children continue to be removed from their families at alarming rates in New South Wales and 40 per cent of children in out of home care are Aboriginal despite representing only 5 per cent of all children,
 - (b) the proportion of Aboriginal children and young people in out of home care is increasing,
 - (c) in 2019, Professor Megan Davis released ‘Family Is Culture’, a detailed and groundbreaking report from her independent review of Aboriginal children and young people in out of home care,
 - (d) the Family is Culture report makes 125 expert recommendations and a further 3,000 recommendations on individual cases that were reviewed, and
 - (e) the Government recently released its response to the report which was four pages long, failed to address the bulk of the 125 recommendations and contains no additional funding.
- (3) That this House calls on the Minister for Families, Communities and Disability Services to:
 - (a) implement the legislative reform called for in the Family is Culture recommendations, and
 - (b) provide the funding necessary to properly support Aboriginal families with early intervention and support services to avoid child removals.

(Notice given 4 August 2020—expires Notice Paper No. 67)

600. Mr Borsak to move—

- (1) That this House notes that:
 - (a) progressively since February 2020 the state of New South Wales, together with the rest of Australia and the international community, has faced an unprecedented COVID-19 public health pandemic,
 - (b) addressing the severe and unprecedented threat of the pandemic has necessitated sweeping and previously unimaginable public health order restrictions on the normal day to day life of the citizens of New South Wales,
 - (c) those changes have had, and continue to have, a significant impact on the physical, social, psychological and economic circumstances of the citizens of New South Wales as part of the collective effort to temper and manage the consequences of the pandemic, and
 - (d) public confidence and compliance with public health order restrictions is paramount to managing and preventing the spread of COVID-19.
- (2) That this House notes that:

- (a) on or about Friday 13 March 2020 the Leader of the Government in this place, the Hon Don Harwin, relocated from his primary home at Elizabeth Bay, Sydney, to his holiday home at Pearl Beach on the Central Coast,
- (b) subsequently, when the issue of his relocation became public, the Hon Don Harwin said, that he had chosen to move out of Sydney for health reasons as someone with comorbidities and a history of respiratory problems. He said “I have two residences. I have chosen to live at this one for health reasons.”,
- (c) the Hon Don Harwin also said his work from home arrangements were better at Pearl Beach than they were in his “small apartment in Sydney”. The Hon Don Harwin said “I live in a very built up area in Sydney with high density and here I have windows that can open so that I can have the fresh air and I can walk in fresh air and I have more room in my house than here than I would have in my small apartment in inner Sydney”,
- (d) when the relocation issue became public the Premier said, on 9 April 2020, “I was advised a few days ago ... he has been there for 3 weeks ... [h]e’d made that decision prior to and I don’t want to disclose his underlying health conditions, he may choose to do that. He’s made that decision prior to the restrictions that’s where he would base himself for his own personal health reasons. I’ll let him explain that. That’s not for me to disclose his underlying conditions and he advised me of this a few days ago ...”,
- (e) on Tuesday 17 March 2020, a Mr Geoffrey Winters returned from the United Kingdom and travelled to the Hon Don Harwin’s holiday home at Pearl Beach where he remained as a guest,
- (f) under NSW Public Health (COVID-19 Quarantine) Order 2020 dated 16 March 2020, commencing from the beginning of 17 March 2020, Mr Winters was subject to a mandatory quarantine period of 14 days commencing from his arrival in New South Wales and ending at midnight on the 14th day after that arrival being the end of Tuesday 31 March 2020. Under clause 5(1)(d) of the Order a person in quarantine in suitable premise was not permitted to allow any other person to enter the premises unless the other person usually resides at the premises. At the time the Hon Don Harwin’s primary home was at Elizabeth Bay, Sydney,
- (g) under NSW Public Health (COVID-19 Restrictions on Gathering and Movement) Order 2020 dated 30 March 2020, commencing from the beginning of Tuesday 31 March 2020, a person in New South Wales was restricted on leaving the person’s place of residence without a reasonable excuse,
- (h) at the time the Hon Don Harwin was discovered at his holiday house with his guest Mr Winters on Wednesday, 8 April 2020, he tried to hide the presence of Mr Winters by stating to the Daily Telegraph that he had no “guests coming and going from this house” despite photographic evidence to the contrary,
- (i) Mr Geoffrey Winters was self-isolating at the Hon Don Harwin’s Pearl Beach holiday home to prevent any chance of infecting an ill person at his usual home. Mr Winters chose to self-isolate at the Hon Don Harwin’s Pearl Beach holiday home out of fear he could infect a relative if he returned home. The NSW Police Commissioner said information was provided to Mr Winters that he could not isolate at his normal residence due to the health of someone else in that house,
- (j) during the time of Mr Winters’ quarantine stay at the Hon Don Harwin’s holiday home, the Hon Don Harwin travelled from his holiday home in Pearl Beach to Sydney on more than one occasion,
- (k) specifically, the Hon Don Harwin travelled from his Pearl Beach holiday home to Sydney on two publicly known occasions:

- (i) firstly, on Thursday 19 March for “essential meetings”, remaining in Sydney for five days before returning to Pearl Beach after the one day special sitting of Parliament on Tuesday 24 March 2020,
 - (ii) secondly, on Wednesday 1 April 2020 for the day for a medical appointment. This was also the first day Mr Winters was free from quarantine,
 - (l) during the first occasion the Hon Don Harwin went clothes shopping on Sunday 22 March 2020 at Westfield Eastgardens, approximately 20 minutes drive from his primary home at Elizabeth Bay residence,
 - (m) when first asked about travelling from his Pearl Beach holiday home, the Hon Don Harwin only nominated one occasion, the medical appointment in Sydney. He made no reference to the 5 day visit to Sydney for essential meetings and the special sitting of Parliament,
 - (n) despite the grave seriousness of the pandemic, the Hon Don Harwin did not disclose to the Premier, his fellow cabinet ministers or his parliamentary colleagues, including when he attended Parliament for the special sitting on Tuesday 24 March, that a person under quarantine was staying with him at his Pearl Beach holiday home,
 - (o) additionally, the Hon Don Harwin did not disclose to the Premier, or as far as is publicly known other cabinet ministers or parliamentary colleagues, that he had “relocated” from his Elizabeth Bay primary home to his Pearl Beach holiday home until a few days prior to 9 April 2020,
 - (p) in response to the media reporting of Mr Harwin’s conduct, the Premier expressed her disappointment stating that the “perception is horrible” and that “It’s not just about sticking to the rules, it’s about making sure there’s a perception that everybody is sticking to the rules including members of Parliament ... I regret and apologise to everybody that somebody from my team took this action,”
 - (q) the police sought an explanation from Mr Harwin for his conduct and subsequently issued a \$1,000 penalty infringement notice for breach of the COVID-19 public health order restrictions. The issue of this infringement notice was reviewed by the Police Commissioner, Mr Fuller, prior to its issue,
 - (r) after stating that he did not wish his actions to “cause a distraction”, Mr Harwin moved back to Sydney and apologised to the Premier and the NSW community, insisted that he had sought official advice in order to adhere to the public health order, and resigned as a minister of the Crown,
 - (s) Mr Harwin challenged the fine imposed by the NSW Police and on Friday 3 July 2020 the matter was withdrawn by the NSW DPP in the Gosford Local Court on the basis of insufficient evidence,
 - (t) notwithstanding the DPP decision not to proceed, the NSW Police Commissioner issued a statement that he stood by his original decision to issue the Hon Don Harwin with the penalty infringement notice, and
 - (u) later that day, the Hon Don Harwin was reappointed as a Minister of the Crown, the Leader of the Government in the Legislative Council and Vice-President of the Executive Council.
- (3) That this House considers there are grounds on which to could conclude:
- (a) that the above mentioned conduct of the Leader of the Government, the Hon. Don Harwin, in the middle of an unprecedented public health crisis when any non-compliance with public health orders was potentially life threatening, was not only a grave misjudgement but, in the words of the Premier, created a horrible perception that a member of parliament was not sticking to the rules,

- (b) that the Hon. Don Harwin’s conduct undermined trust in the NSW Government and its strong community messaging that members of the public must comply with public health orders to keep NSW safe from COVID19,
 - (c) that the failure of the Hon Don Harwin to inform the NSW Parliament, his colleagues in this House, or in the other place, that he was residing with a person subject to a mandatory 14 day COVID19 quarantine in his Pearl Beach holiday home at the time he attended the special sitting of Parliament on Tuesday, 24 March 2020 is a fundamental and disgraceful breach of the necessary mutual trust and confidence between honourable members of this House, and
 - (d) that the egregious personal conduct of the Hon Don Harwin falls alarmingly short of the standard expected of the Leader of the Government, a Minister of the Crown and a member of this House.
- (4) That this House orders the Leader of the Government, the Hon Don Harwin, to attend in his place at the Table at the conclusion of formal business on the next sitting day following the passing of this resolution to explain his conduct and in particular to answer the following specific questions:
- (a) why he stated that he had moved to his holiday home at Pearl Beach because of health reasons but at the same time had Mr Winters join him at his holiday home knowing that Mr Winters was serving a mandatory COVID19 quarantine period of 14 days and therefore posed a serious risk to his health,
 - (b) how Mr Winters was transported to his holiday home at Pearl Beach from Sydney airport and whether Mr Winters left his holiday home at any time during Mr Winters' 14 day COVID19 quarantine period,
 - (c) whether he left his holiday home on any other occasion during Mr Winters' COVID19 quarantine, apart from the aforementioned trips on 19 March 2020 for five days and 1 April 2020,
 - (d) whether he hosted any other guests at his holiday home during the period of Mr Winters’ 14 day COVID19 quarantine,
 - (e) whether he had any other visitors at his holiday home during the period 13 March 2020 to 10 April 2020, and
 - (f) whether, on his visits to Sydney in March 2020 and April 2020, he advised anyone, including any of his parliamentary colleagues, that at the time he was sharing his holiday home with Mr Winters that Mr Winters was serving a 14 day COVID19 quarantine, and if so who, and if he didn't advise anyone, why he didn't.

(Notice given 4 August 2020—expires Notice Paper No. 67)

606. Ms Hurst to move—

- (1) That this House notes that:
 - (a) penalties for animal abuse in New South Wales are among the lowest in the country, with a maximum penalty of just \$5,500 or 6 months imprisonment for an animal cruelty offence,
 - (b) in 2018, the Government published a discussion paper in which it acknowledged that NSW Police Force, RSPCA and Animal Welfare League all view the current penalties as “insufficient and out of step with community expectations”,
 - (c) despite this feedback from enforcement agencies, and strong community support, the Government has failed to increase penalties for animal cruelty, and

- (d) the existing, weak penalties in New South Wales do nothing to deter animal abuse, and ignore the strong link between violence against animals and violence against humans.
- (2) That this House calls on the Government to urgently increase penalties for animal abuse.

(Notice given 4 August 2020—expires Notice Paper No. 67)

- (d) “a lack of independence, authority and whole-of-government effort”, and

- (3) That this House notes that:
- (a) despite estimating that it would reach over 40,000 children, Their Futures Matter only assisted 6,261 vulnerable children and families over four years, and
 - (b) the Minister for Families, Communities and Disability Services has allowed this important reform to lapse without a plan, strategy or funding bid to support reform of a system in crisis.
- (4) That this House condemns the Minister for Families, Communities and Disability Services for failing to deliver this significant reform for vulnerable children and young people in New South Wales.

 - (b) everyone should have an equal access to public information and services through government websites,

That this House notes that:

- (a) on 4 July 2020, the Shooters, Fishers and Farmers Party's candidate for the Eden-Monaro by-election, Mr Matthew Stadtmiller, polled 5,058 votes, 5.34 per cent of the primary vote, supported by a modest but highly effective campaign,
- (b) the Shooters, Fishers and Farmers Party outpolled The Nationals in an overwhelming majority of the Eden-Monaro polling booths,

- (c) The Nationals candidate for the Eden-Monaro by-election was local Queanbeyan Palerang Councillor and former Deputy Mayor, Mr Trevor Hicks, who polled just 5,405 votes, only 6.62 per cent of the primary vote, representing a reduced vote for the Nationals by 1,494, down from 6,899 primary votes at the 2019 general election,
- (d) Mr Hicks was strongly supported by the local State member and Deputy Premier, Mr John Barilaro, MP, who personally promoted Mr Hicks candidature through local State Government announcements, robocalls and direct mail,
- (e) some local residents actually thought Mr Barilaro was The Nationals candidate given the strength of his personal campaign for Mr Hicks, especially as Mr Barilaro had earlier put his hand up to run for the seat before suddenly and inexplicably pulling out when he learned his colleague Mr Andrew Constance MP, wanted to run too,
- (f) The Nationals campaign featured an array of crazy, desperate antics designed to both attract media attention and undermine the campaign of their coalition partners, the Liberals, including:
 - (i) Mr Barilaro publicly confirming his Nationals party room confession that at the 2019 general election he preferred the Labor candidate for Eden-Monaro, Mike Kelly, before the Liberal candidate, Fiona Kotvojs,
 - (ii) Mr Barilaro refusing to rule out running at the next Federal general election for the seat of Eden-Monaro if the Liberals failed to win the seat,
 - (iii) Mr Barilaro lavishing generous praise on the Labor by-election candidate Kristy McBain during the course of the by-election campaign, including referring to her as a personal friend and a great local mayor on Sky which the Labor party then cleverly ran as a campaign endorsement for Ms McBain,
 - (iv) sensational claims published by The Australian newspaper that The Nationals candidate Mr Hicks was busted handing out Labor approved how-to-vote cards which urged Nationals voters to preference Kristy McBain before the Liberals if they wanted “a member who will work with John Barilaro”,
- (g) Mr Barilaro’s shameless sabotage of the Liberals campaign helped Labor retain the seat of Eden-Monaro, with one wag saying, 'With friends like Barilaro, who needs enemies', and
- (h) the poor Nationals result in the Eden-Monaro by-election should be seen as directly reflecting on Mr Barilaro’s erratic and doomed leadership of The NSW Nationals and signals an acceleration in the decline of the Nationals as a truly representative political force in regional New South Wales.

(Notice given 4 August 2020—expires Notice Paper No. 67)

634. Mr Borsak to move—

- (1) That this House notes with deep concern the recent actions and statements of the Deputy Premier, Mr John Barilaro, MP, including:
 - (a) on 5 July 2020 when he attacked a proposal on New South Wales electoral redistribution by the recently resurrected Leader of the Government, the Hon Don Harwin, MLC, describing it as 'a dog act' and a 'vengeful square up' for calling Mr Harwin out for staying at Pearl Beach in breach of COVID19 restrictions,
 - (b) regularly attacking fellow ministerial colleagues and decisions of his own Cabinet in the media, as if he wasn't even in the room when the decision was made,
 - (c) publicly confirming his Nationals party room confession, that at the 2019 Federal general election he voted for the Labor Party ahead of the Liberals in the seat of Eden-Monaro,
 - (d) publicly announcing his candidature for the Eden-Monaro by-election then suddenly and inexplicably withdrawing it when his Liberal colleague Mr Andrew Constance, MP, decided to run,

- (e) referring to Mr Constance using a profanity in text messages which contributed to the withdrawal of Mr Constance from the Eden-Monaro by-election,
 - (f) on 4 July 2020 on Sky News stating that he would have won the Eden-Monaro by-election if he had run despite lacking the courage to stay in the race when Mr Constance put his hand up and ignoring the fact that his own strongly endorsed candidate only polled 6.5 per cent of the vote,
 - (g) on 8 July 2020 announcing funding for the testing of flying electric cars in Narromine, yet failing to adequately fund more immediate needs like critical regional health services, and
 - (h) on 13 July 2020 proposing that the Melbourne Cup should be run in Sydney.
- (2) That this House notes that many in the NSW Nationals and Liberal parties are now questioning the motives behind Mr Barilaro’s erratic and self-indulgent behaviour and the continued viability of Mr Barilaro’s leadership with some now openly calling him “Bonkers Barilaro” and personally blaming him for the Coalition’s failure to win the Eden-Monaro by-election, and
 - (3) That this House notes that as a result of Mr Barilaro’s leadership, the voters in regional New South Wales are increasingly turning away from the Nationals and towards the surging Shooters, Fishers and Farmers Party which not only won two more Nationals seats at the 2019 State election but again outpolled the Nationals in a majority of the polling booths at the 2020 Eden-Monaro by-election.

(Notice given 4 August 2020—expires Notice Paper No. 67)

635. Mr Borsak to move—

638. Ms Hurst to move—

- (1) That this House notes that:
 - (a) approximately eight million ducks are slaughtered for consumption in Australia each year,
 - (b) the majority of these ducks spend their lives confined in intensive factory farms, without any access to water sources to swim, preen or bathe,
 - (c) this is despite the fact that ducks are aquatic animals that require water to clean themselves, regulate their body temperature, and take pressure off their joints,
 - (d) deprivation of surface water can lead to severe health problems for ducks including lameness, dislocated joints, broken bones, splay legs, heat stress and keratoconjunctivitis, which is a serious eye condition that can cause blindness, and
 - (e) despite these well-known health issues, the existing Model Code for Poultry in Australia does not require ducks to be provided with access to appropriate water sources.
- (2) That this House acknowledges the pain and suffering of ducks farmed in New South Wales, and the failure of our laws to cater to their most basic needs.

 - (c) the reasons why the workers are on strike are to demand:

 - (ii) a ratio of 80 per cent permanent to 20 per cent casual staff and conversion to permanent to be based on length of service,
 - (iii) and that Woolworths stop enforcing unsafe pick rates.

 - (a) these workers have kept going to work in a pandemic to make sure shelves stayed stocked, they deserve fair pay and conditions in return,

- (1) That this House notes that:
 - (a) face masks are an effective method to protect individuals from the transmission of COVID-19 by reducing the risk of an individual contracting or transmitting the virus,
 - (b) the Premier has given a 'strong recommendation' that people wear masks when they are in enclosed spaces, while working in customer-facing roles in hospitality or retail, when attending a place of worship or if they are in an area of high community transmission,
 - (c) on 24 July 2020, NSW Health issued a directive that requires all healthcare workers at public hospitals and community health settings to wear face masks when they are within 1.5 metres of a patient, and
 - (d) this directive does not apply to healthcare workers in private hospitals, general practice clinics or aged care facilities and other non-public healthcare services.
- (2) That this House calls on the government to require all healthcare workers in New South Wales to wear a mask when they are within 1.5 metres of a patient regardless of whether they work in a public or private healthcare setting.

- (2) That this House calls on the government to fast track this project, by returning to its original construction timeline.

(Notice given 5 August 2020—expires Notice Paper No. 68)

654. Ms Hurst to move—

- (1) That this House notes that:
- (a) in Australia, rabbits are bred and raised for meat in battery cages so small, they cannot sit up with their ears erect or exhibit basic natural behaviours such as nesting, foraging and gnawing,
 - (b) this intensive confinement leads to high levels of psychological distress in rabbits, as well as health problems such as splay legs, metabolic disturbances, Coccidiosis and abscesses,
 - (c) the accumulation of faeces in their tiny cages, combined with poor ventilation, also causes high levels of ammonia and respiratory problems, and
 - (d) rabbits bred for meat are then sent to slaughter at just 10 to 12 weeks old, a small fraction of their natural lifespan of 8 to 14 years, and are killed using cruel methods such as decapitation by circular saw.
- (2) That this House condemns the treatment of battery-caged rabbits in an industry that is unknown to the vast majority of Australians.

(Notice given 5 August 2020—expires Notice Paper No. 68)

655. Ms Hurst to move—

- (1) That this House notes that:
- (a) the commercial honey industry uses cruel practices designed to exploit the honey bee's natural desire to live and protect their hive,
 - (b) like other factory-farmed animals, honey bees are forced to live in unnatural conditions and are subjected to invasive procedures, including the killing of male bees to take semen from their dead bodies to artificially inseminate the queen bee,
 - (c) to avoid any decline in honey production, commercial beekeepers will often clip the wings of the queen bee, or kill and replace her with a younger queen, to prevent swarming,
 - (d) once honey is extracted from the hive, it is usually replaced with a sugar water solution which weakens the bees' immune system, leaving them vulnerable to infection and disease, and
 - (e) many industrial bee farmers will kill all the bees in a hive after extracting the honey, because it is cheaper than feeding and keeping them alive throughout winter.
- (2) That this House condemns the cruelty inherent in the factory farming of bees in Australia and around the world.

(Notice given 5 August 2020—expires Notice Paper No. 68)

658. Mr Shoebridge to move—

- (1) That this House notes that:
 - (a) today 5 August 2020 marks 12 months since the Indian government deployed tens of thousands of additional troops to Indian Occupied Kashmir, imposed a state-wide curfew, cut communications and internet services, placed elected political leaders under house arrest and shut down local media, and
 - (b) As stated in an open letter from Stand With Kashmir Australia, since the Indian takeover:
 - (i) military and security forces have detained over 13,000 young Kashmiri boys and the number of troops in the state has risen to nearly one million,
 - (ii) with the curfew and communications shutdown enforced for almost a year now, residents are experiencing shortages of medical supplies, prescription medications, food and basic necessities,
 - (iii) under new laws, the government has given itself interpretative leeway to censor any journalism it does not like, empowering the Indian state to legally and economically punish journalists in Kashmir for what is broadly defined as 'fake news' and 'anti-national' content,
 - (iv) journalists are being fined and arrested for attempting to report on the situation truthfully,
 - (v) the Indian state has introduced a new Domicile Law, to allow non-Kashmiri people to settle as Permanent Residents of Kashmir, leading to demographic change in the region,
 - (vi) many indigenous Kashmiris do not have adequate documentation and without adequate documents, they will be rendered stateless in their own homes and dispossessed from education, employment and land rights, leading to massive displacement,
 - (vii) Indian settlers who obtain domicile certificates will be part of the settler-colonial project, resulting in demographic flooding, paving the way for ethnic cleansing and an influx of Indian settlers could impact on future elections and influence the outcome of a plebiscite or referendum on the Kashmir issue.
- (2) That this House calls on the Australian Government to:
 - (a) require an ongoing dialogue that critically reviews India's actions in Kashmir,
 - (b) renegotiate trade agreements between Australia and India so that they include a human rights clause, and
 - (c) to stand up for basic international principles and the right to self-determination of all people on this planet.

- (1) That this House notes that:
 - (a) gelatin is obtained by boiling animal skin, tendons, ligaments and bones in water, and is usually obtained from cow or pig body parts left over from the meat industry, and
 - (b) gelatin is used in a range of products that the average consumer may not expect, such as cosmetics products, jellies, lollies, marshmallows, vitamins and as a clarifying agent in wines.
- (2) That this House recognises that gelatin is a by-product of the death, pain and suffering of animals in the animal agriculture industry.

(Notice given 6 August 2020—expires Notice Paper No. 69)

 - (a) quail is the largest game bird industry in Australia, with 6.5 million quail slaughtered each year for meat and eggs,
 - (b) in addition to being hunted, quail are the smallest animal to be intensively farmed in Australia, and
 - (c) farmed quail live short, miserable lives in small wire cages, where they have no room to move, stretch their wings, fly or dustbathe, and will never be allowed outside.
- (2) That this House condemns the hidden suffering of quails in the animal agribusiness industry.

(Notice given 6 August 2020—expires Notice Paper No. 69)

 - (a) approximately 80 per cent of transmission of COVID-19 in Victoria occurs in the workplace,
 - (b) Melbourne's 25 lowest income postcodes have had more than half the COVID-19 cases, which are the same suburbs with the highest rates of insecure work,
 - (c) nearly 550,000 workers in Sydney alone have no access to paid sick leave,
 - (d) the federal government has recently announced paid pandemic leave for workers who need to self isolate in Victoria because of COVID-19, and
 - (e) insecure work is perhaps the single largest preventable risk of COVID-19, as everyone has a right to a steady job and to take paid time off if they're sick, to stop similar rates of transmission as in Victoria workers in New South Wales must be able to take paid time off if they are sick.
- (2) That this House calls on the Federal Government to immediately expand paid pandemic leave nation-wide to prevent outbreaks in other states and cities.

(Notice given 6 August 2020—expires Notice Paper No. 69)

664. Mr Shoebridge to move—

- (1) That this House notes that:
 - (a) on 13 July 2020 two Bahraini men, Mohammed Ramadan, 37, and Husain Moosa, 34, who say they were tortured into making false confessions, were sentenced to death by the Court of Cassation in the Kingdom of Bahrain,
 - (b) the two men are both pro-democracy activists and members of Bahrain's Shiite minority,
 - (c) since 2011, the Bahraini government has prosecuted a growing number of Shiite leaders and activists, and
 - (d) the sentences follow the executions of two men in July 2019 despite United Nations human rights experts expressing extreme concern about the sentences and amid allegations that their confessions were obtained under torture.
- (2) That this House calls on the Australian Government to:
 - (a) denounce the death sentences and continues international diplomatic endeavours to abolish the death penalty globally, and
 - (b) advocate for the restoration of democracy in Bahrain and the release of pro-democracy activists held in Bahrain jails.

(Notice given 6 August 2020—expires Notice Paper No. 69)

665. Mr Pearson to move—

 - (b) investigating various claims concerning the:
 - (i) global rollout of 5G technology,
 - (ii) impact of 5G's radiofrequency radiation on human health.
- (2) That this House notes with concern that there are members of the public:
 - (a) who are genuinely afraid of radiofrequency radiation, and
 - (b) who object to the construction of 5G mobile phone towers in their communities because of 5G's capacity to emit radio waves with:
 - (i) a much higher frequency,
 - (ii) data speeds more than 100 times faster than 4G.
- (3) That this House notes that some social media influencers are:
 - (a) conflating the rollout of 5G with the appearance of the SARS-CoV-2 pandemic,
 - (b) disseminating a number of conspiracy theories about viruses and 5G, and
 - (c) claiming that 5G's millimetre wave technology was secretly developed by governments as a weapon to threaten and control people.

- (4) That this House urges the Government to:

 - (b) called out the Minister for Agriculture, the Honourable Adam Marshall MP, for turning a blind eye to the rampant puppy farming industry much of which is within his own electorate,
 - (c) highlighted the failure of Minister Marshall to take the legislative steps necessary to stamp out the intensive puppy farming trade, despite five years passing since his own inquiry into the issue, and
 - (d) highlighted the failure of Minister Marshall to protect companion animals in this State.

(2) That this House congratulates Ms Campion for her article.

(Notice given 25 August 2020—expires Notice Paper No. 70)

676. Ms Hurst to move—

(1) That this House notes that:

- (a) cows raised in the industrial dairy industry are subject to a continuous cycle of calving, milking and impregnation throughout their lives,
- (b) these cows have been selectively bred to produce almost double their natural milk supply, and are artificially forced to give birth almost once a year so that their milk supply can be constantly maintained,
- (c) this cycle puts significant metabolic strain on the cows, who can suffer from painful stretching and tearing of ligaments, foot problems and infections to the teat and udders such as mastitis,
- (d) standard dairy industry practice is to separate calves from their mothers within 24 hours of birth, which causes significant distress for both mother and calf, and
- (e) once a dairy cow ceases to produce enough milk, she is considered ‘spent’ by industry and killed.

(2) That this House acknowledges the constant cycle of cruelty associated with the modern dairy industry.

(Notice given 25 August 2020—expires Notice Paper No. 70)

677. Ms Hurst to move—

(1) That this House notes that:

- (a) the consumption of animal products is associated with serious negative health risks,
- (b) like tobacco, processed meat is classified by the World Health Organisation as a Group 1 carcinogenic, meaning there is convincing evidence that it causes cancer, while red meat has also been linked to cancer, heart disease, type 2 diabetes and obesity,
- (c) the consumption of cow's milk and other dairy products can also lead to an increased risk of breast, ovarian and prostate cancer, and can cause higher rates of heart disease, type 2 diabetes, and Alzheimer's disease, and
- (d) adopting a plant-based diet has many health benefits and can reduce the risk of heart disease, which is the leading cause of death in Australia, as well as type 2 diabetes, obesity and certain types of cancer.

(2) That this House acknowledges the harm caused to both human and animals by the production and consumption of animal products.

(Notice given 25 August 2020—expires Notice Paper No. 70)

680. Mr Latham to move—

That this House:

- (a) declares its commitment to the rights of parents in New South Wales as a basic human right, one of the foundations of our society,
- (b) asserts that parents should be the primary carers, advisors and loving mentors to their children, especially in deeply personal matters of individual identity, gender and sexuality, and
- (c) declares its opposition to laws such as that proposed in the Australian Capital Territory that create an offence for parents to talk to and advise their children in the matters listed in paragraph (b).

(Notice given 25 August 2020—expires Notice Paper No. 70)

681. Mr Latham to move—

- (1) That this House notes:
 - (a) the findings of the NSW Domestic Violence Death Review Team 2017-2019 Report and the consistent pattern of underclass circumstances and influences surrounding the homicides reported, and
 - (b) the failure of the Honourable Mark Speakman, SC MP, Minister for the Prevention of Domestic Violence to answer Legislative Council question on notice numbers 1765 and 1766 for the aggregated tabulation of the circumstances of the victims and perpetrators of these homicides (112 in total for the period 2008-2016) in relation to their employment status, housing status, residential status, prior criminal history, drug and alcohol use history and mental health history, as this information, if provided, would help further parliamentary and public understanding of the possible drivers of the tragedy of domestic violence deaths.
- (2) That this House calls on Minister Speakman to be transparent in this vital area of public safety concern in New South Wales and answer the questions put to him, recognising that the data collected can only assist in developing policies that reduce the incidence of family violence and domestic violence deaths in our state.

(Notice given 25 August 2020—expires Notice Paper No. 70)

682. Mr Latham to move—

That this House:

- (a) notes with concern the massive failures of public administration in Victoria leading to the hotel quarantine calamity that generated a second wave of COVID-19 infections, caused hundreds of deaths and severely damaged every part of the national economy,
- (b) urges the NSW Government to study these failings and learn from them for the benefit of public administration in our state, especially in areas of public health and safety,
- (c) notes that the primary failure in Victoria was the hiring of untrained, unqualified security guards on the basis of so-called ‘social inclusion’ criteria that put identity politics ahead of merit selection and cost-effectiveness,
- (d) notes the case of the Victorian public servants who were moved from the Parks agency to run hotel quarantine and were given training in ‘Equity and Diversity’ but not training in infection control, knowledge of COVID-19 or Personal protective equipment (PPE) usage,
- (e) notes that there was a time when governments awarded tenders on the basis of merit, cost-benefit analysis and proven performance, but this has now been surpassed by considerations of race, gender, sexuality, language use, ‘diversity and inclusion’, unconscious bias, so-called ‘white male privilege’, cultural sensitivity training, and cultural appropriation etc.,

- (f) notes that with additional selection factors being introduced, the administration of government programs, such as hotel quarantine, has become unnecessarily complex and uncoordinated, with multiple agencies needing to be involved, as evidenced in Victoria where the development of the hotel quarantine program involved its Health Department, Global Victoria (a trade agency), Jobs Department, agricultural and parks agencies and Attorney-General's Department and many of their 'Diversity and Inclusion Units', and
- (g) urges the NSW Government to remove the factors listed in paragraphs (e) and (f) from its employment, tender and workplace policies and return the government of the State to the principles of merit selection, cost-effectiveness and the best possible customer service.

(Notice given 25 August 2020—expires Notice Paper No. 70)

(Notice given 25 August 2020—expires Notice Paper No. 70)

693. Mr Graham to move—

- (1) That this House notes that:
 - (a) on Wednesday 5 August 2020, the House ordered the production of documents relating to Community Funds and Grants, and

- (b) on Wednesday 19 August 2020 the House received correspondence from the Secretary, Department of Premier and Cabinet that stated:
- (i) "Paragraph (a) of the resolution requires production of 'all documents concerning the applications' relating to the funds listed at (i) to (vi), rather than the applications themselves. The applications are voluminous documents, often containing multiple large attachments. Accordingly, due to the scope of the resolution and the limited timeframe given for compliance, the Department has not provided the actual application documents submitted for the two grant rounds of the Regional Cultural Fund. If the Legislative Council requires access to the applications, the Department can arrange access.",
 - (ii) "Because of the volume of documents captured and the limited timeframe for compliance with the resolution, the Department has generally not produced documents of an administrative nature (such as call logs) or draft documents. The Department can arrange access to those documents if required by the Legislative Council",
 - (iii) "The Secretary of the Department of Education has written to advise that, due to the volume of documents captured by the resolution and the limited timeframe, it will be producing the documents in two tranches. The first tranche has been provided and a further tranche of documents will be provided to the Department by 14 September 2020".
- (2) That this House:
- (a) asserts its power to require the production of all documents captured by the order for the production of documents of Wednesday 5 August 2020 relating to Community Funds and Grants,
 - (b) calls on the Government to comply with the order for the production of documents of Wednesday 5 August 2020 relating to Community Funds and Grants,
 - (c) acknowledges the request from the Department of Education to produce the documents in two tranches,
 - (d) considers failure to provide all documents captured by the order of the House to constitute non-compliance with the order the House, and
 - (e) notes that it is open to the House to take such action necessarily to compel compliance with the order for papers.

(Notice given 25 August 2020—expires Notice Paper No. 70)

694. Mr Field to move—

 - (b) rejects the definition of Cabinet documents used in the Government Information (Public Access) Act 2009 which if followed may lead to a much broader class of documents being withheld from the House.

(Notice given 25 August 2020—expires Notice Paper No. 70)

697. Ms Faehrmann to move—

- (1) That this House notes that:
 - (a) in its recent 2020-2021 Independent Arts and Cultural Organisations (Multi-Year Funding) round, Create NSW has chosen not to grant funding to well-established small to medium arts organisations, including Writing NSW, PACT Centre for Emerging Artists and South Coast Writers Centre,
 - (b) over 50 other applicants were unsuccessful in securing their funding in the same round,
 - (c) applicants waiting on decisions reported hearing their organisation's fate through media sources or word-of-mouth, adding unnecessary stress to many organisations and individuals struggling to survive due to the COVID-19 shutdowns, and
 - (d) Create NSW's decision not to grant funding to these organisations will result in loss of employment, cessation of program delivery, devaluation of the arts and cultural industry now and in the future. These outcomes will be especially felt by young people, working class people, marginalised people and regional communities who rely on small to medium organisations to provide early career support and development.
- (2) That this House calls on the Government to:
 - (a) undertake an urgent review of Create NSW's budget priorities in the wake of the devastating impact of the COVID-19 shutdowns, including the allocation of just under \$10 million for the 2020/2021 Independent Arts and Cultural Organisations (Multi-Year Funding), and
 - (b) recognise the importance of maintaining arts and cultural program funding during the pandemic to ensure the long term viability of the NSW Arts sector and the impact of arts funding decisions on industry workers' livelihoods and mental health.

(Notice given 25 August 2020—expires Notice Paper No. 70)

698. Ms Faehrmann to move—

- (1) That this House notes that:
 - (a) on 4 August 2020, 2,750 tonnes of ammonium nitrate stored in a facility at the Port of Beirut caught fire creating an explosion that resulted in over 200 deaths, 6,000 injuries, flattened the port and caused widespread damage throughout the City of Beirut and between US \$10 to \$15 billion of economic losses for Lebanon,
 - (b) the explosion was so large that it was felt up to 240 kilometres away and detected by the United State Geological Survey as a 3.3 local magnitude earthquake, and
 - (c) there have been 30 major explosions of ammonium nitrate around the world including a 2001 explosion in Toulouse that killed 29 people and a 2013 explosion in Texas City that killed 15 people, both involving roughly 300 tonnes of ammonium nitrate.
- (2) That this House acknowledges that:
 - (a) the Orica ammonium nitrate plant at the Port of Newcastle, just 3 kilometres from the Newcastle CBD, stores up to 11,000 tonnes of ammonium nitrate at a single time, nearly four times the amount that caused the devastating Beirut explosion,
 - (b) Crawford's Freightlines' Sandgate facility can store up to 13,500 tonnes of ammonium nitrate just 300 metres from Newcastle residential areas and 600 metres from a nursing home,
 - (c) an explosion at either site would impact an area containing 40,000 Newcastle residents and cause unimaginable damage to the City of Newcastle and the New South Wales economy,
 - (d) a 2011 NSW Upper House inquiry into the Kooragang Island Orica chemical leak found that Orica had breached its licence 130 times in a ten year period, was responsible for three chemical spills over three months and the release of arsenic into the Hunter river,
 - (e) Crawford's Freightlines has a history of committing offences including illegally storing 10,000 tonnes of ammonium nitrate in 2012 and being issued with two prevention notices and four official cautions by the EPA in 2016 for poor environmental practices at their Sandgate premises,
 - (f) a community petition calling for Orica to relocate their ammonium nitrate stockpile at the Newcastle Port to a safer location has almost 15,000 signatures, and
 - (g) community groups including Stockton Community Action Group, Correct Planning and Consultation for Mayfield, Throsby Villages Alliance, Better Planning Network NSW and Hunter Community Forum have been raising major concerns about the large stockpiles of ammonium nitrate so close to Newcastle for many years.
- (3) That this House calls on the Government to:
 - (a) work with Orica and Crawford's to urgently relocate their stocks of ammonium nitrate away from all residential areas, and
 - (b) guarantee that any future production and storage of ammonium nitrate in New South Wales will not impact residential areas in the event of an explosion.

(Notice given 25 August 2020—expires Notice Paper No. 70)

700. Mrs Ward to move—

 - (c) University of Sydney chancellor and businesswoman Belinda Hutchinson, is one of three Australians to receive the highest Queen's Birthday Honour in 2020, named as companion of the Order of Australia for her eminent service to business, to tertiary education and scientific research, and through philanthropic endeavours to address social disadvantage,
 - (d) from the second highest honour category, the Officer of the Order of Australia, 24 recipients from New South Wales were honoured with six of those being women,
 - (e) 17 exceptional New South Wales women who received Member of the Order of Australia honours, and

 - (b) notes that female representation from New South Wales recipients is down to 38 per cent across all award categories, and
 - (c) calls on New South Wales state leaders to continue to nominate outstanding women through the Order of Australia 2021 with a view to achieving balance in the future.

(Notice given 25 August 2020—expires Notice Paper No. 70)

703. Ms Hurst to move—

- (1) That this House notes that:
- (a) approximately two million goats are killed for their flesh in Australia each year,
 - (b) the majority of the goats killed are wild Rangeland goats, who are caught using traps constructed around water points,
 - (c) these wild goats will remain in these traps for up to 24 hours, highly stressed and without food, before being forced onto trucks and undergoing the terrifying process of being transported to slaughter, and
 - (d) goats used in the Australian dairy industry also suffer, particularly the females who have their horn buds painfully removed, before being forcibly impregnated to induce milk production, while the male kids are considered wastage and slaughtered at just one day old.
- (2) That this House condemns the inhumane treatment of goats by the meat and dairy industry in Australia.

(Notice given 26 August 2020—expires Notice Paper No. 71)

704. Ms Hurst to move—

- (1) That this House notes that:
- (a) over 28 million farmed sheep are killed in Australia, the vast majority of which are lambs under one year old,

- (b) a quarter of lambs in the animal agribusiness industry will die within 48 hours of birth, due to selective breeding by industry which causes female sheep to give birth to an unnatural number of lambs, many of whom are too small or weak to survive,
 - (c) the lambs that do survive will be subjected to a range of brutal animal husbandry procedures, including tail docking, mulesing and castration, without any pain relief, and
 - (d) at just six months old, these terrified lambs will be crammed into trucks for up to 48 hours without food or water and transported to an abattoir, where they will be killed alongside thousands of their companions.
- (2) That this House acknowledges that the treatment of these sentient animals by the animal agribusiness industry is manifestly cruel, and is not consistent with community expectations or values.

(Notice given 26 August 2020—expires Notice Paper No. 71)

711. Mr Mallard to move—

 - (b) the new intercity fleet has started testing and training on the Sydney network and testing is expected on the lines to Katoomba in the coming months,
 - (c) the existing trains on the Blue Mountains line are over 30 years old and due for retirement, and
 - (d) Labor failed to upgrade the Blue Mountains trains during their 16 lost years in office putting Blue Mountains commuters in the ‘too hard’ basket.
- (2) That this House notes that only the Coalition Government has invested millions in upgrading the lines, tunnels and stations to allow the new state-of-the-art intercity fleet to service our community and the whole intercity network and to future proof the Blue Mountains lines.
- (3) That this House congratulates the Berejiklian Government for their record investment in transport infrastructure and condemns the fake news and opposition to the new trains by the local Labor Member of Parliament.

(Notice given 27 August 2020—expires Notice Paper No. 72)

714. Ms Hurst to move—

- (1) That this House notes that:
- (a) approximately 90,000 horses are killed in Australia each year for consumption by humans and companion animals,
 - (b) the horses killed include once beloved domestic horses, wild brumbies, and ex-thoroughbred racehorses that have been ‘retired’ by the racing industry, and
 - (c) after suffering through the stress of being transferred to an abattoir or knackery, the Model Code of Practice allows these animals to be unloaded using electric prods, and have their lives cruelly ended using a captive-bolt pistol or by shooting them.
- (2) That this House acknowledges the cruelty and suffering associated with horse slaughter in Australia.

(Notice given 27 August 2020—expires Notice Paper No. 72)

715. Ms Hurst to move—

- (1) That this House notes that:
- (a) cows are intelligent, playful and social animals with the capacity to experience pleasure and pain,
 - (b) young calves born into the animal agribusiness industry are commonly subject to a range of cruel mutilation procedures, including:
 - (i) dehorning, where the cow's horns and sensitive tissue near their skulls are cut, sawn or scraped off,
 - (ii) castration, where young calves either have their testes cut off, or have a rubber ring placed so tightly around their scrotum that their testicles eventually fall off due to lack of blood flow,
 - (iii) branding, where a hot iron is painfully seared into the cow's skin, leaving a permanent mark, and
 - (c) cattle husbandry procedures are all routinely carried out without any pain relief.
- (2) That this House condemns the sickening forms of legalised cruelty that are allowed to be performed on cows.

(Notice given 27 August 2020—expires Notice Paper No. 72)

716. Mr Graham to move—

- (1) That this House notes the numerous opportunities provided to the Government to comply with orders for the production of the final business case for the proposed Western Harbour Tunnel and Beaches Link and the strategic business case for the proposed Western Harbour Tunnel and Beaches Link.
- (2) That, on Tuesday 25 August 2020, the President tabled correspondence together with an index indicating that the Final Business Case: Western Harbour Tunnel and Beaches Link was being provided on a voluntary basis and that is confidential and not for public inspection.
- (3) That this House notes that:
 - (a) the only established mechanism by which the Department of Premier and Cabinet may lodge documents with the Clerk directly, or by which ministers and government agencies may make a claim of privilege is under standing order 52, in response to an order for the production of documents, and
 - (b) it is the will of the House that the Clerk administer the correspondence and documents provided in accordance with and under the authority of the provisions of standing order 52, including by treating the documents “provided on a confidential basis” in the same manner as documents subject to a claim of privilege.
- (4) That this House rejects the proposition by the Government that the documents were provided voluntarily.

(Notice given 27 August 2020—expires Notice Paper No. 72)

717. Mr Shoebridge to move—

- (1) That this House notes that:
 - (a) India’s Constitution commits it to democracy, equality, secularism, asymmetrical federalism and the protection of civil liberties, including freedom of speech and religious freedom,
 - (b) despite this, in December 2019, India enacted the Citizenship (Amendment) Act, 2019 which discriminates on the grounds of religion in the provision of citizenship,
 - (c) the citizenship legislation is effectively being used to revoke the citizenship of religious minorities and will result in statelessness for many vulnerable and marginalised groups,
 - (d) large numbers of people have been declared to be ‘foreigners’, detained, and left at risk of statelessness by citizenship ‘verification’ processes of questionable legality, and
 - (e) protests and dissent have been met with an authoritarian government response and civil liberties have been dramatically curtailed.
- (2) That this House calls on the Australian Government to:
 - (a) require an ongoing dialogue as part of its broader engagement with the Modi administration that critically reviews Indian Citizenship (Amendment) Act, 2019, and
 - (b) renegotiate trade agreements between Australia and India so that they include a human rights clause.

(Notice given 27 August 2020—expires Notice Paper No. 72)

***724. Dividing Fences Amendment Bill 2020:** resumption of the adjourned debate of the question on the motion of Mr Banasiak: That this bill be now read a second time (5 calendar days from 16 September 2020)—Mrs Maclaren-Jones. (20 minutes)

726. Mr Banasiak to move—

- (1) That this House notes that:
 - (a) on Thursday 1 September 2016, the then Minister for Primary Industries, the Hon Niall Blair, stated in a press release that over 40,000 shares had been traded in the subsidised share trading scheme as part of the Business Adjustment Program (BAP) for commercial fishing.
 - (b) the DPI submission to General Purpose Standing Committee No 5 – Industry and Transport's Inquiry into Commercial fishing in New South Wales, dated December 2016, cited 70,000 shares as having been traded privately,
 - (c) a report commissioned by the government entitled 'Economic Analysis and Social and Economic Monitoring following the NSW Commercial Fisheries Business Adjustment Program', the 'Barclay report', indicated that 13,294 shares had been traded in 2016, and
 - (d) Mr Blair potentially mislead the House in his media release and DPI continued to mislead Portfolio Committee No 5 before its 2016 inquiry.
- (2) That this House note that:
 - (a) as part of the Inquiry into Commercial fishing in New South Wales in 2016, Mr Blair stated there were 1,060 fishing businesses,
 - (b) in budget estimates on 2 September 2016, Mr Blair stated that there are 1,307 fishing businesses in New South Wales,
 - (c) on 23 November 2017, in a response to a question without notice from the Hon Natalie Ward, Mr Blair stated that 'we have now 871 commercial fishing businesses up and down the coast',
 - (d) in responses to supplementary questions in the 2018-2019 budget estimates, Mr Blair stated that 'There were 881 fishing businesses in the reforming fisheries as at June 2016. It is important to note that in the previous 7 years prior the number declined 36%. In September 2018 the equivalent number was 704 shareholding entries',

- (e) the Barclay report stated that in the 7 year period cited above, fishing business numbers fluctuated up and down but never declined by 36 per cent,
 - (f) the Barclay report highlights that in 2017 there was a total of 1130 fishing businesses with 934 reporting fishing activity,
 - (g) the Barclay report highlights that in 2018-2019 there was a total of 1101 fishing businesses with 829 reporting fishing activity, and
 - (h) Mr Blair potentially gave misleading evidence in the 2018/19 budget estimates and the Inquiry into Commercial fishing in New South Wales.
- (3) That this House note that:
- (a) on 17 April 2018, in response to a question without notice asked by the Hon Mick Veitch and subsequently taken on notice, Mr Blair stated that there had been 235 buyouts as a result of the Business Adjustment Program,
 - (b) this would have resulted in a total expenditure on buyouts of \$4.7 million,
 - (c) taken together, the 2017 and 2018 Annual Report of the Rural Assistance Authority cited a total of 143 fishing buyouts,
 - (d) this would have resulted in a total expenditure on buyouts of \$2.86 million,
 - (e) in budget estimates in 2019-2020, in response to questions on expenditure on BAP, Mr Blair and Mr Hansen from DPI stated that there had been 216 buyouts totalling \$4.32 million,
 - (f) neither Mr Hansen nor the Hon Adam Marshall in budget estimates explained the discrepancy between the Rural Assistance Authority reports and the figures of Mr Blair, despite taking it on notice,
 - (g) in the Barclay Report a figure of \$6.5 million was recorded as being spent on buyouts,
 - (h) Mr Blair potentially mislead the House with regards to expenditure on fishing buyouts utilising both taxpayer funds and funds derived from commercial fishing trust, and
 - (i) Mr Marshall and Mr Hansen potentially misled the committee in budget estimates and either withheld information with regards to expenditure on fishing buyouts or provided Professor Barclay with false information for her to complete her report,
- (4) That this House note that:
- (a) on 8 August 2017, Mr Blair stated in the House that 'this government spent \$15.1 million to subsidise shares and buyout fishing businesses.',
 - (b) during budget estimates in 2019-2020 before Portfolio Committee No 4 - Industry, Mr Hansen gave testimony that the full \$16 million was offered each round of the share trading scheme,
 - (c) evidence tabled in estimates from an incorrectly redacted copy of the OCM Probity Audit Report dated January 2018 contradicts this testimony,
 - (d) when asked in budget estimates who redacted this section of the report, Mr Turnell from DPI took this on notice and returned with an answer that OCM redacted the report, but that this evidence has been refuted by Mr Howard Elliot the author of the report in conversation with commercial fishermen,

- (e) the Barclay report states that \$11.6 million was spent on subsidising the Subsidized Share Trading Market (SSTM), citing DPI sources as reference,
 - (f) Mr Blair potentially mislead the House with regards to government expenditure on the SSTM, and
 - (g) Mr Hansen and Mr Turnell potentially misled either Portfolio Committee No 4 – Industry or the authors of the Probity Report and Professor Barclay.
- (5) That this House note that:
- (a) on 6 March 2020, during debate on a petition concerning commercial fishing reforms in the Legislative Assembly, Mr Marshall stated that 'Before the Government had even developed the subsidised share trading market, the New South Wales Department of Primary Industries engaged an independent probity adviser to oversee the process.',
 - (b) on 14 December 2016, during the Inquiry into Commercial fishing in New South Wales, Mr Elliot indicated that his role in the Business Adjustment Plan only commenced with the trial,
 - (c) on 6 June 2016, the firm conducting the Probity Report signed the contract,
 - (d) on or around the same date, commercial fishermen received the information packages about the SSTM,
 - (e) the SSTM was to take place in September 2016,
 - (f) the trial which was overseen by the probity firm did not actually occur until October 2016,
 - (g) leaked internal emails dated May 2016 stated that 'The share trading market relies on the development of 'winner determination' software to match bids placed by buyers and sellers and apply the available funding as a subsidy according to rules set by DPI. The software is currently being developed by a team of market design and computing experts from the University of Technology Sydney and the Technical University of Munich.', and
 - (h) on the basis of this sequence of events, Mr Marshall potentially mislead the Legislative Assembly during the petition debate as to the appointment of a probity advisor before the SSTM had been developed.
- (6) That this House note that:
- (a) on 6 March 2020, during debate on the petition concerning commercial fishing reforms in the Legislative Assembly, Mr Marshall stated that 'I have announced and commenced an independent assessment of the socio-economic impacts of the Commercial Fisheries Business Adjustment Program',
 - (b) in the Barclay report, Professor Barclay stated that 'The current study is not a full social or economic impact assessment (S/EIA). A formal S/EIA process would have required more time and resource intensive methods than could be fitted within the scope of this project.', and
 - (c) Mr Marshall potentially mislead the Legislative Assembly regarding the proposed assessment as he had already engaged the Professor to complete the work but effectively hamstrung her from doing her job.
- (7) That this House note that:
- (a) in response to questions in budget estimates in 2016 regarding the number of active and inactive fishing businesses in 2015/2016, Mr Blair stated that 889 reported activity and 418 did not report activity,

- (b) in the Barclay report the number of fishing business reporting activity during this period was listed as 965, leaving the total inactive at 341, and
 - (c) Mr Blair potentially mislead the House regarding the number of active and inactive fishing businesses.
- (8) That this House note that:
- (a) in 2015, DPI produced a summary document on the BAP in which it stated that an economic study had estimated the value of shares and that fewer than 30 fishers would have to spend more than \$25,000 in the reform,
 - (b) that this document was used by many National Party members to dismiss the concerns of commercial fishermen,
 - (c) the Barclay Report found that amongst just 123 respondents, 46 of them reported having to spend between \$50,000 and over \$200,000, and
 - (d) DPI and the National Party members potentially mislead the commercial fishing industry on the financial impact of the BAP reform.
- (9) That the Privileges Committee inquire into and report on:
- (a) whether Mr Blair mislead the House or General Purpose Standing Committee No 5 – Industry and Transport as part of its Inquiry into Commercial fishing in New South Wales in relation to the matters cited above,
 - (b) whether officers of DPI mislead the House or the budget estimates inquiry in relation to the matters cited above, and
 - (c) any other related matter.
- (10) That the committee report by the first sitting day in 2021.
- (11) That the Legislative Council request that the Legislative Assembly undertake a similar inquiry into whether Mr Marshall mislead that House in relation to the matters cited above.

(Notice given 15 September 2020—expires Notice Paper No. 73)

 - (b) almost half are worried they won't be able to support their families, and
 - (c) one in five stating they are worried they will lose their house.
- (2) That this House notes that the Berejiklian Government intends to charge truck drivers a \$23.73 heavy vehicle toll for each use of NorthConnex, or impose a fine of \$191 if they attempt to use a free alternative such as Pennant Hills Road.
- (3) That this House supports the convoy of more than 150 truck drivers on Pennant Hills Road on Saturday 12 September organised by the Transport Workers Union in protest of 'tollmania' noting that:

- (a) owner-drivers are often unable to recover costs of tolls from their contractors, and
 - (b) many owner-drivers have said they are on the brink of collapse due to new and increasing tolls.
- (4) That this House calls on the Berejiklian Government to explain why hard working small businesses face a toll or face a fine.

(Notice given 15 September 2020—expires Notice Paper No. 73)

730. Mr Shoebridge to move—

- (1) That this House notes that:
- (a) the destruction of the state heritage listed item, the Windsor Bridge across the Hawkesbury River, a 146 year old landmark, is an extraordinary and unnecessary loss of heritage,
 - (b) the destruction of the Windsor Bridge is a loss of vital emergency services access and the opportunity for new pedestrian and cycle access over the river,
 - (c) the destruction of the Windsor Bridge and construction of new roadworks and a new bridge over the river has impacted the access and use of Thompson Square with a significant proportion of it now dedicated to a slip lane to 'store traffic',
 - (d) the destruction of Thompson Square for the Windsor Bridge Replacement Project has led to irreplaceable loss of First Nations and early Colonial heritage,
 - (e) there remains significant community opposition to the destruction of the bridge and the Windsor Bridge Replacement Project, evidenced by a five year occupation of Thompson Square, multiple rallies and protests, and a recent petition with more than 10,000 signatures objecting to demolition of the bridge, and
 - (f) the replacement bridge has not provided any improvement to traffic, is not 'flood-free' and does not provide a safer crossing of the Hawkesbury River
- (2) That this House calls on the Government to:
- (a) urgently halt the demolition of Windsor Bridge, and
 - (b) restore it and hand it back for use by the community.

- (2) That this House notes with concern that:

- (a) Nationals Leader the Honourable John Barilaro MP's Smart and Skilled program in 2015 resulted in the sacking of more than 5,000 TAFE teachers and the closure of 27 TAFEs, of which 21 were in regional areas,
 - (b) Government spending per full time student at TAFE is now lower than funding for university, primary and secondary schools, and
 - (c) these cuts have led to an exodus of students to private providers, as in 2018 there were 1,391,359 students enrolled at private providers while TAFE had 833,134 students.
- (3) That this House commits to restoring funding to ensure all people in New South Wales have access to world class vocational education through TAFE including by ensuring all public money for vocational education is directed to TAFE.

 - (c) mother pigs, in particular, suffer from being confined to narrow metal sow stalls and farrowing crates for weeks before and after giving birth,
 - (d) these narrow, mental enclosures are so small, the mother pig can hardly move or turn around, and have been proven to cause serious distress, injury and abnormal stereotypic behaviours, and
 - (e) while sow stalls have been banned in Tasmania and the Australian Capital Territory, as well as the European Union, the United Kingdom and parts of the United States, they remain legal in New South Wales.
- (2) That this House calls on the Government to ban the use of sow stalls and farrowing crates in New South Wales.

- (1) That this House notes that:

- (a) the National Party has threatened to blow up the government in the midst of bushfire recovery, the COVID-19 pandemic and economic crisis over the new Koala State Environmental Planning Policy (SEPP) that aims to strengthen protections for koala habitat,
 - (b) the new Koala SEPP will have little impact on the majority of farmers across the state as it is only triggered at the point of development consent, and
 - (c) since the 2011 state election the NSW National Party has had ministerial responsibility for water, agriculture and regional New South Wales which has resulted in:
 - (i) a dramatic increase in the clearing of native vegetation and threatened species habitat with the winding back of native vegetation laws,
 - (ii) increased logging of koala habitat after the 2019-2020 bushfire season which saw 24 per cent of koala habitat on public land severely impacted and up to 81 per cent of koala habitat burnt in some parts of the state,
 - (iii) the gross mismanagement of the Murray Darling Basin including selling out downstream communities on the Lower Darling by over-allocating water to their corporate irrigator donors turning a blind eye to ongoing water theft in the Northern Basin including and pushing the Barwon-Darling River system into hydrological drought three years early,
 - (iv) incompetent management of regional town water supplies that saw multiple regional centres coming close to day zero, in some cases having to rely on bottled water, over the summer of 2019-2020.
- (2) That this House acknowledges that the NSW National Party cannot be trusted to manage our land, water and environment and calls on the Government to strip them of their portfolio responsibilities and end their coalition agreement.

(Notice given 15 September 2020—expires Notice Paper No. 73)

- (c) calls on the Government to remove GWIC CEO, Judith Lind, for misuse of power.

(Notice given 16 September 2020—expires Notice Paper No. 74)

765. Ms Hurst to move—

- (1) That this House notes that:
- (a) bobby calves are newborn calves born into the dairy industry that have been taken away from their mothers, usually less than 24 hours after birth,

- (b) bobby calves are considered ‘waste’ by the dairy industry, because they do not produce milk, and
 - (c) these newborn bobby calves will therefore either be reared as veal calves, killed on farm by a captive bolt device or blunt force trauma, or transported to an abattoir when they are just five days old to be slaughtered, after suffering for days with limited food, and without the care of their mothers.
- (2) That this House condemns the heartless treatment of the approximately 450,000 bobby calves killed by the dairy industry each year.

(Notice given 16 September 2020—expires Notice Paper No. 74)

766. Ms Hurst to move—

- (1) That this House notes that:
- (a) millions of fish are caught and killed in Australian waters each year,
 - (b) despite it being well-established that fish have capacity to feel pain and suffer, these animals continue to be farmed using methods that have no regard to their sentience,
 - (c) one of the most traumatic fishing methods is trawling, whereby nets up to 200 metres wide are towed through the water, capturing thousands of fish and other unintended by-catch such as turtles, sharks and dolphins,
 - (d) fish caught in these trawlers nets will desperately swim until they are exhausted and become crushed at the back of the nets, causing significant stress, injury and sometimes death, and
 - (e) once brought on deck, those fish that are still alive will be killed either from suffocation or disembowelment, both of which can leave the fish in agony for hours before they eventually die.
- (2) That this House acknowledges the shocking cruelty inflicted by the commercial fishing industry, and calls for a ban on the use of trawler nets in Australia.

(Notice given 16 September 2020—expires Notice Paper No. 74)

767. Mr Shoebridge to move—

- (1) That this House notes that:
- (a) the Commonwealth Government backing of the construction of a new gas-fired power station and its touting of a 'gas led recovery' from the economic impacts of COVID-19 is the direct result of the millions in political donations given to both major parties by the fossil fuel industry, and this corporate stranglehold on politics is fuelling climate change,
 - (b) climate change is already impacting lives, livelihoods and communities and gas has no rational place in the essential transition to a 100 per cent renewable energy supply that must be an urgent element in our state addressing climate change,
 - (c) dying, desperate industries buy politicians to survive, and the Liberals are so addicted to fossil fuel donations they are even willing to ignore their fixation with the market and force investment from renewables into uneconomical gas-fired power stations,

- (d) instead of more fossil fuels we should be returning the electricity grid to public hands and building publicly owned renewable energy, and
 - (e) a privatised power market will never meet the need for affordable energy or generate jobs for everyone who wants one.
- (2) That this House calls on the NSW Government to:
- (a) oppose all efforts by the Commonwealth Government to subsidise or guarantee any new gas fired power station in New South Wales, and
 - (b) invest in the building of a hundred percent renewable energy market in New South Wales.

(Notice given 16 September 2020—expires Notice Paper No. 74)

768. Mr Latham to move—

That this House:

- (a) condemns the false promises of the Minister for Energy and Environment, the Honourable Matt Kean MP and his schemes that remain dreams, most notably his announcement in June 2019 that 300,000 NSW households would take up his solar panel battery system offer, and 15 months later, only 150 households have – a 0.05 per cent take-up rate,
- (b) notes the advice at page 45 of the NSW Government’s Home Solar Battery Guide that states, “Currently retrofitting a battery to existing solar doesn’t make much financial sense” – again indicating that the Minister has been trying to sell people a financial dud,
- (c) urges Minister Kean to stick to energy policy substance, instead of the fluff of media announcements that achieve a burst of ego-gratifying publicity for him but months and years later, become an embarrassing public policy flop,
- (d) notes the Minister’s recent publicity claiming a major role for renewables in the state’s economic recovery from recession when, in fact, in March 2020 the Minister released his Net Zero Plan through to 2030, spending \$2 billion but achieving just 240 new jobs per annum, an employment contribution priced at \$830,000 per job, and
- (e) urges Minister Kean to reconsider his publicity announcements for hydrogen power, electric vehicle charging stations, electric vehicle procurement, Green Investment Strategy, Primary Industries Productivity and Abatement Program, Landfill and Organic Waste Diversion, a Carbon Financial Services Hub and Climate Solutions Fund, which are also in danger of being schemes that remain dreams.

(Notice given 16 September 2020—expires Notice Paper No. 74)

769. Mr Latham to move—

That this House:

- (a) acknowledges New South Wales cannot get out of this deep and damaging recession as long as the Government continues to ban major economic activity and industries,
- (b) notes a time when the NSW Liberal Party believed in free enterprise and allowed companies and industries to trade freely, and
- (c) condemns the O’Farrell/Baird/Berejiklian Government for its pernicious record in restricting economic activity in New South Wales, at various times banning the following eight industries:

- (i) uranium mining,
- (ii) nuclear power generation,
- (iii) the New South Wales gas industry,
- (iv) the Newcastle Port Container Terminal,
- (v) the greyhound industry,
- (vi) the Sydney night economy,
- (vii) the Newcastle night economy,
- (viii) legitimate agricultural land clearing.

(Notice given 16 September 2020—expires Notice Paper No. 74)

771. Ms Hurst to move—

- (1) That this House notes that:
 - (a) on 15 September 2020, two puppy farms in New South Wales were raided by authorities,
 - (b) it is reported that the raids were precipitated by the death of a 10 month old boxer, who died in agony over four days without any vet treatment after complications giving birth, while her surviving puppies were sent to a pet store for sale,
 - (c) one of the puppy farms, located in Inverell, was previously raided by the RSPCA in 2015, but has been allowed to continue to operate with hundreds of dogs in the electorate of the Minister for Agriculture, the Honourable Adam Marshall MP, and
 - (d) current laws in New South Wales are not keeping dogs safe from cruelty.
- (2) That this House calls on the Government to urgently ban puppy farms in New South Wales.

(Notice given 17 September 2020—expires Notice Paper No. 75)

772. Ms Hurst to move—

(Companion Animals Amendment (Puppy Farms) Bill)

(Notice given 17 September 2020)

773. Ms Hurst to move—

- (1) That this House notes that:
 - (a) each year, hundreds of millions of farmed animals will spend their final moments in an Australian slaughterhouse,
 - (b) there have been a disturbing number of incidents of illegal animal cruelty towards animals in slaughterhouses, which have only been brought to light due to undercover investigations and exposés,
 - (c) the treatment of animals in slaughterhouses occurs behind closed doors, away from public view, without any mandatory requirement for CCTV cameras, and
 - (d) there is no way to humanely kill a living being that does not want to die.
- (2) That this House condemns the horrific, and often legal, cruelty that animals experience in Australian slaughterhouses.

(Notice given 17 September 2020—expires Notice Paper No. 75)

774. Ms Hurst to move—

- (1) That this House notes that:
 - (a) dead crickets, and products containing dead crickets such as protein powders, flours and tortilla chips, are being sold as food in Australia, and
 - (b) these animals are excluded from the Prevention of Cruelty to Animals Act 1979, and there are no laws, standards or guidelines anywhere in Australia to protect the welfare of crickets used in food production.
- (2) That this House recognises that crickets are living beings and should be recognised as such under the Prevention of Cruelty to Animals Act 1979.

(Notice given 17 September 2020—expires Notice Paper No. 75)

776. Mr Shoebridge to move—

- (1) That this House notes that:

- (1) That this House notes that:
 - (a) soil degradation is a serious environmental problem in Australia and around the world,
 - (b) over 85 per cent of Australia's agricultural land is used for grazing, largely by hard-hoofed, non-native animals such as cows and sheep, causing significant amounts of soil compaction and erosion, and
 - (c) this degraded soil (which is often contaminated with synthetic fertilisers and pesticides) can then turn into runoff and wash into local waterways, further contributing to water pollution and causing harm to aquatic animals.
- (2) That this House acknowledges the need for the animal agribusiness industry to be held accountable for soil degradation, run off and other negative impacts it has on animals and the environment.

(Notice given 22 September 2020—expires Notice Paper No. 76)

 - (a) male chicks are considered an unwanted by-product of the egg industry,
 - (b) under the Model Code of Practice, at just one day old, male chicks can be legally disposed of by way of maceration, which involves grinding up the chicks while they are still alive, and
 - (c) consumers should be aware that regardless of whether they purchase battery cage, barn raised, free range or organic eggs, they are still supporting the large-scale killing and maceration of male chicks.
- (2) That this House condemns this cruel conduct by the egg industry.

799. Mr Shoebridge to move—

- (1) That this House notes:
- (a) that NSW Corrections restrictions have barred visits from family, friends and social supports to all NSW Correctional Centres since March 2020 and there has been little indication as to when visits will be reinstated,
 - (b) that there remain solid public health reasons to protect inmates from the danger of a COVID-19 outbreak especially in overcrowded facilities, and properly managing and controlling visitation is a part of this,
 - (c) the positive influence that social contact has on inmates' mental health,
 - (d) that for six months inmates have felt disconnected from their loved ones and external support networks,
 - (e) that this social exclusion threatens inmates' prospects of later re-integration into the community, as continued social connection is vital to inmates' rehabilitation,
 - (f) that these visitation restrictions are now disproportionate to other COVID-19 restrictions in New South Wales as currently pubs, casinos, shopping centres and even gyms have reopened, and
 - (g) it is inconsistent that inmates' visits from close family and friends remain totally suspended.
- (2) That this House calls on the Government to reinstate safe social visits in NSW Correctional Centres as soon as possible, subject to ongoing reasonable public health controls.

(Notice given 22 September 2020—expires Notice Paper No. 76)

800. Mr Shoebridge to move—

- (1) That this House notes that:
- (a) the NSW Government's recent decision to opt into the Federal Government's Pandemic Leave Disaster Payment Scheme is a win for workers, unions and all the groups and organisations calling for workers to be able to take paid leave if they contract Covid-19 or need to self isolate,
 - (b) all workers should be able to take leave if they are sick, regardless of the sickness, and there are over 830,000 casual workers across this state who have no access to paid sick leave apart from access to the Federal government's Pandemic Leave Disaster Payment Scheme, and
 - (c) Australia already has one of the highest rates of casual work among the OECD's 34-member countries, underemployment in precarious work with no leave entitlements has been steadily on the increase and the pandemic has only made this situation worse.
- (2) That this House recognises:
- (a) the positive benefits of extending sick leave entitlement to casual workers, and

- (b) the need to reverse the push towards more insecure work and instead work to ensure everyone in work has the right to set, secure working hours and paid time off when they're sick.

(Notice given 22 September 2020—expires Notice Paper No. 76)

801. Ms Sharpe to move—

- (1) That this House notes that:
 - (a) 19 to 25 of September 2020 is the National Week of Deaf People in Australia,
 - (b) 23 September 2020 is the International Day of Sign Languages,
 - (c) both the National Week of Deaf People and the International Day of Sign Languages stand to celebrate the linguistic identity and culture of the Deaf Community,
 - (d) Auslan is a uniquely Australian language used by an estimated 20,000 Australians to communicate every day,
 - (e) due to a lack of equal access to education, many Deaf people cannot easily use written information with the same degree of accuracy as compared to when that information is interpreted into Auslan,
 - (f) the provision of Auslan interpreters has been essential in allowing the signing Deaf community to access important information about the bushfires and COVID-19 pandemic, and
 - (g) Auslan interpreting has not always been provided or visible during Government briefings meaning that the Deaf Community has sometimes missed out on essential public health and safety information.
- (2) That this House:
 - (a) celebrates the community, language, culture and history of the Deaf Community of New South Wales, and
 - (b) calls on the Government to ensure the Deaf Community continues to have access to public information that is interpreted in Auslan.

(Notice given 23 September 2020—expires Notice Paper No. 77)

804. Ms Hurst to move—

- (1) That this House notes that:
 - (a) in Australia, crustaceans such as lobsters, crabs, yabbies, marron, crayfish and Balmain bugs are killed for human consumption,
 - (b) there is significant scientific evidence that crustaceans feel pain like other animals, and should be treated humanely, and
 - (c) despite this, there are almost no laws in place to protect the welfare of crustaceans, and the Prevention of Cruelty to Animals Act 1979 only recognises that crustaceans are animals when they are in a “building or place (such as a restaurant) where food is prepared or offered for consumption by retail sale.”
- (2) That this House recognises that crustaceans are animals worthy of protection in all circumstances, and acknowledges their capacity for pain and suffering.

(Notice given 23 September 2020—expires Notice Paper No. 77)

805. Ms Hurst to move—

- (1) That this House notes that:
 - (a) farm animals in Australia are regularly transported long distances, sometimes thousands of kilometres over several days, to saleyards, feedlots, abattoirs and export ports,
 - (b) these animals suffer immensely while being transported to their deaths due to stress, overcrowding, food and water deprivation, exposure to extreme temperatures and humidity, and
 - (c) serious road accidents involving mass injury and traumatic deaths to animals are also not uncommon, such as a crash in March 2020 near Broken Hill which left 12 cows dead and 39 others missing.
- (2) That this House acknowledges that it is inhumane for any farmed animal to be subjected to long haul transport.

(Notice given 23 September 2020—expires Notice Paper No. 77)

806. Mr Pearson to move—

 - (b) Wandi, a purebred dingo was found in a backyard in Bright, Victoria after likely falling from the clutches of a raptor.
- (2) That this House notes that Dr Kylie Cairns, a molecular biologist at the UNSW Centre for Ecosystem Science:
 - (a) tested the abandoned pup Sooty’s DNA confirming that he was a purebred alpine dingo, and

- (b) stated that there was no evidence of domestic dog ancestry, and that purebred wild dingoes persist in the environment.
- (3) That this House accepts that dingoes:
 - (a) are a separate species of the canid family,
 - (b) are not descended from domestic dogs or wolves,
 - (c) have a distinct evolutionary past that diverged some five to ten thousand years ago from other canids,
 - (d) are capable of surviving and flourishing in the Australian landscape, and
 - (e) have evolved into a keystone species', a naturalised predator now integral to maintaining the health of many Australian ecosystems.
- (4) That this House urges the Honourable Matt Kean MP, Minister for Energy and Environment to list the dingo as a protected species under schedule 5 of the Biodiversity Conservation Act 2016 to prevent the baiting, trapping, and shooting of dingoes as pests or wild dogs.

(Notice given 23 September 2020—expires Notice Paper No. 77)

 - (c) at least 1,700 employees in the manufacturing stone industry risk exposure to deadly levels of silica dust,
 - (d) data from SafeWork showed that 73 percent of manufactured stone industry-related worksites received notices for silica-related offences, and
 - (e) only nine of the 255 worksites in the industry have health and safety representatives.
- (2) That this House calls on the Department of Health to detail the steps it has taken to curb incidences of silicosis in New South Wales workplaces.

(Notice given 24 September 2020—expires Notice Paper No. 78)

810. Mr Shoebridge to move—

- (1) That this House notes that:
 - (a) on Friday 25 September 2020, school students from School Strike 4 Climate, First Nations communities, unions and many more hosted actions in towns, suburbs, schools, and workplaces across Australia to call on the Commonwealth Government to "fund our future, not gas",
 - (b) right now, the government is deciding how to spend billions in public money to help with the economic impacts of COVID-19,

- (c) it is a critical opportunity for the government to fund our future, by investing in the essential transition to a 100 per cent renewable energy supply that must be an urgent element in our state addressing climate change,
 - (d) instead the Commonwealth government is backing the construction of a new gas-fired power station and it' touting of a "gas led recovery", and
 - (e) this is the direct result of the millions in political donations given to both major parties by the fossil fuel industry and this corporate stranglehold on politics is fuelling climate change.
- (2) That this House calls on the government to endorse the strikers' demands:
- (a) for no new coal, oil and gas projects, including the Adani mine,
 - (b) for 100 per cent renewable energy generation and exports by 2030, and
 - (c) to fund a just transition and job creation for all fossil-fuel workers and communities.

- (1) That this House notes that:
- (a) 24 September 2020 was Poverty Day of Action, as the next day the Federal Government slashed the rate of Jobseeker by \$300 per week, forcing hundreds of thousands of people into poverty,
 - (b) before the pandemic almost 900,000 people in New South Wales were living in poverty, and this number will surge when Jobseeker is cut, as many workers have lost their jobs because of the pandemic,
 - (c) poverty is deadly, as the poorest Australians are twice as likely to die before the age of 75, and the gap is widening,
 - (d) there is enough wealth in this country for everyone to have what they need to live a good life, no one in a country as rich as ours should have to skip meals or medications, or be too worried about power bills to heat or cool their home and no child should go without the essentials they need to learn like a laptop or an internet connection.
- (2) That this House acknowledges the work of organisations like the Australian Unemployed Workers Union who campaigned to maintain the rate and help unemployed workers navigate a punitive welfare regime that punishes people for not being able to get jobs that do not exist.
- (3) That this House calls of the Commonwealths Government to:
- (a) keep the rate of Jobseeker where it is at, and
 - (b) scrap the dodgy and dangerous work for the dole scheme and exploitative for profit job network providers.

(Notice given 24 September 2020—expires Notice Paper No. 78)

 - (c) there is widespread concern that these projects are being fast-tracked without an understanding of the significant impacts they will have on downstream communities, and
 - (d) towns in regional New South Wales are no longer facing the prospect of ‘day zero’ removing any current critical need for these projects along with the justification to fast-track them before all studies and approvals are completed.
- (1) That this House calls on the Government to suspend the fast-tracking of the Wyangala and Dungowan Dam projects and ensure that no work will commence until such time as all approvals are in place.

- (3) That this House further acknowledges that:
 - (a) research by FoodBank Australia has found that:
 - (i) food relief charities have seen a significant increase in demand on their services since the onset of the COVID-19 crisis,

- (ii) three in ten Australians now experiencing food insecurity had not gone hungry before the pandemic, and casual workers and international students are significantly more affected by food insecurity now than they were before the pandemic, and

- (1) That this House expresses concern at the extensive and ongoing pollution of our oceans with abandoned plastics and fish-netting.
- (2) That this House notes that there has been considerable public discussion about the more than 8 billion plastic straws that end up in the sea, but this represents only 0.03 per cent of the 8 million metric tons of plastics estimated to enter the oceans in a given year.
- (3) That this House acknowledges that at least 46 per cent of the plastic in the Great Pacific Garbage Patch comes from fishing nets and gear.
- (4) That this House calls upon the Government to:

- (4) That this House is aware that kangaroo skins are marketed in New South Wales and overseas as K-leather and yet consumers may be unaware that they are purchasing kangaroo products.
- (5) That this House calls upon the Government to reinstate the regulations giving New South Wales consumers the right to know what fibres they are purchasing, whether it be exotic or native animals skins and furs including kangaroo products.

(Notice given 14 October 2020—expires Notice Paper No. 80)

848. Ms Hurst to move—

- (1) That this House notes that:
 - (a) there is almost no government regulation of the use of the term 'free-range',
 - (b) 'free-range' certifications created by industry often do not match public expectations with respect to the treatment of animals,
 - (c) animals in so-called 'free-range' facilities are often kept inside squalid sheds with little access to the outdoors, and are subjected to the same painful mutilation procedures and slaughterhouse practices as factory-farmed animals,
 - (d) where 'free-range' farms macerate male chicks alive at just one day old, and hold hens in stocking densities of up to 10,000 animals per hectare, while still promoting themselves as being a 'humane' alternative, and
 - (e) 'free-range' pork is sourced from pigs that routinely have their teeth, testicles and tails cut off without any pain relief.
- (2) That this House condemns the animal agribusiness industry for the cruel treatment of farmed animals in so-called 'free-range' systems and for using misleading advertising terms to generate profits.

(Notice given 14 October 2020—expires Notice Paper No. 80)

849. Ms Hurst to move—

 - (a) over 14,000 submissions were made to the 2019 Select Committee on the use of battery cages for hens in the egg production industry in New South Wales, and
 - (b) the overwhelming majority of submissions to the select committee called for a phase out of the cage system.

- (2) That this House condemns the New South Wales egg industry for:
- (a) refusing to acknowledge that our community does not support keeping millions of hens in tiny metal cages for their entire lives, and
 - (b) not agreeing to end the use of battery cages.

(Notice given 14 October 2020—expires Notice Paper No. 80)

851. Ms Hurst to move—

- (1) That this House notes that:
- (a) the animal agribusiness industry is not only responsible for the deaths of millions of land animals killed for food each year, it is also responsible for the deaths of countless native and non-native animals through the use of 1080 poison,
 - (b) 1080 poison is legally allowed to be used on non-native animals such as dogs (including dingoes), foxes, pigs and rabbits, however, it can also be accidentally ingested by companion animals and protected native species, and
 - (c) whether they are the intended targets of the poison or not, animals that ingest 1080 poison suffer slow, agonising deaths that start with vomiting, anxiety, disorientation and shaking, followed by frenzied running, screaming fits, and seizures which can last up to 48 hours before their eventual death.
- (2) That this House acknowledges the hideous pain and suffering caused by the use of 1080 poison by the animal agribusiness industry, and calls for its usage to be banned in New South Wales.

That this House:

- (a) notes the decision of Virgin Australia not to accept the offer of the NSW Government to base its headquarters at Badgerys Creek Airport,

- (b) notes with concern the negative way in which airline operators are now looking at Badgerys Creek given the third world transport planning deployed by the NSW Government in making passenger arrivals at the new airport change trains at St Marys at midnight to access the Sydney CBD,
- (c) condemns the Federal Government for not providing infrastructure funding in its October Budget to overcome the third world transport planning, as noted in paragraph (b), by building the Badgerys Creek-Leppington fast rail link,
- (d) notes the foolishness of the Federal Government in not overcoming this rail link problem as it plans to privatise the new Badgerys Creek Airport after its opening in 2026, with the rail transport debacle reducing the commercial value of the site as the Federal and State Liberal Governments are doing everything they can to make the new airport a white elephant, and
- (e) urges the NSW Treasurer in his forthcoming budget to allocate the capital funding needed for the Badgerys Creek-Leppington fast rail link to save the new airport from obscurity and massive passenger under-utilisation.

 - (b) the MAS party victory followed them being deposed in a far-right, US-backed, military coup last year.

 - (g) the Berejiklian Government has not set any timeframe on discussions with the Federal Government on the issue of harmonising the state and commonwealth modern slavery legislation,
 - (h) the Standing Committee on Social Issues Committee and this House (as resolved on 13 May 2020) have set 1 January 2021 as the date upon which the Modern Slavery Act 2018 (NSW) should commence, and

 - (b) agribusiness waste odours are not only unpleasant for animals, workers and neighbours to be around, they can also pose a serious risk to human and animal health through the production of harmful ammonia emissions, and
 - (c) waste produced by animal agribusinesses is a serious environmental concern, as it can produce harmful nitrous oxide emissions that contribute to climate change, pollute soil and surface water, and cause run off into the oceans.

 - (d) the arrangement is not consistent with competitive outcomes, is uneconomic and is contrary to the interests of the Hunter region and the people of New South Wales.
- (2) That this House calls on the Government to:
- (a) immediately release the Port of Newcastle from the reimbursement requirement, and
 - (b) support the development of the multi-purpose deepwater terminal at the Port of Newcastle as a massive boost to exporters and economic activity in New South Wales.

- (f) not inform parents of any information teachers have regarding students coming out about their gender or sexuality, with Mel Smith saying, “Of course it’s not okay to call people’s parents because it may not be safe for that child if parents know, it could put them in an unsafe situation, it could mean they are kicked out of home”, and
- (g) appreciate that no copy or record of the Webinar would ever be available to participate again, a deliberate strategy of keeping parents and the New South Wales public in the dark.

- (c) Ausgrid has failed to sincerely present all relevant information to the unions, regarding the proposed outsourcing including the impact of those changes on employees, and processes to mitigate the adverse impact on staff,
- (d) in reference to Ausgrid’s most recent job cuts, Richard Gross, Ausgrid’s CEO stated the redundancies were “to keep the lights on for households” and make “energy as affordable as possible.”
- (e) Richard Gross cut 365 jobs in 2019, resulting in Ausgrid failing to deliver and complete \$35 million worth of work that had been scheduled,
- (f) 5,000 jobs have been axed at Ausgrid, since the company was privatised in 2015,
- (g) Ausgrid has been failing to deliver essential services with its already reduced workforce. Within the last year, Ausgrid was unable to adequately respond to storms in New South Wales. The lack of adequate staffing resulted in an unprecedented plea from Ausgrid to the

Government to call in the army for support; a public concession that they did not have enough resources.

- (h) cutting the jobs of highly experienced and skilled workers will only adversely impact the people of NSW,
 - (i) the privatisation of Ausgrid has been a failure for NSW residents, despite promises from the Liberal and National Government. Instead of lower prices and higher reliability we have instead witnessed increased blackouts' and delays in restoration of power and increases in electricity prices,
 - (j) the Government is still a significant shareholder, 49.6 per cent, and
 - (k) at the time of privatisation, members of the Government stated that they would retain significant control and oversight of the leased electricity entities yet the Government has not exercised any interest in using this control and oversight on behalf of the New South Wales taxpayers.
- (2) That this House calls on:
- (a) the CEO of Ausgrid to reverse the decision to axe the jobs of highly skilled and experienced workers, which are needed to ensure that the residents of our State receive adequate electricity services and supply, and
 - (b) the Government, as a major shareholder and owner of Ausgrid, to protect workers during a global pandemic by calling for these job cuts to be halted and engage in proper consultation with unions and employees.

879. Ms Hurst to move—

- (1) That this House notes that:
- (a) approximately 80 per cent of beef sold in major Australian supermarkets is sourced from cows in feedlots,
 - (b) cattle in feedlots are fenced into tightly-packed outdoor enclosures and fed a high-calorie diet, which often includes artificial growth hormones, so that they can be rapidly fattened before they are killed,
 - (c) the unnatural diet and environment experienced by cattle forced onto feedlots can cause them to suffer a number of injuries and illnesses, including acidosis, feedlot bloat, bovine respiratory disease, lameness and foot rot, and
 - (d) excessive heat load is a particular issue for animals held at feedlots in Australia, especially since feedlot operators are not legally required to provide cattle with any shade from the sun.
- (2) That this House condemns the cruel treatment of cattle on feedlots.

(Notice given 22 October 2020—expires Notice Paper No. 84)

880. Mr Field to move—

and Environment, Water NSW or the Natural Resources Access Regulator relating to floodplain harvesting regulation:

- (a) all documents relating to the disallowance of the Water Management (General) Amendment (Exemptions for Floodplain Harvesting) Regulation 2020, and its impact or implications,
- (b) all documents relating to the legal status of floodplain harvesting, and
- (c) any legal or other advice regarding the scope or validity of this order of the House created as a result of this order of the House.

(Notice given 22 October 2020—expires Notice Paper No. 84)

881. Mr Searle to move—

- (1) That, under section 73 of the Independent Commission Against Corruption Act 1988 this House refers to the Independent Commission Against Corruption (ICAC) for investigation and report:
 - (a) the repeated failure of the Premier to report any aspect of former Liberal Wagga Wagga MP, Mr Daryl Maguire’s conduct known to her during her “close personal relationship” with him on or at any time after 13 July 2018 (when Mr Maguire gave evidence before the ICAC in relation to Operation Dasha) up until 12 October 2020, the day on which the Premier gave evidence in public to the ICAC in Operation Keppel in breach of her legal duty under section 11 of the ICAC Act,
 - (b) whether the Premier’s “close personal relationship” with Mr Maguire was in fact “an intimate personal relationship” for the purposes of applying the NSW Ministerial Code of Conduct thereby giving rise to serious conflicts of interest prohibited by the NSW Ministerial Code of Conduct,
 - (c) whether the Premier’s “close personal relationship” with Mr Maguire otherwise gave rise to serious conflicts of interest prohibited by the NSW Ministerial Code of Conduct,
 - (d) the Premier’s denial that she knew Mr Iwan Sunito, Crown Group Chairman and Group CEO, a major property developer, despite photographic and other evidence to the contrary,
 - (e) the transfer of the Greater Sydney Commission from the responsibility of the Minister for Planning to the responsibility of the Premier,
 - (f) the role of the Premier in the approval of the Stronger Communities Fund Tied Grants,
 - (g) the role of the Premier in the decision to destroy the physical working advice notes which she had written on containing the recommendation and reasons for \$141.8 million of the grants,
 - (h) the role of the Premier in the decision to attempt to destroy by deleting the Word version of the working advice notes,
 - (i) the role of any other person in the matters referred to in (g) and (h), and
 - (j) any related matter.
- (2) That a message be sent to the Legislative Assembly informing it that the Legislative Council has this day agreed to the resolution and, pursuant to section 73 of the Independent Commission Against Corruption Act 1988, requests the Legislative Assembly to pass a similar resolution.
- (3) That in the event that the Legislative Assembly does not pass a similar resolution and inform the Legislative Council within two sitting days of receipt of a message from the Legislative Council,

the Clerk is to communicate the resolution of the House to the Independent Commission Against Corruption.

- (4) Further to the above, this House notes that:
- (a) the Premier, the Honourable Gladys Berejiklian MP, has been a Minister of the Crown in New South Wales since 3 April 2011 to date,
 - (b) the Premier was the Minister for Transport from 3 April 2011 to 2 April 2015 and also the Minister for the Hunter from 23 April 2014 to 2 April 2015,
 - (c) the Premier was the Treasurer and the Minister for Industrial Relations from 2 April 2015 to 23 January 2017,
 - (d) the Honourable Gladys Berejiklian MP was appointed Premier on 23 January 2017 and continues to hold that office,
 - (e) Mr Daryl Maguire was the Member for Wagga from 27 March 1999 to 2 August 2018, when he resigned from Parliament as a direct consequence of evidence, including telephone intercepts, to the ICAC, including in a public hearing in Operation Dasha on the afternoon of Friday, 13 July 2018,
 - (f) whilst a Member of Parliament, Mr Maguire was a Parliamentary Secretary appointed by then Premier O'Farrell from 24 February 2014 to 17 April 2014 and by then Premier Baird from 6 May 2014 to 28 March 2015, from 24 April 2015 to 26 August 2015 and from 26 August 2015 to 23 January 2017, and
 - (g) the current Premier appointed Mr Maguire to the office of Parliamentary Secretary on 1 February 2017 which he held until his resignation on 13 July 2018 as a direct consequence of his appearance at ICAC on 13 July 2018.
- (5) This House also notes that:
- (a) under section 11 of the Independent Commission Against Corruption Act 1988 (ICAC Act) a Minister must report to the ICAC any matter the Minister suspects on reasonable grounds concerns or may concern corrupt conduct,
 - (b) pursuant to the Independent Commission Against Corruption Amendment (Ministerial Code of Conduct) Regulation 2014, and with effect from 20 September 2014, the NSW Ministerial Code of Conduct was, for the first time, prescribed as an applicable code for Ministers of the Crown for the purposes of section 9 of the ICAC Act,
 - (c) section 9 of the ICAC Act provides that conduct of a Minister constituting or involving a substantial breach of the Ministerial Code of Conduct may constitute corrupt conduct for the purposes of the ICAC Act,
 - (d) Premier's Memorandum M2014-09 issued by then Premier Baird stated:

"The Code of Conduct for Ministers of the Crown has been revised with effect on and from 20 September 2014.

The new Code has been prescribed as an applicable Code for the purposes of section 9 of the Independent Commission Against Corruption Act 1988. This means that, for the first time, a suspected breach of the Code may be investigated by the Independent Commission Against Corruption and, if substantiated, give rise to a finding of corrupt conduct.

The Code includes a schedule of provisions, the breach of which may trigger a breach of the Code if done knowingly.

The new Code is contained in an appendix to a regulation made under the Independent Commission Against Corruption Act 1988.

As stated in the preamble to the Code, it is essential for the maintenance of public confidence in the integrity of Government that Ministers exhibit, and be seen to exhibit, the highest standards of probity in the exercise of their offices, and that they pursue, and be seen to pursue, the best interests of the people of New South Wales to the exclusion of any other interest."

- (e) the Ministerial Code of Conduct applies to Parliamentary Secretaries, except Parts 1 and 5 of the Schedule to the Code,
 - (f) under section 6 of Part 2 of the Schedule to the Ministerial Code of Conduct, a Minister and Parliamentary Secretary must provide to the Premier their current Parliamentary disclosure return made pursuant to the Constitution (Disclosures by Members) Regulation 1983 and continuously update the Premier of any changes,
 - (g) the Parliamentary disclosure return made by a Minister and Parliamentary Secretary includes disclosure of all income sources, property interests, interests in corporations and client services provided (including the provision of advice and lobbying of the government or other Members, even where there is no payment received), and
 - (h) Mr Maguire provided the Premier his current Parliamentary return and any updates shortly after his appointment as Parliamentary Secretary on 1 February 2017, and so accordingly, from this time forward the Premier was personally aware of Mr Maguire's personal parliamentary disclosures.
- (6) In addition, this House notes that:
- (a) under section 11 of the NSW Ministerial Code of Conduct a family member, in relation to a Minister, is defined to include any person with whom a Minister is in an intimate personal relationship,
 - (b) section 7 (3) of the NSW Ministerial Code of Conduct states that a conflict of interest arises in relation to a Minister if there is a conflict between the public duty and the private interest of the Minister, in which the Minister's private interest could objectively have the potential to influence the performance of their public duty,
 - (c) without limiting the above, a Minister is taken to have a conflict of interest in respect of a particular matter on which a decision may be made or other action taken if:
 - (i) any of the possible decisions or actions (including a decision to take no action) could reasonably be expected to confer a private benefit on the Minister or a family member of the Minister,
 - (ii) the nature and extent of the interest is such that it could objectively have the potential to influence a Minister in relation to the decision or action,
 - (d) in evidence to ICAC both the Premier and Mr Maguire said that they were in a "close personal relationship" from at least a time commencing in 2015 up until approximately August 2020,
 - (e) in evidence to ICAC, Mr Maguire contended that their "close personal relationship" commenced as early as 2013,
 - (f) both the Premier and Mr Maguire acknowledged in their evidence to the ICAC that they intended to publicly disclose their relationship once Mr Maguire retired from Parliament in 2019,
 - (g) in a media interview published in the 'Sunday Telegraph' on 18 October 2020 the Premier said she fell in love with Mr Maguire and hoped the relationship would lead to marriage,

- (h) on 22 October 2020, there were reports in the media that the Premier had provided to Mr Maguire a key to her residence and that he had access to her residence, and
- (i) in light of this evidence, it is strongly arguable that the Premier and Mr Maguire were in an “intimate personal relationship” from at least 2015 for the purposes of determining whether the NSW Ministerial Code of Conduct applies to the Premier's conduct and that consequently Mr Maguire was a “family member” for the purposes of applying this Code, and accordingly pursuant to section 7(1) of the Code, the Premier was under a duty not to knowingly conceal any conflict of interest whilst both a Minister and the Premier.
- (7) This House notes further that:
- (a) in a text conversation on 11 February 2014 Mr Maguire told the Premier of a \$5,000 commission and the conversation included:
- Mr Maguire: Hawkiss good news One of my contacts sold a motel for 5.8 million I had put her in contact so I should make 5k
- PREMIER: Congrats!!! Great News!! Woo Hoo
-
- PREMIER: That is really good. Does that mean that your commission is 0.1 per cent?
- Mr Maguire: sharing with Chinese business partner so commission is 20k usually its 50% of that but I will only ask for 25% cause its such a small sale only 5.8m so I get 5k
- PREMIER: Great stuff!,
- (b) the word “Hawkiss” appearing in the text conversation represents an Armenian term of endearment meaning “my soul” or “my beloved”,
- (c) in a telephone conversation on 1 September 2017, Mr Maguire told the Premier his personal debt is \$1.55 million and the conversation also included the following exchange:
- Mr Maguire: “I have some cash in a tin so I’m -”
- PREMIER: “Yeah, I know that.”,
- (d) a subsequent telephone conversation between the Premier and Mr Maguire on 1 September 2017 included the following exchange:
- PREMIER: Yeah not a lot Hokis.
- Mr Maguire: Yeah I’m getting a big tax return I’m told so I’m very happy about that.
- PREMIER: Oh well that’s good you won’t be saying you are poor then for maybe a week and then you’ll start saying it again.
- Mr Maguire: No well I am poor I’m telling you 1.59 million poor.,
- (e) a telephone conversation between the Premier and Mr Maguire on 5 September 2017 included the following exchange:
- Mr Maguire: “Now I’m trying to fix Jimmy’s problem and it looks like we finally got the Badgerys Creek stuff done, that’s good, mmm. I’ll be glad when that’s done ‘cause I’ll make enough money to pay off my debts (laughs), which would be good. Can you believe it, in one sale.”

PREMIER: “I can believe it.”,

- (f) in a telephone conversation on 6 September 2017, Mr Maguire told the Premier of his \$30,000 tax refund and the conversation includes:

Mr Maguire: And um yeah I’ll be alright if we do this deal with um William gets this deal done at Badgerys Creek then I won’t have to worry about it too much we’ll be out in front again. Phil is going to China Saturday. Can you believe it?

PREMIER: Yeah but I thought you said he wasn’t very good at that?

... ..

Mr Maguire: So this particular area he is good at. So and I’ve sent two client referrals over for him as well as he’s got this one. ...”,

- (g) in a telephone conversation on 7 September 2017, Mr Maguire told the Premier he is counting his tax refund and the conversation includes the following exchange:

Mr Maguire: Counting, counting my tax return (laughs).

... ..

PREMIER: Given the size of it will take you a week to count it all.

Mr Maguire: That’s true and the good news is William, William tells me we’ve done our deal so hopefully that’s about half of all that gone now.

PREMIER: That’s good.

Mr Maguire: Hmm.

PREMIER: I don’t need to know about that bit.

Mr Maguire: No you don’t.

PREMIER: Yep.

Mr Maguire: You do not so anyway it’s all good news so we are moving ahead.

PREMIER: Okay good.,

- (h) a telephone conversation between the Premier and Mr Maguire on 15 February 2018 included the following exchange:

Mr Maguire: “See you are gonna get a meeting from ah, a request from Sunito as well.

... They, they’re owed \$20 million by Norske ... they want to be bidders because they’ve got to get their money back ... I introduced my little friend to them and ... they were talking when I left them which is good news ... You know my little friend?

PREMIER: “Not really. I don’t –

Mr Maguire: You do.

PREMIER: - I don’t need to know, who’s your, which little friend you talking about?

Mr Maguire: “With the polished head. (Laughs)...you don’t need to know what for but –

PREMIER: “Mmm.”,

- (i) on 13 July 2018 in public evidence before the ICAC in Operation Dasha, Mr Maguire admitted that in 2016 he was seeking to reach an agreement with a then Canterbury City Councillor to share commissions from property development sales, and Mr Maguire agreed in evidence one of his clients was the Chinese owned Country Garden, and
 - (j) on 12 October 2020 in public evidence before the ICAC in Operation Keppel, the Premier agreed she was aware of Mr Maguire’s 13 July 2018 evidence and as a result subsequently sought Mr Maguire’s resignation from the parliamentary Liberal Party and the NSW Parliament.
- (7) That this House notes that:
- (a) the Premier said in evidence to the ICAC that she did not know a Mr Sunito,
 - (b) Mr Iwan Sunito is the Crown Group Chairman and Group CEO, a major Sydney property developer, well known in Liberal party circles, and
 - (c) on 11 December 2017, Mr Sunito, the Premier and NSW Liberal Party State President and Mayor of Hornsby, Mr Philip Ruddock, cut the ribbon to open the new Philip Ruddock Heritage Centre in Parramatta.
- (8) That this House further notes that:
- (a) in addition to the telephone conversation on 5 September 2017 between the Premier and Mr Maguire concerning the “Badgery’s Creek stuff”, there were subsequent telephone conversations between them in 2017 in which Mr Maguire expressed his frustrations with the then Roads and Maritime Services, the Department of Planning and the Greater Sydney Commission in preventing his efforts to successfully conclude his Badgery’s Creek project, the commission for which would allow him to clear his debts in the order of \$1.55 million and which level of debt the Premier knew,
 - (b) in February 2018, the NSW Government received unambiguous advice from departmental heads against transferring the Greater Sydney Commission out of the portfolio and organisational responsibility of the Minister for Planning and into her own portfolio and organisational control, and
 - (c) sometime after 18 March 2018, the Greater Sydney Commission was transferred to the Department of Premier and Cabinet and the portfolio of the Premier.
- (9) That, in addition, this House notes, in relation to the Stronger Communities Fund Tied Grants round, that:
- (a) the House has, on numerous occasions, called for documents including the signed written brief approving the grants, which would include the working advice notes referred to by a Ministerial Advisor to the Premier in evidence to the Public Accountability Committee on 23 October 2020, but no documents have been provided,
 - (b) the House has afforded the Government many opportunities to explain why there are no documents, including from the Leader of the Government on 22 October 2020, but no satisfactory explanation has been given to this House,
 - (c) the Public Accountability Committee has heard on 22 October 2020 that the working advice notes containing the recommendation and reasons for \$141.8 million of the grants, presented to the Premier and marked by her, have been shredded and the electronic copies deleted,
 - (d) the former Auditor General, Tony Harris has said: "The role that the Premier's office had in the shredding of documents is good reason for her departure, she should resign.",

- (e) the contemporaneous email record indicates that the Premier variously "signed off" or "approved" the Councils receiving the grants and their projects,
- (f) the Premier has said that "I personally did not make decisions. I am sure I am consulted at the time...",
- (g) the Public Accountability Committee heard evidence from a Senior Ministerial Adviser to the Premier on 22 October that neither the Premier nor her office made any "decision" on these grants and that the decision-maker was Mr Hurst and the Office of Local Government,
- (h) the ICAC in its submission to the Public Accountability Committee of 26th August 2020 was of the view that:
"If the minister is not the appointed decision-maker, directing or urging a public servant to make a decision preferred by the minister" may amount to corrupt conduct.",
- (i) further in its submission, the ICAC drew attention in part to the following probity issues that "can arise in a grants scheme:
- absence of an open, public application process, so that the grant has the appearance of a direct negotiation between the recipient and government
 - no eligibility or selection criteria, which might include absence of an evaluation methodology and weightings, or criteria that are vague or highly subjective...
 - applicants missing out on funding despite being ranked above other applicants that were successful
 - a public official having an undisclosed conflict of interest, such as a personal relationship with a grant applicant
 - applicants receiving grants without having submitted an application, or after submitting a late application...", and
- (j) in evidence to the Public Accountability Committee on the general principles that should apply to grants, the following exchange involving the Chief Commissioner of the ICAC took place:

"Mr DAVID SHOEBRIDGE: For example, if guidelines have not been finalised, if there is a process under which guidelines go through to get finalised, it may have multiple ministerial sign-offs. If that process is in train and before the guidelines have been finalised, if projects were identified and approved for funding before the guidelines had been finalised, would that raise integrity concerns?"

Chief Commissioner of the ICAC, Mr HALL: Potentially it would, because if there is a lack of required development of a set of guidelines for a scheme it obviously leaves the door ajar for corruption, that is it is a corruption risk scenario. It means that firstly, there is a lack of objectivity and fairness in the process, but secondly, in terms of determining whether it was a merit-based outcome it becomes more difficult to discern whether there has been a departure from principles that inform the exercise of public power.

Mr DAVID SHOEBRIDGE: Would you expect as a basic fundamental that there would be some kind of clear identified merit assessment of individual projects that would then be put in front of a decision-maker for formal approval? That documented merit assessment process, do you think that is a non-negotiable element in the allocation of public money through grants programs?

Mr HALL: Certainly in accordance with proper practice and principle. It is, as I say, critical.

The ACTING CHAIR, JOHN GRAHAM: I might secondly ask about a recommendation to a decision-maker. Again, that is fundamental to the grant decision-making process, that there is some recommendation that sits in front of a decision-maker from which they can then make their decision with whatever discretion they are permitted under the grants system. Would you agree with that?

Mr HALL: Yes. I think a recommendation made for selection should be a recommendation with reasons, firstly. Secondly, at the next stage the acceptance of the recommendation by the panel should similarly be supported by written reasons. In other words, accountability, transparency from start to finish.

The ACTING CHAIR: I will turn to the decision itself. Looking at the good practice guide, it is essential that there is a record of the decision.

Mr HALL: Yes.

The ACTING CHAIR: A record of an approval, signed and dated by the decision-maker would be the expectation of government. That is fundamental to the process?

Mr HALL: Yes, I would agree, Chair.

The ACTING CHAIR: Finally, were those things lacking? If either a written recommendation in front of a decision-maker, or no signed and dated record of the decision were not present, those things would be of great concern. Would you agree with that?

Mr HALL: Yes. As I have earlier indicated, what the commission would be looking for if it were called upon to examine such a matter, is firstly to establish precisely what are the conventional or prescribed processes and identifying at any one point whether there has been compliance or diversion or non-adherence. If the process has not been followed our next question would be: Why not? What is the explanation? Because often it can be a sign of irregularity and that irregularity could, depending upon those involved or who have played a role, what their intention or purpose was in not complying, or their explanation for not complying".
