- (2) That, on Thursday 27 February 2020, this House:
  - (a) reasserted its power to order the production of all documents in the possession, custody or control of the Executive Government with the exception of those documents that reveal the actual deliberations of Cabinet, as articulated by Spigelman CJ in *Egan v Chadwick*,
  - (b) rejected the definition of Cabinet documents used in the Government Information (Public Access) Act 2009 which if followed may lead to a much broader class of documents being withheld from the House,
  - (c) further ordered the production of documents relating to the final business case for the proposed Western Harbour Tunnel and Beaches Link, and strategic business case for the proposed Western Harbour Tunnel and Beaches Link, and
  - (d) resolved that, should the Leader of the Government fail to table the documents in compliance with this resolution, it would be matter for this House to take necessary actions and further steps to address the issue of continued non-compliance.
- (3) That this House notes that on 5 March 2020 in response to the further order for papers of 27 February 2020 relating to the final business case for the proposed Western Harbour Tunnel and Beaches Link, and strategic business case for the proposed Western Harbour Tunnel and Beaches Link, the House received correspondence from the Secretary of the Department of Premier and Cabinet advising that "no documents covered by the terms of the resolution and lawfully required to be provided are held."

(Notice given 12 May 2020—expires Notice Paper No. 59)

**503. Mr Field to move—**

- (1) That this House notes with concern that:
  - (a) in 2014, the former National Party Minister for Water, the Honorable Kevin Humphries MP, changed the rules in New South Wales water sharing plans so that the Millennium Drought was excluded from consideration when making decisions around the allocation of water and how much water to keep in storage in case of drought,
  - (b) in his second reading speech, Minister Humphries explained that if the Millennium Drought was included it “would result in significant quantities of water being taken out of production and held in reserve in case an equally severe drought occurs”,
  - (c) since mid-2017 New South Wales experienced one of the worst droughts on record which saw rivers dry up, dam levels fall dramatically and towns run out of critical water supplies,
  - (d) the use of outdated drought records in the lead up to the current drought meant less water was available in storages for use by towns, the environment and irrigators when the worst of the drought was felt,
  - (e) despite this, the Minister for Water, the Honorable Melinda Pavey, MP, in the process of remaking and amending New South Wales water sharing plans as part of the Basin Plan water resource plan accreditation process, has retained provisions in water sharing plans which backdate the “drought of record” prior to the Millennium Drought and as far back as 2004,
  - (f) the drought of record is backdated in draft water sharing plans governing the Namoi, Peel, Gwydir, Belubula, Macquarie, Lachlan, Murray, Lower Darling, Border Rivers and Murrumbidgee river systems and will be in place for the next 10 years once finalised, and
  - (g) ignoring the Millennium Drought, the current drought and future droughts when making inflow assumptions and decisions around water allocations will only serve to jeopardise regional town water supplies and healthy rivers.
- (2) That this House acknowledges the concern expressed by Tamworth Regional Council in recent media reports in the Northern Daily Leader, where the council wrote to Minister Pavey requesting her to delay the review of the water sharing plans in order to incorporate the impacts of the current drought into the Peel and Namoi water sharing plans.
- (3) That this House acknowledges and agrees with the statement of the Member for Tamworth, Kevin Anderson, MP that “the water sharing plan is broken and needs to be reworked to better reflect the current environment in which we live”
- (4) That this House calls on the Minister Pavey to amend New South Wales regulated water sharing plans to include up to date drought information before submitting the State’s water resource plans for accreditation to the Murray Darling Basin Authority and the Federal Minister for Resources, Water and Northern Australia, the Honourable Keith Pitt MP.

(Notice given 12 May 2020—expires Notice Paper No. 59)

**163. Remapping of old-growth and high-conservation-value public forests:** resumption of the adjourned debate (8 August 2019) of the question on the motion of Mr Field:

1. That this House notes that:
  - (a) the Government is planning to allow logging in thousands of hectares of old-growth and high-conservation-value public forests on the North Coast that have been off limits for decades,
  - (b) these forests are rare and important ecosystems which provide irreplaceable habitat for many threatened species, such as koalas, gliders, quolls, frogs and owls,
  - (c) they have been protected as part of the nationally agreed reserve system for decades and have been granted state significant heritage protection for their historical significance, including to Aboriginal people, aesthetic significance, research potential, rarity and valuable habitat,
  - (d) this process is being driven by a desire to access more timber, based on a Forestry Corporation calculation that new rules under the Coastal Integrated Forestry Operations Approvals (CIFOA) to protect koala habitat and threatened ecological communities could result in a small timber supply shortfall of up to 8,600 cubic metres per year,
  - (e) despite advice from the Natural Resources Commission (NRC) that this wood supply shortfall “represent[s] the worst case scenario and may never be realised”, the Premier requested the NRC consider remapping old growth forests and rainforests to meet this shortfall,
  - (f) a pilot study of 13 areas of state forest found that remapping could open up 78 per cent of protected old growth forest to logging, despite all sites having vitally important habitat,
  - (g) the Government has committed over \$2 million to this remapping process, despite this cost far outweighing the \$1.5 million value of buying back the contracts for the maximum claimed timber shortfall,
  - (h) the funding is being provided by the Government despite the NRC recommending that any remapping and rezoning should be paid for by Forestry Corporation as the beneficiary, and
  - (i) remapping on private land has already opened up over 29,000 hectares of previously protected old growth forests to logging in recent years.
2. That this House agrees that remapping old growth forests:
  - (a) breaks the Government’s commitment to no erosion of environmental values under the new CIFOA,
  - (b) is based on timber supply impacts that are not verified and probably do not exist, and
  - (c) is a subsidy to logging which exceeds the value of the extra wood supply.
3. That this House call on the Government to:
  - (a) end the remapping and rezoning of old-growth and rainforest on public and private land,
  - (b) ensure no areas of forest currently protected will be opened up to logging, and
  - (c) conserve native forests to protect biodiversity, store carbon and provide new tourism and recreational opportunities—Mrs Maclaren-Jones. (15 minutes)

Debate: 1 hour and 45 minutes remaining.

1. That this House notes that:

- (a) last Friday's global action was a huge success with millions of people around the world striking for action on climate change,
- (b) it was the biggest mass mobilisation since the 2003 anti-war protests, led by the next generation who know their future is at stake,
- (c) First Nations people joined in with students on the climate strike,
- (d) First Nations people are and have always been at the forefront of the fight to protect land, water, air and country,
- (e) the strike is just the beginning, and
- (f) transformative change and a bold new path that leaves no one behind and improves workers' lives is required.

2. That this House calls on the Government to endorse the strikers' demands for:

- (a) no new coal, oil and gas projects, including the Adani mine,
- (b) 100 per cent renewable energy generation and exports by 2030, and
- (c) the funding of a just transition and job creation for all fossil-fuel workers and communities.

(Notice given 24 September 2019—expires Notice Paper No. 40)

**242. Mr Buttigieg to move—**

1. That this House notes that:

- (a) the NRMA, owner and operator of Manly Fast Ferry is failing to pay its workers proper wages and provide job security,
- (b) the NRMA is a government contractor, as Transport for NSW awarded their company, Manly Fast Ferry, a seven year contract in April 2015 for the sole rights to operate fast ferry services between Manly and Circular Quay,

- (c) the Honourable Andrew Constance, Minister for Transport and Roads, was made aware of the issues with the contractor in both 2018 and 2019,
  - (d) the Maritime Union of Australia wrote to the Minister for Transport and Roads on 4 January 2019, seeking assistance on behalf of these workers,
  - (e) Manly Fast Ferry workers are paid substantially less than their counterparts that perform the same work at Transdev, the French company that operates the government-owned fleet of ferries on the Parramatta River and Sydney Harbour,
  - (f) Justice John Griffiths, Judge, Federal Court of Australia, stated on 11 September 2019, that employees of Manly Fast Ferry, "receive as little as half the pay of other workers doing the same work on the same harbour", and
  - (g) it is four years and four months into a government contract and the Manly Fast Ferry workforce remains predominately casual, with 95 per cent of the workers employed as casual.
2. That this House condemns the NRMA for:
- (a) underpaying its workers and for not paying wages in line with Transdev workers who perform the same work on the Harbour,
  - (b) refusing to provide their predominately casual workforce with permanent jobs with fair wages,
  - (c) wasting approximately \$300,000 to engage high priced lawyers in failed Federal Court legal proceedings against the Maritime Union of Australia instead of paying Manly Fast Ferry workers the wages they are entitled to, and
  - (d) adopting the stance that they are a ferry service for all marketing and passenger related matters, yet continuing to claim to be a charter vessel service when seeking to pay workers so that they pay below the accepted industry minimum rate of pay and the correct Ports, Harbours and Enclosed Waters Vessel Award.
3. That this House calls on the Government to:
- (a) immediately intervene and compel the NRMA, owners of Manly Fast Ferry to pay their workers the wages they are entitled to and to provide permanent employment to a predominately casualised workforce,
  - (b) call on the NRMA to meet the performance standards under their contract, including performing their obligations in accordance with good industry practice and in accordance with all applicable authorisations and laws, which incorporates adhering to their responsibilities under the Fair Work Act 2009 (Cth), and
  - (c) exercise its rights under the contract with Manly Fast Ferry and in accordance with clause 19, provide written notice to the Manly Fast Ferry (NRMA), of their breach and require a remedy, including resolution of the appropriate industrial instrument and resolution of all outstanding wages and superannuation.

(Notice given 24 September 2019—expires Notice Paper No. 40)

**245. Mr Shoebridge to move—**

1. That this House notes that:
- (a) the Berejiklian Government has announced it will proceed with a cruise ship terminal at Yarra Bay,

- (b) the Government began talks with industry including overseas cruise lines before engaging in any meaningful consultation or discussion with the local community,
  - (c) Traditional Owners, local residents and the two local councils are strongly opposed to the plan, and
  - (d) the Save Yarra Bay Coalition has been instrumental in making the local community aware of these damaging plans.
2. That this House notes that:
- (a) this is a site of significant heritage and cultural value, and a treasured and beautiful bay,
  - (b) construction of a cruise terminal at this location would substantially impact the local environment including erosion of nearby Frenchman's Beach and silt around popular diving spots at Bare Island, and
  - (c) the bay and surrounds are home to 17 protected species including the weedy seadragon and Sydney's pygmy pipehorse.
3. That this House recognises that the community wants to be meaningfully engaged in ways that do not pre-empt the outcome – this means actually engaging local leaders and the community about all possible options, including the option of not proceeding with the terminal.
4. That this House calls on the Government to:
- (a) immediately halt plans to build a cruise terminal at Yarra Bay, and
  - (b) begin a process of meaningful consultation with the local community about plans for this area.

(Notice given 24 September 2019—expires Notice Paper No. 40)

**247. Mr Banasiak to move—**

1. That this House notes that:
- (a) prior to 1991, the Department of the Legislative Council provided very limited support to private members in assisting them with the drafting of bills and amendments,
  - (b) since 1991 successive governments have agreed to an arrangement whereby the services of the Parliamentary Counsel's Office (PCO) have been made available to non-government parties and members, and
  - (c) in accordance with the current PCO 'Manual for the Drafting of Non-Government Legislation':
    - (i) the arrangement covers the drafting of bills and amendments to bills before the Parliament,
    - (ii) there is a limitation on the hours of core drafting work devoted to services for private members,
    - (iii) provision of these services is not to interfere with the Government's legislative program and the availability of PCO's resources.
2. That this House notes that:
- (a) Standing Order 226(2) and (3) provides for the inclusion of a draft bill in any committee report made to the House and for a committee to make use of the services of the PCO with the consent of the relevant Minister,

- (b) an attempt to utilise these provisions was made in 2013 when the Select Committee on the Partial Defence of Provocation sought the Premier's approval to ask the PCO to draft a bill, and
  - (c) the Premier at the time declined the Committee's request.
3. That this House notes that:
- (a) since the 1980s the Department of the Senate provides non-government senators with legislative drafting services, including the drafting of bills and amendments,
  - (b) the reason for the Department of the Senate providing legislative drafting services is that the needs of the Government meant that only on rare occasions were the services of the Australian Office of Parliamentary Counsel (OPC) made available to private senators for either the drafting of bills or amendments,
  - (c) an officer from the OPC is seconded to the Department of the Senate, on a rotational basis, to assist with legislative drafting services for non-government senators, and
  - (d) a formal arrangement exists through which the OPC provides the Department of the Senate with its drafting templates to ensure consistency in format as well as training to assist Senate staff in preparing bills and amendments.
4. That this House adopt new arrangements, similar to those of the Senate, whereby the drafting of bills and amendments for private members is provided by the Department of the Legislative Council.
5. That the President of the Legislative Council and the Clerk of the Parliaments make representations to NSW Treasury seeking appropriate resourcing for the Department of Legislative Council to provide legislative drafting services for private members.

1. That this House commends the vision of the 52nd Parliament in enacting the Police Powers (Drug Detection Dogs) Act 2001 and the Law Enforcement (Powers and Responsibilities) Act 2002 where the need was recognised for the New South Wales Police Force to conduct strip searches and use drug detection dogs.
2. That this House acknowledges that New South Wales Police Force strip searches:
  - (a) are designed to ensure people's safety, that being the community, the police and often the safety of the person they are searching, and
  - (b) have sufficient safeguards in place and are subject to oversight by the New South Wales Police Force Professional Standards Command, the Law Enforcement Conduct Commission, the Ombudsman, the New South Wales Coroner and the New South Wales Civil and Administrative Tribunal.
3. That this House supports New South Wales Police Force Commissioner Mick Fuller APM who stated "it would be the public who would suffer from any attempt to water down the strip-search powers of police and other tough measures" and that law breakers should have "a little bit of fear" of the cops.
4. That this House notes the notice of motion standing in the name of Mr David Shoebridge who intends to reduce police powers by bringing in a bill for an Act to amend the Law Enforcement (Powers and Responsibilities) Act 2002 to prohibit the use of drug detection dogs in carrying out drug detection without a warrant; to limit the circumstances in which strip searches may be carried out; to prohibit strip searches of children who are less than 16 years old; and for related purposes – the Law Enforcement (Powers and Responsibilities) Amendment (Drug Detection Dogs and Strip Searches) Bill.

**383. Order for Papers—Revenue NSW investigations into payroll tax non-compliance:** resumption of the adjourned debate (21 November 2019) of the question on the motion of Mr Mookhey:

That, under Standing Order 52, there be laid upon the table of the House within 21 days of the date of the passing of this resolution the following documents, created since 1 April 2015, in the possession, custody or control of the Treasurer, the Treasury, the Minister for Finance and Small Business, the Minister for Customer Service, the Department of Customer Service or Revenue NSW:

  - (i) Wesfarmers,
  - (ii) Bunnings,
  - (iii) Sunglass Hut,
  - (iv) Qantas,
  - (v) Rockpool Dining Group,
  - (vi) the Commonwealth Bank,
  - (vii) Michael Hill Jewellers,
  - (viii) Subway,
  - (ix) Woolworths,
  - (x) 7 Eleven,
  - (xi) Caltex Australia,
  - (xii) Domino's Pizza,
  - (xiii) Coffee Club,
  - (xiv) Foodco,
  - (xv) Crust Pizza,
- (b) all correspondence, emails, briefing notes or House folder notes in the possession of the Office of the Minister for Finance and Small Business or the Office of the Minister for Customer Service related to wage theft, the underpayment of employees, or the payroll tax compliance of any business alleged or proven to have engaged in wage theft or the underpayment of employees, and
- (c) any legal or other advice regarding the scope or validity of this order of the House created as a result of this order of the House.

Upon which Mr Searle has moved: That the question be amended by inserting after paragraph (c):

- "2. That this House notes that the House and its committees have consistently maintained that so-called statutory secrecy provisions, that is, provisions in statutes which prohibit in general terms the disclosure of certain categories of information, have no effect on the law of privilege, including the common law power of this House to order the production of State papers, unless they do so expressly or by necessary implication.
- 3. That this House further notes that this position has recently been expressly accepted by the Solicitor-General and the Crown Solicitor in a legal opinion provided to the Auditor General concerning the powers of parliamentary committees, in which the Crown Solicitor observed:

The Solicitor General expressed the general view that a statutory prohibition on disclosure of information will only be held to apply to disclosure to a Parliamentary committee if that is done expressly or by necessary implication.

I defer to the views of the Solicitor General. ... I would only add that the principle applied by the Solicitor General - that legislation will be presumed not to diminish the "privileges" of Parliament or its committees, unless it does so expressly or by necessary implication - has been accepted in several Australian cases.

- 4. That notwithstanding the power of the House to order the production of State papers subject to statutory privacy or secrecy provisions, the documents returned to the House under this order of the House be redacted to remove information subject to the privacy and secrecy provisions of the Taxation Administration Act 1996."—Mr Buttigieg speaking. (3 minutes)

Debate: 16 minutes remaining.

**387. Disability advocacy:** resumption of the interrupted debate (21 November 2019) of the question on the motion of Ms Sharpe:

1. That this House notes that:
  - (a) the New South Wales Ageing and Disability Commissioner is undertaking a review of disability advocacy in New South Wales,
  - (b) there have been submissions to the review from people with disability, as well as the organisations who work with them, outlining the importance of a well-funded, specialised and independent disability advocacy sector,
  - (c) people with disability must be the decision-makers about their lives and advocacy can assist people with disability to be fully able participate in decision-making, and
  - (d) while the NDIS has increased the need for advocacy, it only adds to the full range of work advocacy organisations do, including improving access to education, transport, housing, health, justice and more.
2. That this House calls on the Honourable Gareth Ward MP, Minister for Disability Services, to commit to:
  - (a) releasing the New South Wales Ageing and Disability Commissioner's report into disability advocacy as soon as it is available, and
  - (b) two years of rollover funding for the disability advocacy sector to end the funding uncertainty being experienced by these crucial organisations.—Mr Franklin speaking. (1 minute)

Debate: 27 minutes remaining.

**392. Mr Shoebridge to move—**

1. That this House notes that:
  - (a) the NSW Police Commissioner admitted in an interview with the Daily Telegraph that strip searches are designed to create fear of the Police Force, and that young people need to have a "little bit of fear of law enforcement",
  - (b) the Commissioner went on to say, in defence of the wide-spread practice that "people need to understand there are consequences", and that strip searches are aimed at people "on the verge of being criminals", and
  - (c) the Commissioner also alleged that strip-searches were necessary to reduce knife crime.
2. That this House recognises that:
  - (a) less than one percent of strip-searches across the State are conducted on suspicion of knife crime, and that the Commissioner either does not know what is going on in his own police force or is lying to the people of New South Wales,
  - (b) it is unacceptable that the Police Commissioner and the NSW Police Force are issuing extrajudicial punishment in the form of strip-searches to people they think might commit a crime in future, and

- (c) the Police Commissioner and the NSW Police Force should be working with the community not deliberately instilling fear within it.
3. That this House acknowledges that the NSW Police have strip-searched a ten year old child, over 120 girls and thousands of people across the State just going about their daily lives.
  4. That this House calls on the Police Minister to direct the Commissioner to obey the law and cease making political interventions in the media designed to protect his force from legitimate and essential scrutiny when they abuse their power.

  - (e) public sector workers in New South Wales are now able to take up to 10 days of paid domestic violence leave a year.
2. That this House calls on:

**410. Mr Mookhey to move—**

1. That this House acknowledges the skilled and dedicated nurses, health workers and medical staff in the Tumut area, including hospital staff, paramedics and community nurses who provide exceptional care to local residents who are ill or injured.
2. That this House notes:
  - (a) that Tumut District Hospital does not have a full-time doctor, putting unfair pressure on nursing staff and leading to poor health outcomes for local residents, and
  - (b) the strong community campaign for two specialist doctors at Tumut District Hospital to provide healthcare this regional community deserves.
3. That this House calls on the Government to adequately staff Tumut District Hospital with two on-site doctors, and provide more nursing resources in the region, including community nursing.

(Notice given 21 November 2019—expires Notice Paper No. 54)

**411. Mr Pearson to move—**

1. That this House commends retailers Target and Kmart for deciding to phase out the sale of fabrics and textiles sourced from the wool of mulesed sheep.
2. That this House notes that:
  - (a) Target will complete the phase out by July 2023 and Kmart by 2024, and
  - (b) the material will be replaced completely with an alternative from either:
    - (i) farms certified under the Responsible Wool Standard or equivalent standard, or
    - (ii) farms that are fully traceable and verified as non-mulesed or from recycled wool materials.
3. That this House notes that:
  - (a) over two billion animal products end up in fashion supply chains every year,
  - (b) Target and Kmart have made commitments to produce an animal welfare policy which aims to cover all of the key animal derived-materials they use,

- (c) these actions follow similar commitments made by other Australian fashion brands, including David Jones and Country Road Group including brands Witchery and Politix, and
- (d) it demonstrates that retailers are sensitive to consumer demands for brands to take steps towards prioritising animal welfare in the production of their merchandise.

(Notice given 21 November 2019—expires Notice Paper No. 54)

**412. Mr Shoebridge to move—**

1. That this House notes that:
  - (a) in 1969 the Eden woodchip mill was established by Harris-Daishowa to chip and export native forest wood "waste",
  - (b) in 1970 the first woodchips were exported, and
  - (c) in the 50 years since the mill was established wood chipping has been the primary driver of native forest logging in south east New South Wales.
2. That this House recognises that:
  - (a) concerns about the environmental, financial and social impact of native forest logging have been recognised for decades,
  - (b) in 1998 the NSW Premier Bob Carr promised in writing to "end export wood chipping by the year 2000",
  - (c) current figures show only \$3.72 a tonne is being received for logs from the southern region, and
  - (d) the Victorian Government has announced the end of native forest logging in recognition of the damaging nature of the industry, the low financial returns for the taxpayer and the value in leaving forests standing.
3. That this House affirms that:
  - (a) the native forest wood chipping industry in south east New South Wales has lost its social license, and
  - (b) 50 years since the start of the industry means that it is time for it to be relegated to the history books with industries like commercial whaling and koala hunting.
4. That this House calls on the Government to:
  - (a) immediately suspend the Regional Forest Agreements under which this wood chipping occurs,
  - (b) move to a management model that protects public native forests and maximises their environmental values, as well as enhancing their ability to store carbon and provide recreational opportunities, and
  - (c) provide transition packages for all workers currently engaged in native forest logging to ensure they have long term, secure and sustainable jobs.

- (g) the repeated failure of the Leader of the Government in the Legislative Council to respond to concerns raised by Members in the House, including the Honourable Peter Primrose MLC, regarding persistent breaches of the requirement by Ministers regarding direct relevance in relation to answers to written questions.

2. That this House notes:
  - (a) the Legislative Council is fully entitled to scrutinise and demand accountability for all aspects of Executive Government behaviour,
  - (b) the Executive Government is responsible to Parliament, and through Parliament to the Electorate, and
  - (c) the most common procedure whereby Ministers are called to account is through the asking of questions, both through Question Time and as written questions.
3. That this House affirms the need to protect the right of this House to adopt Standing Orders that ensure that it may discharge its duties and responsibilities with the confidence of the community which elects its Members.
4. That, for the above reasons, this House:
  - (a) expresses its displeasure with the Honourable Don Harwin MLC, Leader of the Government in the Legislative Council, for his continued failure to ensure that answers to written questions provided by Ministers are in accord with the requirements of the Standing Orders, and
  - (b) calls on the Leader of the Government to ensure that in future, responses from Ministers to written questions are directly relevant.

(Notice given 21 November 2019—expires Notice Paper No. 54)

  - (b) roundtable participants included more than 50 people representing 30 organisations including people with disability, their advocates, peak bodies, academics, service providers and unions,
  - (c) only 10 per cent of people with disability in New South Wales will be eligible for a support package from the NDIS,

- (4) That this House thank all NSW Health staff for their efforts on the ground and their continued work to sustain the mental health and wellbeing of fire affected communities during this difficult time.

(Notice given 25 February 2020—expires Notice Paper No. 55)

**426. Mr Field to move—**

- (1) That this House notes that:
- (a) on 26 September 2019, the House ordered the production of documents relating to the Native Vegetation Code Review,
  - (b) on 10 October 2019, the House received a return to order from the Secretary of the Department of Premier and Cabinet stating that the relevant departments hold no documents covered by the terms of the resolution that are lawfully required to be provided,
  - (c) at the Budget Estimates hearing held on 13 September 2019 into the Energy and Environment portfolios, the Honourable Matt Kean, Minister for Energy and Environment, confirmed in evidence to Portfolio committee no. 7 – Planning and Environment that the Natural Resources Commission (NRC) had completed a review of Native Vegetation,
  - (d) at the same hearing Dr Keniry, Commissioner of the NRC and Mr Wilde, Executive Director of the NRC, confirmed that the review was referred on 19 January 2019 and the report was submitted on 31 July 2019,
  - (e) in the same evidence, Mr Wilde stated that the review report was going to the Ministers for Environment and Agriculture, and was "Cabinet in confidence",
  - (f) on 17 October 2020, the House further ordered the production of documents relating to the review of the Natural Vegetation Code by the Natural Resources Commission, as referred to by the Minister and other witnesses at the Budget Estimates hearing held on 13 September 2019, and
  - (g) on 24 October 2019, the House received a return to order from the Secretary of the Department of Premier and Cabinet stating that the relevant departments hold no documents covered by the terms of the resolution that are lawfully required to be provided.
- (2) That this House:

- (a) reasserts its power to order the production of all documents in the possession, custody or control of the Executive Government with the exception of those documents that reveal the actual deliberations of Cabinet, as articulated by Spigelman CJ in *Egan v Chadwick*, and
  - (b) rejects the definition of Cabinet documents used in the Government Information (Public Access) Act 2009 which if followed may lead to a much broader class of documents being withheld from the House.
- (3) That this House notes the failure of the Government to comply with the orders of the House on 26 September 2019 and 10 October 2019 for the production of documents relating to the Native Vegetation Code Review prepared by the Natural Resources Commission for the "assistance of cabinet" as held by Spigelman CJ.
- (4) That this House censures the Leader of the Government as the representative of the Government in this House for the Government's failure to comply with the orders of the House of 26 September 2019 and 10 October 2019.
- (5) That, under standing order 52, there be laid upon the table of the House within 7 days of the passing of this resolution the following documents in the possession, custody or control of Department of Premier and Cabinet or the Department of Planning Industry and Environment:
- (a) the review of the Natural Vegetation Code by the Natural Resources Commission, as referred to by the Minister and other witnesses at the Budget Estimates hearing held on 13 September 2019, and
  - (b) any legal or other advice regarding the scope or validity of this order of the House created as a result of this order of the House.

(Notice given 25 February 2020—expires Notice Paper No. 55)

**431. Ms Sharpe to move—**

- (1) That this House notes that:
- (a) every day in New South Wales people with disability are forced to lay on the floor of public toilets because of a lack of public adult lay down change facilities,
  - (b) according to the National Public Toilet Map, there are only 13 accessible adult lay down change facilities in New South Wales, very few in regional areas, and none available on our highways,
  - (c) a lack of facilities means people with disability are often prevented from participating equally in their community or travelling across the state, meaning they miss out on visiting family and friends or attending necessary medical appointments, and
  - (d) a small investment by the Government into adult lay down change facilities could dramatically change the lives of people with disability for the better.
- (2) That this House calls on the Honourable Gareth Ward, Minister for Families, Communities and Disability Services to:
- (a) create a fund for local councils to build publicly accessible adult lay down change facilities in their town, and

- (b) ensure adult lay down change facilities are on every New South Wales highway to open up the state to people with disability.

(Notice given 25 February 2020—expires Notice Paper No. 55)

**432. Ms Hurst to move—**

- (1) That this House notes that:
  - (a) it is estimated that over 1.25 billion animals have been killed in the devastating bushfires across Australia, with many more injured and still struggling to survive due to starvation and dehydration,
  - (b) the rescue, care and rehabilitation of these animals has largely been undertaken by non-profit animal rescue organisations and sanctuaries, and
  - (c) these carers have been working non-stop for months to treat and care for bushfire affected animals, often at great personal, emotional and financial sacrifice, with almost no government funding or assistance.
- (2) That this House acknowledges and thanks all animal rescue organisations, sanctuaries and volunteers for their tireless efforts, and calls on the Government to urgently dedicate more resources to assist animals affected by the bushfires.

(Notice given 25 February 2020—expires Notice Paper No. 55)

**433. Mr Fang to move—**

- (1) That this House notes that:
  - (a) on Saturday 8 February 2020, the Government announced the launch of a \$10 million tourism campaign called ‘Now’s The Time To Love NSW’,
  - (b) this campaign is a social media-led, community-driven initiative that encourages people to make holiday plans in New South Wales, capture their favourite New South Wales holiday spots and share their photos on social media platforms,
  - (c) the campaign aims to boost visitation to New South Wales, fund new local events and assist tourism businesses to develop, promote and sell their tourism products,
  - (d) the \$10 million package includes partnership campaigns with Qantas Airways, Accor, Webjet, TripAdvisor and Tigerair and a \$1 million regional events program to support flagship events and a new stream of micro events, and
  - (e) ‘Now’s The Time To Love NSW’ builds on and complements Tourism Australia’s recently launched ‘Holiday Here This Year’ domestic tourism campaign and is funded by both State and Federal investments.
- (2) That this House recognises the vital importance of the tourism industry in New South Wales, especially in regional and rural areas that have been devastated by prolonged drought and the recent unprecedented bushfires.
- (3) That this House support the ‘Now’s the Time To Love NSW’ campaign to help save local jobs and give tourism operators in New South Wales a chance to get back on their feet after such a devastating time.

(Notice given 25 February 2020—expires Notice Paper No. 55)

**434. Ms Moriarty to move—**

- (1) That this House acknowledges the:
  - (a) bushfire season saw communities destroyed by the fires, with lives, homes and businesses lost,
  - (b) resilience of the community supporting one another during this difficult time,
  - (c) trauma suffered by the individuals within the bushfire affected communities, and
  - (d) fantastic work of mental health workers on the ground, helping those suffering as a result of the bushfires.
- (2) That this House notes that three years after Black Saturday in Victoria, 26 per cent of those in the worst affected areas still showed signs of mental health problems beyond levels likely to be manageable and required professional support.
- (3) That this House calls on the Government to provide additional on the ground mental health and trauma support in fire affected communities now and over the coming months and years.

(Notice given 25 February 2020—expires Notice Paper No. 55)

**439. Mr Shoebridge to move—**

- (1) That this House notes that:
  - (a) without a search warrant, a NSW police officer must have “reasonable grounds” as defined in the Law Enforcement (Powers and Responsibilities) Act 2002 (the Act) in order to conduct a lawful search of a person, and
  - (b) a NSW police officer must only give a move on direction if satisfied of the conditions set out under the Act.
- (2) That this House recognises that:
  - (a) police are granted extensive discretionary powers to carry out their duties,
  - (b) these powers should be executed in a manner that does not arbitrarily violate the rights of the public,
  - (c) arbitrary quotas for discretionary powers result in public scepticism regarding the “reasonable grounds” required before police can lawfully exercise their powers, and
  - (d) quotas incentivise police to conduct searches or issue move on directions to meet an arbitrary number, instead of assessing the actual situation.
- (3) That this House calls on the Government and the Minister for Police to remove NSW Police Force quotas for personal searches and move on orders.

(Notice given 25 February 2020—expires Notice Paper No. 55)

**443. Ms Boyd to move—**

- (1) That this House notes that:

- (a) local government areas across New South Wales have been heavily impacted by the 2019-20 bushfires,
  - (b) local councils in regional, rural and peri-urban areas struggle to obtain adequate funding to maintain and improve local roads and rely heavily on Federal Roads to Recovery Program Funding,
  - (c) local roads in bushfire-affected areas have been seriously impacted by fire, additional heavy vehicle movement, and subsequent flooding, making access for disaster-affected communities and emergency services difficult, and
  - (d) fire-fighting efforts have been hindered by sub-standard regional and rural roads, which made access for emergency service vehicles more difficult and, in some cases, very dangerous, increasing response times, putting lives at risk and rendering some vehicles unusable or unserviceable.
- (2) That this House:
- (a) acknowledges the importance of local councils providing safe roads for their communities,
  - (b) recognises that local councils in bushfire-affected areas require additional support to rebuild and improve local roads, beyond the funding provided by existing programs and bushfire recovery funding, and
  - (c) calls on the Government to allocate significant funding to bushfire-affected councils in the 2020-21 Budget to enable rapid repair and recovery of local roads.

(Notice given 25 February 2020—expires Notice Paper No. 55)

**446. Ms Boyd to move—**

That leave be given to bring in a bill for an Act to cancel certain authorisations and titles that permit exploration for and mining of minerals and petroleum (including coal seam gas) in the Central Coast's drinking water catchment areas; to prohibit the grant, renewal or modification of those kinds of authorisations and titles; to prohibit certain interference with water in those drinking water catchment areas; and for related purposes.

(Central Coast Drinking Water Catchments Protection Bill)

(Notice given 25 February 2020)

**449. Mr Field to move—**

- (1) That this House notes that:
- (a) the devastation brought about by this season's fires on the State's forests is unprecedented, with as much as 40 percent of national parks and state forests and 25 percent of the state's softwood plantations being impacted,
  - (b) few forests were left unscathed by the fires which burnt softwood plantations around Tumut, National Parks and State Forests of the South and North Coasts,
  - (c) core Koala habitat around the Central Coast, South West and North Coast was decimated and large tracts of the World Heritage Blue Mountains and Gondwana rainforest were burnt, some for the first time,
  - (d) drinking water catchments across the state burnt risking water quality impacts,

- (e) some timber mills were lost to the fires and the Eden woodchip mill was damaged,
  - (f) a number of the most damaging fires started in state forests and plantations, including the Currowan fire on the South Coast which started in the actively logged Currowan State Forest,
  - (g) the future of the state's forests, the forestry industry and its workers is uncertain given the widespread impacts of the fires,
  - (h) the industry was already facing significant resource pressures, particularly on the North Coast, with supply of high quality saw logs anticipated to drastically reduce after the conclusion of current wood supply agreements between 2023 and 2028,
  - (i) the evidence suggests that current wood supply agreements have overcommitted timber that has required unsustainable logging,
  - (j) the lack of long-term planning would have seen timber mills close and regional jobs lost, possibly within this term of Parliament, even before the impact of this season's fires on wood supply,
  - (l) the renegotiation of wood supply agreements due to happen within this term of Government must fully consider the impacts of the fires on wood supply and the ecological value of the state's forests as well as the increased future fire risk from climate change,
  - (m) there is a significant opportunity to reimagine the future of our forests and the economic future of forestry workers including by transitioning to a more sustainable timber industry through developing and replanting plantations, retooling workers as public land managers and repurposing many state forests as recreational reserves with ecotourism opportunities.
- (2) That this House calls on the Government to:
- (a) place a moratorium on logging while a full assessment of the impact of the fires on the ecological values of the state's forests and on wood supply is conducted, and
  - (b) acknowledge the urgent economic and ecological need to address the future of the forestry industry in New South Wales and formulate a long-term plan for the future of the state's public forests and for a sustainable forestry industry.

(Notice given 25 February 2020—expires Notice Paper No. 55)

**450. Mr Latham to move—**

- (1) That this House calls on the Government to undertake and publish economic modelling relating to the consequences of its net-zero emissions by 2050 policy, specifically detailing the impact on:
- (a) State Domestic Product,
  - (b) household income, and
  - (c) employment levels in various industry sectors and regions of the State.
- (2) That this House notes the impact of the equivalent policy in New Zealand where economic modelling showed a 15 per cent reduction in future average household income levels.

(Notice given 25 February 2020—expires Notice Paper No. 55)

**451. Ms Faehrmann to move—**

- (1) That this House notes that:
  - (a) climate change was the primary driver behind the scale of the unprecedented 2019/2020 bushfire season which resulted in:
    - (i) 25 people killed in New South Wales,
    - (ii) 5.3 million hectares (6.7 per cent) of land burnt in New South Wales including more than 80 per cent of the World Heritage listed Greater Blue Mountains area and 54 per cent of the New South Wales components of the Gondwana Rainforests of Australia World Heritage property,
    - (iii) at least 800 million native animals killed in New South Wales with 60 threatened fauna species affected by the fires, including at least 32 species for which 30 per cent or more of all recorded locations occur in the burn areas,
    - (iv) toxic bushfire smoke blanketed major population centres for over two months leading to a spike in emergency department presentations for respiratory problems as well as increasing health risks for pregnant women and people with respiratory illness and heart disease, children and the elderly,
    - (v) additional carbon emissions that are nearly equivalent to Australia's annual carbon emissions,
  - (b) the Bureau of Meteorology has long predicted that climate change would result in an increase of disruptive extreme rainfall events like the 391.6 millimetres of rain which fell over Sydney in four days creating chaos and threatening the quality of Greater Sydney's water catchment, and
  - (c) 99.4 per cent of New South Wales remains in drought despite record rainfall in Sydney, with one-third of the state experiencing 'intense drought' exacerbated by record low winter rainfalls due to climate change.
- (2) That this Houses notes that:
  - (a) climate change is an existential threat to humanity with its severe effects already being felt around the world,
  - (b) the Special Report of the United Nations Intergovernmental Panel on Climate Change (IPCC) found that to avoid a more than 1.5 degree Celsius rise in global warming, global emissions would need to fall by around 45 per cent from 2010 levels by 2030, reaching net-zero emissions by around 2050,
  - (c) the current Paris agreements have the world on track to reach 3.5 degree Celsius to 5 degree Celsius of warming by 2100 and that we are likely to reach 1.5 degree Celsius of warming within a decade resulting in sea level rises, increased extreme weather events and dangerous climate tipping points,
  - (d) 3 degree Celsius of warming may result in outright social chaos and 4 degree Celsius is considered incompatible with the maintenance of human civilization, and
  - (e) the negative impacts of climate change on New South Wales will continue to grow each year as emissions increase and temperatures continue to rise with increasingly catastrophic social and economic costs.
- (3) That this House declares a state of climate emergency and calls on the Government to accept the declaration of the Climate Emergency summit held in Melbourne on 14-15 February 2020, including that:
  - (a) climate change must be accepted as an overriding threat to national and human security, with the response being the highest priority at national and global levels, and

- (b) Australian Governments must immediately cooperate with the global community in order to:
  - (i) cut greenhouse gas emissions rapidly to zero, stop all fossil fuel expansion and develop a plan to phase out the existing fossil fuel industry rapidly with adjustment programmes for frontline communities,
  - (ii) drawdown atmospheric carbon concentrations to a safe level from the current 413 ppm level,
  - (iii) work to prevent tipping points and damage while the zero-emission and drawdown goals are being achieved,
  - (iv) integrate adaptation and resilience measures into the economic restructuring needed to restore a safe climate and repair ecosystems.

(Notice given 25 February 2020—expires Notice Paper No. 55)

**452. Ms Faehrmann to move—**

- (1) That this House acknowledges that:
  - (a) more than 37 per cent of the national park estate in New South Wales was burnt during the 2019-20 bushfire season including:
    - (i) over 40 per cent of key bioregions,
    - (ii) 80 per cent of the Blue Mountains National Park,
    - (iii) thousands of hectares of the northern half of Mt Kosciusko National Park,
    - (iv) 55 per cent of Gondwana Rainforest Australia World Heritage property,
  - (b) the bushfires have resulted in the deaths of an estimated 800 million native animals and a substantial loss of biodiversity within national parks, with current predictions for this loss at:
    - (i) 35 per cent of rainforests,
    - (ii) 41 per cent of wet sclerophyll forests,
    - (iii) 53 per cent of heathlands,
    - (iv) more than 70 per cent of the historically observed locations for six threatened species, including the long-footed potoroo, Philoria Pughii, Hastings River mouse and brush-tailed rock-wallaby,
    - (v) 24 per cent of all koala habitat in eastern New South Wales,
    - (vi) 32 threatened species at more than 30 per cent of their historically observed locations,
    - (vi) 114 threatened species at more than 5 per cent of their historically observed locations,
    - (vii) 95 per cent of recorded locations for threatened plants,
  - (c) the National Parks and Wildlife Service has faced systemic cuts in previous years including:
    - (i) \$121 million cut from national parks in the 2016-17 state budget including approximately 100 ranger jobs,
    - (ii) \$80 million cut from the department overseeing national parks in the 2019-2020 state budget,
    - (iii) a reduction of the department's 289 rangers, including 28 senior rangers, to 193 in 2018,
    - (iv) reduction in area managers charged with planning hazard reduction burns from 50 to 37 in 2017 in addition to 778 parks and wildlife jobs being altered, downgraded, moved, or deleted,
    - (v) the loss of decades of institutional knowledge due to restructuring and budget cuts, and
  - (d) the National Parks and Wildlife Service undertook 75 per cent of all-hazard reduction burnings in New South Wales over the past four years including 137,500 ha of hazard reduction last year, with a five-year rolling average target of 135,000 ha.
- (2) That this House calls on the Government to:

- (a) immediately halt the clearing of threatened species habitat on public and private land, including logging of public native forests, until a comprehensive statewide assessment has determined the size, size and location of habitat that needs to be protected to prevent further species extinctions in New South Wales, and
- (b) restore senior park ranger positions and increase the National Parks and Wildlife Service's funding to double the amount prior to the 2016-2017 budget.

(Notice given 25 February 2020—expires Notice Paper No. 55)

**458. Mr Shoebridge to move—**

(Notice given 26 February 2020)

**462. Ms Hurst to move—**

- (1) That this House notes that:
  - (a) earlier this month, while visiting the town of Albury, the Honourable Emma Hurst MLC was approached by distressed residents who had discovered that native cockatoos had been shot and left to die at a local golf course,
  - (b) this was legally allowed to occur, despite the existence of humane alternatives to managing cockatoos, because the golf course had been granted a “Landholder’s Licence to Harm Protected Native Animals” by the Government, and
  - (c) after the devastating loss of life during this bushfire season, the people of New South Wales do not want to see any more unnecessary harm to animals.
- (2) That this House calls on the Government to put a moratorium on licences to harm protected native animals.

(Notice given 26 February 2020—expires Notice Paper No. 56)

**463. Mr Field to move—**

- (1) That this House notes that:
  - (a) on 12 December 2019, the Minister for Agriculture, the Honourable Adam Marshall, and the Member for Bega, the Honourable Andrew Constance, announced an amnesty from prosecution to allow fishing in five protected marine sanctuaries in the Batemans Marine Park,
  - (b) the decision to open these areas of the Marine Park to fishing was given concurrence by the Environment Minister Matt Kean on the day of the announcement on 12 December 2019,
  - (c) the amnesty applies to five sites in Batemans Marine Park including Brou Lake, Clarks Bay, Forsters Bay, Montague Island and Nangudga Lake, the amnesty acts to override the existing regulated zoning for these five marine sanctuaries, guaranteeing that prosecution for breaching sanctuary zone rules will not occur,

- (d) to legally change the regulated sanctuary zoning for these sites under the Marine Estate Management Act 2014 a community consultation process is required, therefore in this way the amnesty is simply a way to avoid the requirements of the relevant legislation,
- (e) in answers to questions on notice, the Minister for Agriculture has acknowledged that neither the Marine Estate Management Authority, the Marine Estate Expert Knowledge Panel, or local Batemans Marine Park Staff were informed of the decision before the announcement,
- (f) in answers to further questions on notice following the announcement the Minister for Agriculture indicated that only 'targeted' consultation had occurred with past members of the Bateman Marine Park Advisory Committee,
- (g) a small number of individuals representing the recreational fishing community were invited to attend the staged announcement of the decision with the Minister for Agriculture and Member for Bega which was revealed through a social media post from the Minister on the day of the announcement,
- (h) the announcement was made despite a review of the management plan for the Batemans Marine Park currently being undertaken, but for which public consultation on potential changes, including to zonings, has not yet been made public or been opened for public submissions,
- (i) in a Budget Estimates hearing on 10 September 2019, the Minister for Agriculture, Adam Marshall was asked by Mr Justin Field: "Can you assure the community that the review process, the pilot process currently being run, will be open and transparent and that no decisions with regards to rezoning will be made outside of that process?", to which the Minister replied: "I can assure you and assure this Committee that the process that is being undertaken right now by the DPI in reviewing those sanctuary zones will be robust, will be fulsome and will ensure that all members of the public have a chance to have their say. Then I will make a considered decision at the conclusion of that process",
- (j) in a follow up question the Minister for Agriculture was asked: "So there have been no commitments made by the Government privately to some stakeholders to remove marine sanctuaries?", to which the Minister replied: "Certainly I have made no commitments in that regard.",
- (k) both the Minister for Agriculture and the Member for Bega have said publicly since the December amnesty decision that the announcement delivered on a 2019 election commitment and have pointed to a media release from the Member for Bega dated 28 February 2019 as evidence of the announcement,
- (l) it is understood that no such election commitment was agreed by the then relevant Minister, Niall Blair, before the election and no announcement was made by the Minister or the Department of Primary Industries at that time, nor was the Minister or any other member of the Government quoted in or involved in the statement by the Member for Bega at that time,
- (m) the February pre-election media release from the Member for Bega makes no commitment to lift sanctuary protections but rather proposes to fast-track consultation on a range of issues relating to the park and specifically notes that, "It is a legislative requirement to undertake consultation and the government has determined to move this way quickly.",
- (n) in speaking with local community members about the process to date, it is clear they had been given the impression in consultation with departmental staff over the course of last year that the election statements by the Member for Bega would be considered as part of the current management plan review pilot being conducted for the Batemans Marine Park, which reflects the evidence provided by the Minister in the September Budget Estimates hearings, and
- (o) just before the March 2019 State election, the media reported a secret recording where the Member for Bega, in speaking to a group of local recreational fishers, publicly criticised

marine park staff for enforcing rules in sanctuary zones and referred to plans to influence the makeup of the Marine Park Advisory Committee, reportedly saying: “That hasn’t happened by accident... I’ve been involved in it, making sure people who are our friends on that committee with the very clear intent to make sure that the pilot works well and obviously we start to get some results”.

- (2) That his House agrees that the Minister for Agriculture and the Member for Bega have acted in a way that undermines public confidence in the decision making processes for the protection of the marine estate in New South Wales, a process that was created by the Coalition Government through its Marine Estate Management Program and the passage of the Marine Estate Management Act 2014 to ensure evidence based marine estate planning to address the key threats to marine ecosystems and to protect the diverse environmental, recreational and commercial interests in the coastal and marine environment.
- (3) That this House call on the Minister for Agriculture and Minister for Environment to remove amnesty provisions for all sanctuary zones in the Batemans Marine Park and to allow the marine park management review pilot for the Batemans Marine Park and future marine park pilots to be completed in a thorough and transparent way.

(Notice given 26 February 2020—expires Notice Paper No. 56)

**464. Ms Faehrmann to move—**

- (b) any legal or other advice regarding the scope or validity of this order of the House created as a result of this order of the House.

(Notice given 26 February 2020—expires Notice Paper No. 56)

**465. Ms Hurst to move—**

- (1) That this House notes that:
  - (a) we are currently living in a state of climate emergency,
  - (b) the Food and Agriculture Organisation of the United Nations has stated that livestock farming is the leading cause of climate change, creating roughly 7,516 million tons of CO<sub>2</sub>e emissions per year,
  - (c) according to research at John Hopkins University: “If global trends in meat and dairy intake continue, global mean temperature rise will more than likely exceed 2 degrees Celsius, even with dramatic emissions reductions across non-agricultural sectors”, and
  - (d) the single biggest thing any individual can do to lessen their impact on future extreme weather events caused by climate change is to adopt a plant based diet.
- (2) That this House encourages all Australians to adopt a plant-based diet in order to mitigate the effects of climate change.

(Notice given 26 February 2020—expires Notice Paper No. 56)

**466. Ms Faehrmann to move—**

- (1) That this House notes that:
  - (a) the Riverstone Wetlands in Western Sydney are home to over 100 species of birds, including the critically endangered Curlew Sandpiper as well as serving as a breeding site for the endangered Green and Golden Bell Frog,
  - (b) the Riverstone Wetlands are the only flood-free haven for migratory birds in western Sydney, including treaty-protected species from New Zealand, Korea, Japan, China and Siberia,
  - (c) the flood-free location of the Riverstone Wetlands also makes it the last site in Western Sydney without the introduced fish *Gambusia* which devastates Green and Golden Bell Frog colonies, and
  - (d) the Government has proposed to bulldoze the wetlands and replace them with new wetlands to be constructed in the nearby floodplain.
- (2) That this House calls on the Government to work with the Federal Government to purchase the land containing the Riverstone Wetlands and rehabilitate the wetlands as a vital habitat for threatened bird and frog species.

(Notice given 26 February 2020—expires Notice Paper No. 56)

**468. Mr Shoebridge to move—**

- (1) That this House notes that:
  - (a) bushfires across New South Wales have burned more than five million hectares of land, destroying landscapes including wet sclerophyll forests and rainforests and killing over a billion native animals,
  - (b) in many bushfire affected areas, including Manyana on the New South Wales South Coast, current development approvals will mean the removal of the only remaining intact forest - the removal of these wonderful trees will have a devastating impact on wildlife and the mental health of local communities,
  - (c) these intact forests are the biospheres that are essential to repopulate the surrounding burnt forest, and
  - (d) potential subdivisions must be revisited to ensure fire safety for communities following these fires.
- (2) That this House calls on the Government to:
  - (a) declare an immediate moratorium on all clearing for development in all bushfire affected areas, and
  - (b) review all planned subdivisions in light of recent bushfire destruction and community safety concerns.

(Notice given 27 February 2020—expires Notice Paper No. 57)

  - (b) at least \$50 million of Round Three of the SCCF was dedicated to youth-related projects and programs,
  - (c) regional councils, incorporated and not-for-profit organisations were eligible to apply for funding,
  - (d) funds are split across 93 regional local government areas, and
  - (e) over 500 projects will be funded through Round Three with more than 250 of these benefitting regional youth.
- (2) That this House notes that the Stronger Country Communities Fund will:
- (a) provide programs and infrastructure that will enhance opportunities for young people in regional New South Wales,
  - (b) support regional young people to become work ready, improve their mental and physical wellbeing, stay connected and access opportunities, and feel connected to and valued by their community, and
  - (c) boost the liveability of communities so young people can stay, live, work and thrive in regional New South Wales.

(Notice given 27 February 2020—expires Notice Paper No. 57)

**470. Ms Faehrmann to move—**

- (1) That this House acknowledges that:
- (a) Australia has some of the highest levels of media ownership concentration in the Western World with Rupert Murdoch alone owning 57.5 per cent of Australian media and news outlets and nearly 70 per cent of print media,
  - (b) Rupert Murdoch has repeatedly used his media empire to influence Australian politics, swaying the outcome of multiple elections at a state and federal level with overtly partisan coverage,
  - (c) Rupert Murdoch has used his media empire to promote lies and misinformation about climate change and its impacts and actively encourages climate-denialism among its readers, and
  - (d) NewsCorp outlets published multiple stories exaggerating the role of arsonists and downplaying the contribution of global heating during the 2019-2020 Australian bushfire emergency.
- (2) That this House condemns Rupert Murdoch for the damage he has inflicted upon Australia's politics, democratic institutions and public discourse and for his concerted campaign to undermine all meaningful attempts by governments to reduce greenhouse gas emissions.

(Notice given 27 February 2020—expires Notice Paper No. 57)

**472 Ms Hurst to move—**

- (1) That this House notes that:
  - (a) Australia is currently in the middle of a severe, devastating drought that is affecting humans and non-human animals across the country, and gives serious reason for us to look critically at our nation's water usage,
  - (b) the agriculture sector accounts for over 60 per cent of all human water usage in Australia, the vast majority of which is used by the animal agribusiness industry, and
  - (c) it takes approximately 20 times more water to produce a kilogram of beef than it does a kilogram of rice, fruit or vegetables.
- (2) That this House notes that transitioning towards a plant-based agricultural system is essential to reduce our water usage, and that every Australian can do their part to conserve water by adopting a plant-based diet.

(Notice given 27 February 2020—expires Notice Paper No. 57)

**473. Mr Pearson to move—**

- (1) That this House condemns painful, mutilating or lethal medical experimentation upon any primate species that has:
  - (a) opposable thumbs,
  - (b) friendships outside of kinship bonds,
  - (c) elaborate language,
  - (d) high intelligence,
  - (e) binocular vision,
  - (f) expressive faces,
  - (g) complex social systems, and
  - (h) the capacity for complex symbolic mathematics.
- (2) That this House notes that the ground-breaking study of baboons by Dr Shirley Strum entitled "Nearly Human" found that baboons:
  - (a) exhibit all of the characteristics listed in paragraph 1, and
  - (b) show "extraordinary ... planning and insight".
- (3) That this House questions why the Government considers it to be ethically acceptable:
  - (a) to perform procedures on baboons such as those conducted at Royal Prince Alfred including:
    - (i) electrocution,
    - (ii) procedures to test treatments for conditions such as pre-eclampsia, diabetes, kidney disorders and vascular diseases, and
  - (b) for baboons to be subjected to experimental xenotransplantation where they suffer:
    - (i) a short life of extreme confinement while being used as hosts for pig-human hybrid organs,

(ii) in the hope of providing humans with harvestable organs.

(4) That this House calls on the Government:

- (a) to end all primate medical experimentation including experimental procedures taking place at Prince Albert Hospital, and
- (b) for the Wallacia primates to be rehomed to an animal sanctuary where they can express their natural behaviours and live without fear and pain inflicted by humankind.

(Notice given 27 February 2020—expires Notice Paper No. 57)

**474. Mr Banasiak to move—**

(1) That this house notes:

- (a) that on Wednesday 18th March 2020 at least four cruise ships freely disembarked in Sydney, one of which was the Royal Caribbean Ovation of the Sea, with passengers witnessing at least four passengers being snuck off by staff and into a white van waiting for them before anyone else could disembark,
- (b) two days later on Friday evening, some passengers were notified via email that there had been one person known to be infected on board two days prior to disembarking in Sydney, and that all passengers should self-isolate, and that this notice seemed to have been sent in conjunction with NSW Health,
- (c) that at least eight passengers on that ship have now tested positive to Covid-19, one of those being the uncle of the Hon Mark Banasiak, and
- (d) That the passenger has been reported for failing to self-isolate by Mr Banasiak, who, unlike the Prime Minister, knows what decisive leadership means.

(2) That this House condemns:

- (a) Royal Caribbean and any other cruise company that has knowingly allowed infected people to disembark in Australia and put their profit before people's safety, and
- (b) the Federal government for continuously cutting funding to Border Force to the point where they have to adopt an ineffective risk assessment approach to security, rather than a comprehensive biosecurity strategy.

(3) That, given some cruise ship operations have demonstrated a devastating lack of corporate social responsibility, this House calls on the government, once this emergency is over, to review all operating licences and procedures for all cruise ship operators in New South Wales.

(Notice given 24 March 2020—expires Notice Paper No. 58)

- (2) That this House condemns the current Government and its transport minister for:
  - (a) blatantly ignoring the plight of the taxi industry during COVID-19, whose drivers are losing money daily because a legal obligation for taxis not rideshare to be on the road exists within the point to point regulations, and
  - (b) failing to provide any industry specific support to this essential service.
- (3) That this House calls on the Government to grow a conscience and immediately release money from the passenger service levy that has been earned off the back of taxi drivers to be used to ensure this essential service can return post COVID-19.
