### **NOTICE OF MOTION**

Mr Primrose says—

Mr PRESIDENT:

I give notice that on the next sitting day I will move:

1. That this House notes that:
  - (a) in April this year, Opposition Leader, Mr Luke Foley MP, announced that the next Labor Government in its first term will double State funding for public libraries, including:
    - (i) doubling the per capita recurrent funding from \$1.85 to \$3.70,
    - (ii) linking the funding package to the CPI for the first time,
  - (b) the total ongoing funding package for public libraries, including the annual CPI indexation, will be protected by inclusion in the Library Regulation,
  - (c) Mr Luke Foley MP also announced a \$25 million library infrastructure grants fund, and a Hardship Allowance of \$500,000 per year,
  - (d) in their June Budget, the Liberal-National Government slashed the existing grossly inadequate library funding by a further 18 per cent,
  - (e) Labor joined with Local Government NSW, the Public Libraries Association and councils to condemn these cuts, and campaigned for them to be withdrawn,
  - (f) the Liberals and Nationals subsequently 'found' \$5 million in the Regional Cultural Fund for regional library infrastructure, by cutting this amount from funds previously available for regional museums, art centres and other regional cultural activities,
  - (g) after eight years of inaction by the Liberal-National Government, and unfulfilled promises of increased funding by former Premiers and Deputy Premiers, the Minister for Arts, the Honourable Don Harwin MLC during the by-election in Wagga Wagga was forced to announce that the Government would increase some funding to library grants,
  - (h) the promise to increase funding to library grants would not start until the Budget after the next State election and the existing cuts would remain in place until then,

- (i) the Liberals and Nationals have refused to match Labor's commitment on per capita funding, confirming they would only increase it by a total of \$1 over 4 years and have refused to link it to the CPI, and
  - (j) the Liberals and Nationals proposed 'increases' include items such as \$1 million from Service NSW to install their self-service 'kiosks' in libraries, and that this is not a genuine increase to the funding of local libraries.
2. That this House calls on the Government to ensure that in the Half Yearly Budget Review, infrastructure funding for libraries is increased, and per capita recurrent funding to run the libraries, and employ librarians and support staff is doubled and linked to annual CPI increases.
