NOTICE OF MOTION

Mrs Overall says—

Mr PRESIDENT:

I give notice that on the next sitting day I will move:

- (1) That this House notes
 - (a) the ambitious plan to deliver 377,000 new homes by 2029 for NSW – including 55,000 homes committed to for regional NSW - will be unachievable if pre-existing infrastructure issues across New South Wales are not addressed.
- (2) That this House further notes that:
 - (a) as recently reported in the media, *aging water and sewerage infrastructure issues in local government areas across the Riverina Murray are resulting in locals facing ever-increasing costs for maintenance and utility bills,*
 - (b) *Local Governments are scrambling to find ways to afford the associated cost blowouts including through the increasing of rates though special rate variations, water and wastewater charges, and borrowing, all of which directly impact the already burdened ratepayers across the region, and*
 - (c) *without urgent repairs and upgrades, Riverina Murray councillors have publicly expressed that the housing targets imposed by government cannot be achieved.*

(3) That this House acknowledges:

- (a) *Greater Hume Shire Mayor Councillor Lea Parker has publicly stated that housing development in her area will stop unless urgent funding is received to upgrade infrastructure and that while Councils are reluctant to charge ratepayers more, the region is facing a water and rate crisis and are in critical need of urgent State and Federal Government financial support, and*
- (b) *Albury Mayor Councillor Kevin Mack has stated that while more people are choosing to call the regions home, with expectations that city's population will double over the next 50 years, it is essential for the NSW Government to work with councils to ensure infrastructure keeps pace and supports the delivery of much-needed homes, and that strong investment in water and wastewater infrastructure is critical to unlocking housing supply in regional centres,*

(4) That this House calls on the Government

- (a) to release a full, detailed reform roadmap for the proposed funding model and the regulatory framework, including the timeline, definition of standards to be met, performance reporting and progress of the proposed reforms of the overhaul of local water utilities and the delivery of new water infrastructure in achieving the commitments for the housing supply across the state, including regional housing.
