LEGISLATIVE COUNCIL

NOTICE OF MOTION

Mrs Maclaren-Jones says—

Mr PRESIDENT:

I give notice that on the next sitting day I will move:

- (1) That this House notes the NSW Government's Dine & Discover initiative, which is providing the people of New South Wales with four \$25 vouchers to spend at eateries and experiences.
- (2) That this House acknowledges that:
 - (a) the NSW Government Dine & Discover initiative has supported registered businesses across the State to get back on their feet,
 - (b) to date, the boost to the economy from this stimulus package is more than \$361 million at point of sale,
 - (c) on Wednesday 9 June 2021, the NSW Government announced the vouchers would be extended by one month, to now expire on 31 July 2021, and
 - (d) the Dine & Discover initiative is serving as a great opportunity for people to enjoy and explore New South Wales, and try new eateries and experiences.

Signed

Daryl Maclaren-Jones

LEGISLATIVE COUNCIL

NOTICE OF MOTION

Mr Shoebridge to say -

Mr President:

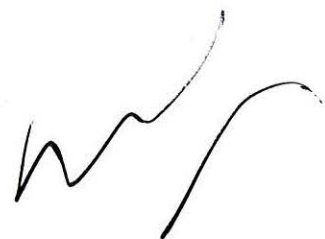

I give notice that next sitting day I will move:

That leave be given to bring in a bill for an Act to amend the Local Government Act 1993 to provide that property developers may not be elected or appointed to, or hold or act in, a civic office; and for related purposes.

(Local Government Amendment (Prohibition of Election of Property Developers) Bill)

(Prepared by the Parliamentary Counsel)

LEGISLATIVE COUNCIL

NOTICE OF MOTION

Mr Shoebridge says—

Mr PRESIDENT:

I give notice that on the next sitting day I will move:

1. That this House notes that:
 - a. The [Draft Amendment to the Kosciuszko National Park Plan of Management \(Snowy 2.0\)](#) proposes to exempt Snowy 2.0 from having to underground its telecommunication and transmission lines.
 - b. If approved, the Amendment will permit the construction of overhead telecommunication and transmission lines in Kosciuszko National Park for the first time in over 50 years.
 - c. The last major transmission line to be constructed in a NSW National Park was in the 1970's and in Kosciuszko National Park in the 1960's, more than half a century ago.
 - d. The proposed lines would be enormously intrusive with four 330 kV transmission lines proposed, including two sets of towers up to 75 metres high, almost twice as tall and wide as the existing single tower lines.
 - e. The Snowy 2.0 lines would traverse eight kilometres of Kosciuszko and a cleared swathe of up to 200 metres wide. One hundred hectares of the National Park would be permanently cleared.
 - f. The blight of the towers and lines would be visible over 300 square kilometres of the National Park and the adjacent Bago State Forest.
2. That this House recognises that:
 - a. The 2006 [Kosciuszko National Park Plan of Management](#) is a result of a 5 year consultation and planning process which included consultation with TransGrid and Snowy Hydro.

A handwritten signature in black ink, consisting of a stylized 'M' followed by a long, sweeping diagonal stroke.

- b. In order to amend Plans of Management, due consideration must be given to 23 matters listed in the Act, and public exhibition and consultation must be undertaken. This has not happened.
- c. On 23 February 2021, the [Environmental Impact Statement Snowy 2.0 Transmission Connection Project](#) was released, proposing overhead lines (this was three weeks after the Exhibited Amendment to the POM) despite the fact the Plan of Management did not yet allow this.

3. That this House further notes that:

- a. On 18 Jan 2021 an [Open Letter to the Minister for Planning and Public Spaces and the Minister for Environment and Energy](#) was issued from two dozen environmental organisations and 50 experts calling for a comprehensive analysis of transmission alternatives and the adoption of an underground solution for Kosciuszko National Park.
- b. The National Parks Association NSW in collaboration with industry experts produced a [technical paper](#) which has outlined at least five viable alternatives for undergrounding the transmission connection route to reduce the environmental impact on Kosciuszko National Park.

4. That this house calls on:

- a. The Minister for Environment and Energy to abandon the proposal to amend the Kosciuszko National Park Plan of Management which would exempt the Snowy 2.0 project from the legal requirement for "all additional telecommunication and transmission lines to be located underground"
- b. The Minister for Environment and Energy to uphold the current POM and direct Transgrid to underground the Snowy 2.0 transmission connection within Kosciuszko National Park and the Bago State Forest to reduce the environmental impact.

LEGISLATIVE COUNCIL

NOTICE OF MOTION

Mr Shoebridge to say -

Mr President:

I give notice that next sitting day I will move:

That leave be given to bring in a bill for an Act to preserve the public ownership of Killalea State Park; to protect its community and environmental values, to restrict commercial exploitation of the park; and for other purposes.

(Killalea State Park Bill)

A handwritten signature in black ink, appearing to read 'A O'Callaghan', with a long horizontal flourish extending to the right.

(Prepared by the Parliamentary Counsel)

A handwritten signature in black ink, consisting of a series of loops and a long horizontal flourish extending to the right.
