

Proforma C

INQUIRY INTO 'ENERGY FROM WASTE' TECHNOLOGY

Name: Proforma C – Opposition to proposed incinerator

Number received: 4

I oppose the incinerator

reasons for opposing the incinerator are stated below

1. High level of toxic waste production being realised into the air. which will be affecting the health of thousands of individuals
2. Increase level of cancerous diseases which will occur due to the production of toxic wastes , This will put pressure on the Australian health system as more people will be ill.
3. The incinerator should be built a minimum of 15km away from residential areas.
4. This will cause a dramatic drop in the prices of homes and residential properties near Eastern Creek.
