

Answers to Questions on Notice: Mark Taylor, Veolia – hearing 26 June 2017

The CHAIR: Mr Taylor, before we proceed to questions. Would you be open to hosting the Committee at one of your sites—for example, at Woodlawn or one of your other sites? Perhaps you could take that question on notice.

Mr TAYLOR: Yes. [Provisionally scheduled for 22nd August](#)

The Hon. JOHN GRAHAM: I was interesting in the plant you are currently building in Mexico— \$1.6 million tonnes per annum. What is the value of that project?

Mr TAYLOR: I would have to take that on notice. [It has a capital cost estimate of US\\$520m although this cost is difficult to accurately convert to AUS\\$ given significant variations to the cost of labour and construction cost between the 2 countries. Whilst 3 times the size of any facility we currently operate the scale and size of the plant delivers significant economies.](#)
