Lauren,

I have reviewed the text attributed to myself and have only one correction which is on Page 41 of Panel 3. The final para should read 'aerospace and space strategy', not 'aerospace and interspace'

Further, you have marked up a QoN on Page 10 of the Panel 1 Report from early in the day.

In relation to this, I provided a response to the QoN regarding 'the relevant strengths of the departmental organisations in various States' later in the day. You will see this response to the QoN at Page 42 of the Panel 3 report. As you will read, I sought assurance that the information had satisfied the Committee's earlier question. It did not appear to me that they needed further advice and I recommend the QoN be considered as answered.

Kind Regards,

Peter S
