## WINDSOR BRIDGE REPLACEMENT PROJECT INQUIRY

I am opposed to this project because it doesn't meet the project objectives.

It doesn't improve traffic and transport efficiency, as it does not provide for a road speed of 60 km/h, minimise queue length/delays or improve the level of service performance of the road network in the long term.

It doesn't provide 1 in 5 flood immunity.

It doesn't meet community needs for the long term by minimising the impact on recreational space.

It doesn't minimise impacts on heritage and character of the local area, with regard to Aboriginal and non-Aboriginal heritage and the visual impact of the bridge and road approaches.

It is the cheapest and worst option that was considered. Other options cost more but had less negative impacts.

Windsor needs and deserves a bypass. The heritage of Windsor and Thompson Square needs and deserves protection.

Thanks for your time and consideration of this matter.
