

**STANDING COMMITTEE ON LAW AND JUSTICE
2018 REVIEW OF THE DUST DISEASES SCHEME AND
LIFETIME CARE AND SUPPORT SCHEME**

SUPPLEMENTARY QUESTIONS – icare

1) Are there any further issues in respect of the Dust Diseases Scheme or the Lifetime Care and Support Scheme that you would like to draw to the attention of the committee?

ANSWER:

icare has nothing further to add to the information it provided in the pre-hearing questions, at the hearing and in response to the questions it took on notice during the hearing.

This being said, icare looks forward to hearing the Committee's recommendations following its review and equally to examining ways it can work with the Committee to further improve the services it provides to the NSW community through the Dust Diseases and Lifetime Care schemes.
