

Subject:

Double Jeopardy Bill Inquiry - NSWPF post hearing responses

Dear Merrin,

The following response is provided to the NSWPF supplementary questions:

1. The 470 unsolved cases are confirmed as homicides
2. There are 39 cases acquitted by a variety of means which precede the *Evidence Act 1995*. Comment isn't provided with regards to serious child sexual assault, however, all fall within the category of life sentence cases where a conviction has not been obtained. While 39 cases are identified, none are consistent with the facts relating to the Bowraville case.

Please don't hesitate to let me know if any of the above requires clarification.

Kind regards,

Nicole.
