Subject: URGENT: Western Sydney Funding Agreement

Lauren Rech

Anne and Lauren

There is an absolute deadline which has to be met today – get a revised brief to Min Ayres which

1. Notes (or other verb) the rescinding of the previous brief which the Minister signed relating to funding agreement approval
2. Notes ERC has provided \$12m
3. Approves CE entering into a funding agreement

The Minister has expressed he wishes to not be the signatory to the funding agreement and as advised there are similar cases (Karen Jones has provided)

My understanding is we now have Panthers agreement to hand back the signed agreement and for it to be replaced with a new agreement signed by me after the new Min Brief approves me so doing

So the must do today is to have delivered to the MO by late afternoon today a revised brief for the Min to sign as per the above recs- I also need a revised funding agreement ready to sign once authorized and then it needs to be transmitted to Panthers without delay

There is a critical deadline for all this to be finalised by COB Thursday

- I have something wrong or there is any other issues please call my mobile immediately and I will come out of the SOPA board meeting

Thanks for your ongoing support on this
