

## Health Consumers NSW Submission

Inquiry into health services in the South-West Sydney growth region

Answer to questions on notice

Question: What is the reach of your organisation into the south-west?

Our membership database software is not sophisticated enough to give an exact break down of our members on a regional basis. Using a population approach we estimate that we have approximately 100 individual members from the south west Sydney region. Our members are consumer representatives working with health services and bring patient experience and perspectives to health service's decision-making processes.

Suite 3/ Level 8, 280 Pitt St
