Dear Sarah,

Apologies for the delayed response. The Commission's timeframe for completing the review of the NSWPF's STMP III review is projected to be the last quarter of 2021. The Commission is awaiting full implementation of the new STMP III scheme by the NSWPF before we are able to properly evaluate the way that new policy responds to the issues identified in the Operation Tepito interim report.

I hope that information assists you.

Regards,

Justine Simpkins
