DECISION

INQUIRY NUMBER:	18S006
PERSON:	Raymond Stevenson (Participant)
PANEL MEMBER(S):	Grant Carroll (Chief Steward)
DATE OF DECISION:	20 August 2018

Background

1. On 31 July 2018 the Greyhound Welfare & Integrity Commission (**GWIC**) attended your registered kennel address and residential property at 190 Kangarooby Road, Gooloogong (**Property**) and conducted an inspection
2. During the inspection, 28 greyhounds were located at the Property. The majority of these greyhounds were identified as having varying medical conditions, including emaciation and severe dental disease.
3. Due to the condition of the greyhounds, you were directed to seek veterinary care for certain greyhounds in your care.
4. The greyhound, Minnie Spring (**Greyhound**), was identified as being in an emaciated condition. The Greyhound was euthanised on 31 July 2018.
5. The Participant's veterinarian provided a written submission on behalf of the Participant on 10 August 2018.
6. The Participant provided verbal submissions on 13 August 2018.

Consideration

7. The Steward has considered the entirety of the submissions provided on behalf of the Participant by the veterinarian including:
 - (a) The Participant's health and wellbeing as a result of the process.
 - (b) The Participant's compliance with the direction of the GWIC inspectors, including seeking veterinarian attention for the greyhounds.
 - (c) That the Participant will be denied natural justice and procedural fairness if the Participant was to be suspended prior to an inquiry hearing.
 - (d) That dental disease, including where the presence of calculus without gingivitis does not represent an urgent welfare concern.
 - (e) That the Participant has engaged his veterinarian to examine and treat his greyhounds.
8. The Steward has considered the verbal submissions of the Participant including:
 - (a) The Participant's Property has been inspected on numerous occasions with this being the first incident to have been found.
 - (b) The Participant noticed that the Greyhound was 'not right' three to four weeks prior to being euthanised and dropped weight considerably in the week leading to the euthanasia.
 - (c) The Participant admitted that he should have taken the Greyhound to the veterinarian. However, the Participant believed that the Greyhound was getting better without veterinarian care.

- (d) The Participant denies that the majority of the dental disease found was as a result of his doing. The Participant believes that the greyhounds were suffering from various degrees of dental disease prior to him taking custody of the greyhounds.
 - (e) The Participant denies doing anything wrong.
 - (f) The Participant believes that he has always tried to do the right thing by the greyhounds, including taking on greyhounds that were likely to have been put down.
 - (g) The Participant's feels that greyhound racing is his life.
 - (h) The Participant does not rely on the income derived from greyhound racing.
9. The Steward notes the Participant's licence history, having been licensed as a trainer since 2009 according to GWIC records. It should be noted that the Participant submitted that he has been involved in the greyhound racing industry for over 50 years.
10. The Steward notes the contribution to the industry of the Participant, having:
- (a) acted as a committee member at the Coonabarabran greyhound club for a period of approximately four years; and
 - (b) worked as the lure drive at both Coonabarabran and Mudgee for three years and one year respectively.
11. The Steward has balanced the submissions against the following factors:
- (1) The evidence currently before the inquiry.
 - (2) The seriousness of the allegations against the Participant, which relate to:
 - (a) The failure of the Participant to safeguard the welfare of greyhounds in his care and custody from suffering unnecessarily; and
 - (b) The failure of the Participant to ensure a greyhound in his care and custody received veterinarian attention when required which may have led to Spring Minnie being euthanised.
 - (3) The importance of protecting the integrity of the industry, its participants and the public, whether betting or otherwise, while such serious allegations are enquired into.
 - (4) The importance of protecting the welfare of greyhounds in the participants care and custody.

12. The Steward has considered the decision of the Racing Appeals Tribunal in relation to the matter of John Howson and the requirements of procedural fairness. As a result, the Steward is satisfied that procedural fairness and natural justice has been provided to the Participant.

Decision

13. Having balanced the factors, the Steward has determined to impose an interim suspension of the Participant's licence in accordance with Rule 92(5) of the GRNSW Greyhound Racing Rules.
14. The Steward has also determined to review the interim suspension in 30 days from the date of this decision. This determination is based on:
- (a) The Participant providing GWIC Investigators and Chief Veterinary Officer with a veterinary and welfare plan that takes considerable steps to improve the welfare of the greyhounds in his care and custody.
 - (b) The Participant complying with all lawful directions of the controlling body in relation to the greyhounds in his care and custody.

 - (c) The Participant's significant contribution to the industry;

 - (e) The Participant on notification of the detection of the prohibited substances elected to cease participating in the industry, including removing all greyhounds from his kennels; and
 - (f) The Participant's personal and health circumstances as provided in his submissions.
9. The Chief Steward has also considered the following factors:
- (a) The evidence currently before the inquiry being the certificates of analysis from the Laboratory and the Confirmatory Laboratory.
 - (b) The seriousness of the allegations relating to the detection of a drug that is a permanently banned prohibited substance under the Rules. If such allegations are found to be true, they would constitute a serious breach of the Rules with a starting point of 156 weeks disqualification based on precedents in relation to similar classes of drugs detected in a greyhound.
 - (c) The Participant has been licenced since 1996 with two prior positive swabs in relation to the detection of meloxicam.
 - (d) The importance of protecting the integrity of the industry, its participants and the public, whether betting or otherwise, in the context of such an issue.

Decision

10. Having balanced the factors, the Chief Steward has determined to impose an interim suspension of the Participant's licence in accordance with Rule 92(5) of the GWIC Greyhound Racing Rules.
