

In regard to the question that was put to you on notice:

1. Mr Tim Duddy the committee notes that in your submission you stated the category system is unclear. The National Trust implemented a similar system that they ended up dismantling. Would you possibly know the reasons it did not work for them?

**It would not be appropriate for the HHA to comment on the internal workings of the National Trust, nor are we privy to conversations that took place at a management level regarding the abandonment of the Heritage Category System. These are questions that should be put to the National Trust.**

Tim Duddy
