**Subject:** RE: Inquiry into road tolling regimes - Post hearing responses - Due 8 November 2021

Hi Madeleine,

I discussed the question on notice with the GM/CEO of my member Councils and they recommended that the question be put to Councils that have toll-roads within their jurisdiction where they have been forced to deal with the economic and environmental impacts of those toll roads on local roads. These Councils are not our member Councils and in any case it would require a fair amount of effort to do a proper analysis and report as the information is not readily available.

Cheers

Charles
