

Re: Vertebrate Pest Control [DLM=For-Official-Use-Only] 
 Wayne Jackson to: David OShannessy, Tim Seears

27/02/2015 14:01

Good afternoon Mr OShannessy and Mr Seears,

I hope this message finds you well.

I have been working with the others on this project, in relation the humane dispatching of Vertebrate Pests and I was wondering if you were still interested in assisting me.

I have commenced drafting the other's statements, and I am enthusiastic about gathering as much evidence and support for this as possible.

I apologize for the delay in getting back to you this year, as we have been extremely busy, with unexpected operations.

There is a possibility that I never received your return email, so could I ask you to forward me the below request, so I can continue to formulate a brief.

If you would like to discuss the matter, please call me anytime.

I want to thank you for your assistance in advance.

Regards
 Wayne.

Subject: Vertebrate Pest Control [DLM=For-Official-Use-Only]

Good morning everybody,

I hope this message finds you well.

Well with 2014 drawing to a close, I am tidying up a few things preparing for a productive 2015. I thank you, one and all for your enthusiasm in helping me with my project.

I will be taking a couple of weeks off over Christmas but I have started on a few of your statements with the information that you have already sent through.

With 'Expert Certificates' there are essential pieces of information that has to be placed at the beginning of the document, which is missing from some of your bio's or resumes'. Although some of the information appears to be rather personal, **only the bold information is Mandatory**, the rest remains in our closed Police system.

Could I ask you to 'return' this email, and complete the following information so I can work on 'Expert Certificates' in the new year.

Title (Mr Miss Mrs) :

Full Name :

Date of Birth :

Place of Birth :

Country of Birth :

Home Address:

Home Phone :

Mobile :

Personal Email :

Occupation :

Company Name :

Branch/Section :

Street Address :

Suburb/Town :

State and Postcode :

Work Telephone :

Work Email :

State Field of Expertise :

Years of Experience In Field of Expertise :

Qualifications : (I will take this from your Bio or resume',) but add more here if you are able to.

Training/ Study/Experience relevant to :

Again, thank you everybody and I look forward to working with you, on these in the new year. I will be working this week if you need anything at all.

Merry xmas and happy new year.

Take care

Jacko.

Statement of
in the matter of Vertebrate Pest Control

4. I have studied
5. I have written articles, journals, or lesson plans, SOPS etc.
6. My experience within National Parks.....
7. NPWS, hold lands of, have feral animal problems, we actively
8. The NSW NPWS SOPS re. vertebrate pest control. Cat D's for aerial shooting., Bolt action for ground shooting.
9. Aerial shooting, FASST. Qualifications.
10. There are a number of methods for the controlling of larger vertebrate animals such as, (please expand)
 - a) Poisoning,
 - b) Trapping,
 - c) Harvesting,
 - d) Shooting
11. The factors that are taken into consideration for the most humane removal of (please expand)
 - a) Topography
 - b) Numbers of animals
 - c) Types of animals
 - d) Physiology
 - e) Breeding seasons
12. Based wholly or substantially on the above knowledge, I am of the opinion that, when undertaking the controlled and humane destruction of vertebrate pests within Australia, the most appropriate manner of the humane destruction of vertebrate pest is
With a appropriately trained and qualified government official to assess the localized problem, set up controlled program, then only after all the other control measures have fail, then controlled ground based shooting with bolt action rifles could be used,as a last resort with use of semi-automatic rifles being used from aerial platforms only and only after all other methods have failed. .
