

Work is set to begin on the upgrade at Millthorpe Public School with the construction contract awarded to Lipman Pty Ltd.

The project will deliver modern educational facilities for students and will include a new two-storey learning hub with 10 new flexible learning spaces, a new library and additional practical activity areas with main works to commence in March.

The existing buildings will also be renovated to provide an upgraded administration area and new staff room.

Heritage Block B will be internally renovated and new covered outdoor areas and walkways will be installed.

The upgrade is an exciting addition that will deliver modern resources to local students both now and for generations to come.

I'm looking forward to the construction phase of this upgrade and to the benefits it will bring students in the area.
