Dear Mr Ratchford,

There is an error in my opening statement, second sentence. It should read “charged with *training and governance*” rather than “government”.

In my response to the Hon Scott Barrett’s Question on page 22, The specific Medicare Item number is 288 and I should have stated that there was previously a 50% loading on that item number above face to face reviews. [this was my error].

Otherwise this is an accurate report of my evidence.

Warm Regards

Therese Grotowski
