Tender Details

1 This RFT seeks the provision of actuarial services for the following categories:

- (a) Workers Compensation Regulation
- (b) Motor Accidents Insurance Regulation
- (c) Home Building Compensation Regulation

2 Tenderers may tender for any or all of the categories of service and each category will be assessed independently.

3 Tenderers are advised, however, that it is SIRA's intention to ensure that a dominance in the provision of actuarial services to SIRA does not arise and accordingly it is envisaged that a mix of service providers will be appointed to meet the needs of SIRA. Sira, however, reserves the right to appoint as few or as many service providers as deemed necessary to provide the required actuarial services.

4 Tenderers who are successful for an individual category may also be required to provide Additional Services related to any other category. Contract Agreement terms and conditions will apply to any such engagement for Additional Services.

5 A detailed description of the Services for each category is described in the Statement of Requirements
