Dear Secretariat

Thank you for the two day extension of time in completing my response.

In regards to the official transcript, I wish to add two pieces of information for the Committee's consideration.

1. On page 3 of the official transcript, I am asked if I had spoken to any third parties about giving evidence at the PAWC. I should have stated that I did have a discussion with the Cabinet Office about standard procedural matters in regards to appearing at a Legislative Council committee.
2. On page 6 of the same transcript, I am asked about any meetings with Minister Haylen and I respond *"Since she became Minister, I met her on the well-publicised 4 April meeting in this building, and then I don't believe I met with her again until I had been sworn in to this role."* This was an error, and later in the hearing I go on to discuss with committee members my further meeting with Minister Haylen on 1 August as part of the official recruitment process (where two final candidates were interviewed). I overlooked that in the earlier statement and wanted to clarify for the committee's record.

My Supplementary Answers are attached.

Yours sincerely,

Josh Murray
