Hi Sarah,

Further to my email below, please find the response to one of questions from the hearing in the attached email. Note that the response has been provided by the Office of Energy and Climate Change. I have copied below for ease:

Q: is there an understanding about the process by way of a time line—when this commission would be set up, when it would be required to report for the first time?

A: Matters relating to the establishment of the Net Zero Commission should be referred to the Office of Energy and Climate Change, NSW Treasury.

Kind regards,
Chrissy
