Total submissions (end week 5)	13,009
Submissions received this week	2,537 (previous week was 2,015)
Trends/observations	<ul style="list-style-type: none"> 11,307 of the submissions have been received via the online form, email, or post 1,702 submissions have been received via the online survey Most submissions (8,615) have been sent by email via online forms hosted by third parties (e.g. the Invasive Species Council, NSW Greens and the Nature Conservation Council). These submissions tend to be identical or near identical letters (copies of a base letter) however some letters include a personalised section of unique text to accompany the issues raised by the base letter. Coding is complete except for a small number of late submissions (less than 100 submissions) <p>Of all the coded submissions 79% expressed support for the amendment to introduce aerial culling as a control method, 19% expressed opposition and 2% expressed feedback that neither supported or opposed the amendment.</p>
Significant/key submissions this week	Privacy

	<p>Privacy</p> <p>Privacy</p>
<p>Other information</p>	<p>Over 70 late submissions have been received to date. A decision has been made to accept late submissions to COB Friday 15th September.</p> <p>The total number of submissions includes duplicate and multiple submissions. Multiple copies of submissions will be filtered out from the final spreadsheet.</p>
