Hi Daniel,

My only suggested edits are as follows:

p26 [inaudible] = funds

p27 [inaudible] = digging required for the building....

p27

" high voltage platforming lines " should read "high voltage backbone lines"

This is not an edit to the transcript, but would you be in position to clarify with Mr Fang that our submission to the previous inquiry that he noted CEIG had referenced had been online since July of this year? https://www.re-alliance.org.au/sub_nsw_parl_undergrounding

Best regards, Andrew
