Dear Chair, *Robert*

### **Reclassification of tabled document**

I write to request that Portfolio Committee No.5 classify as confidential a document that I tendered during the budget estimates hearing on Wednesday 6 March. The document is titled 'Questions taken on notice: 6 March 2024'.

An incorrect version of that document was tabled and uploaded on the Parliament's website (see [here](#)). I have attached the correct version of the document for tabling and publication on the Parliament's website. I request that the Committee publish the attached version of the document on the Parliament's website and treat the document that is currently published as confidential.

As is evident from the strike marks on page two of the published document, there is a question and answer regarding the issue of 'Bowraville' that was not intended to be read onto the transcript or published. It is my intention to publish an answer to that question asked alongside other questions taken on notice during the hearing.

Sincerely,

**Michael Daley MP**  
**Attorney General**
