Dear Kara

Please find attached my Edited transcript with two minor changes on page 25. I have applied inverted commas (quotation marks) to my comments in two places. If these corrections fall into the category of correction of punctuation, which are not allowed, then the transcript of my comments can remain as is.

In response to the question put to me by the Hon Mark Buttigieg, on page 28, I respond as follows:

Council's Director of City Assets has informed me that:

TfNSW are currently undertaking a Drummoyne Traffic Study following the commitment of the State Minister. Council is working closely with the TfNSW team leading the study and are providing support with the provision of local knowledge and data that we have available to assist with the process. TfNSW have made the commitment with us to continue to closely engage and involve Council in the development and review of traffic solutions identified through analysing the data currently being captured in the Drummoyne area. TfNSW have formed a traffic study working group with Council which meets regularly. TfNSW are targeting to complete the study by end of June 2024.

Regards
Joe Cordaro
