Subject: Rozelle interchange

To the committee

I would like to draw to your attention the severe restriction to traffic flow that now happens daily in Drummoyne, Traffic congestion has become intolerable since the recent changes tunnel operation/ diversion commenced in Rozelle.

Before this year traffic volumes were heavy during peak hour , but have now become much worse, particularly on the approach to Drummoyne from Gladesville Bridge.

I would strongly urge you to amend your present strategy, and make the necessary changes to improve traffic flow to and from Victoria Rd.

Thanks & rgds

Drummoyne
