Subject: RE: Inquiry into the management of cat populations in NSW - Post-hearing responses - 1 April 2025

Hello Animal Welfare Committee Secretariat

Following the hearing into the management of cat populations in NSW, the National Parks and Wildlife Service / Department of Climate Change, Energy, the Environment and Water wish to advise there are no transcript corrections, no responses to questions on notice or supplementary questions and no additional information for the committee beyond our original submission.

I understand the Office of Local Government and Department of Primary Industries and Regional Development intend sending a response separately.

Regards

Richard Kingswood
