

Question on Notice

Regarding the question on notice on page 45 seeking information provided to the eSafety Commissioner please see the links below to relevant documents. During the Hearing I advised that Phase 2 Industry Codes had been provided to the eSafety Commissioner on 28 February 2025 which was an extension of the initial December 2024 deadline.

[Online Safety Codes 2025](#) landing page.

[All Codes and the Head Terms](#)

[Designated Internet Services \(DIS\) Industry Code](#) pdf. This code is relevant to websites that host adults-only content.

At the time of writing this email we have yet to see any further information from the eSafety Commissioner about the Phase 2 Codes.

Please contact me if you require more information.

Kind regards

Graeme Dunne
