HIJACKING 80th ANNIVERSARY OF AUSCHWITZ LIBERATION

Is complete moral bankruptcy a prerequisite to represent the vile antisemitic Greens?

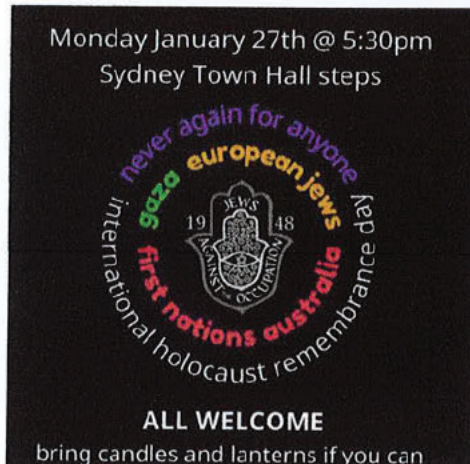

Check out this disgrace being promoted by some extreme leftists in Sydney.

Today is the International Holocaust Remembrance Day, specifically the 80th anniversary of the liberation of the Auschwitz-Birkenau death camp.

Yet there are some degenerates seeking to hijack this day for their own extremist political purposes suggesting some equivalence and false link to their own causes.

All reasonable people would be disgusted.

ALL credible political parties must preference the Greens last.
