Dear Landholder,

Fencing Assistance - Wambelong Fire

I am writing on behalf of the NSW National Parks and Wildlife Service (NPWS) to offer you assistance to repair or replace fences bordering the Warrumbungle National Park which were affected by the Wambelong fire.

NPWS recognises the value and mutual benefit that appropriate boundary fences provide. Given the damage caused by the recent fire, NPWS has been working with neighbours and wants to assist you in the reinstatement of damage boundary fences as soon as possible. To this end a streamlined assistance process has been developed and it is set out in this letter.

NPWS Offer

NPWS is offering to:

- Purchase and supply an agreed quantity of fencing materials required to replace or repair a pre-existing boundary fence; and
- Reimburse agreed costs incurred where plant is used to perform any necessary line clearing up to 6 metres on the park side of the fence.

Please note that this offer applies to the replacement or repair of pre-existing boundary fences only. For assistance with any new boundary fence bordering park, that is one which did not exist prior to the Wambelong fire, a standard fencing agreement will be required.

To take up this offer

If you wish to take up this offer, please contact the NPWS Coonabarabran office on (02) 6842 1311 to arrange for a NPWS officer to meet with you. The details of the fencing materials and assistance to be provided will be discussed and written into the attached schedule.

The terms that will apply to the provision of assistance are also set out in the attached schedule.

If the assistance details and the terms of the NPWS offer are acceptable, then an agreement will be formed when both you and NPWS sign the attached schedule. NPWS will then proceed to provide agreed fencing assistance as per the agreed terms.

If you have any questions regarding this process, please do not hesitate to contact myself at the Coonabarabran Area Office on telephone (02) 6842 1311.

Yours sincerely
