Question on notice:

p18: *Please take on notice producing examples of where there is such a jury direction in other jurisdictions and consider whether you think we should recommend to the Attorney General or the Judicial Commission in New South Wales the adoption of a similar jury direction.*

Further to my reply to this question, I have this week received information about three more cases which contain judicial consideration of Mildren style jury directions.

The directions are considered at length in *Bowles v Western Australia* [2011] WASCA 191.

The directions are considered briefly in

*R v Knight* [2010] QCA 372

*Simon v The Queen* [2002] WASCA 329.
