John Young - OECD priority nanomaterials

Dear John,

Following on from our meeting on Tuesday, here's the complete list of nanomaterials the OECD intend to investigate as part of their testing program:

Fullerenes (C60)
Single walled carbon nanotubes (SWCNTs)
Multi-walled carbon nanotubes (MWCNTs)
Silver nanoparticles
Iron nanoparticles
Carbon black
Titanium dioxide
Aluminium oxide
Cerium oxide
Zinc oxide
Silicon dioxide
Polystyrene
Dendrimers
Nanoclays

As I indicated on Tuesday, the Australian delegation expressed an interest in co-sponsoring the programs on zinc oxide and silver nanoparticles.

If you need any further information, please do not hesitate to contact me.

Cheers

Simon
