

Ref: A2409746

**14 NOV 2014**

Mr John Young  
Director  
General Purpose Standing Committee No. 1  
Parliament House  
Macquarie Street  
Sydney NSW 2000

Dear Mr Young

I am writing in response to a request from the Legislative Council General Purpose Standing Committee No. 1 dated 31 October 2014 to provide answers to Questions on Notice and nine supplementary questions forwarded by the Committee Secretariat following the Committee's hearings on its Review of the Inquiry into Allegations of Bullying in WorkCover NSW held on 28 October 2014.

Please find attached responses to the Questions on Notice and the supplementary questions.

I do not wish to make any corrections to the transcript.

If the Committee has any further inquiries, please contact my office on 9272-6088.

Yours sincerely

Graeme Head  
**Public Service Commissioner**

**General Purpose Standing Committee No. 1**  
**Review of the Inquiry into Allegations of Bullying in WorkCover NSW**  
**Questions on Notice: Mr Graeme Head, Public Service Commissioner**

**Page 38 of the transcript**

"how many temporary employees are potentially affected by the operation of regulation 10. Secondly, I note that on 15 April you made a regulation 10 three-point exemption. How did that come about? Was it in response to representations made by any agencies? How many persons are affected by each of those three points in the exemption?"

**Response**

In relation to the first question, please refer to the answer in response to supplementary question 1.

In relation to the second question, please refer to the answer in response to supplementary question 4.

In relation to the third question, please refer to the answer in response to supplementary question 5.

**Page 39 of the transcript**

"Were you consulted by WorkCover or anyone else about the establishment of the memorandum of understanding under which workplace health and safety issues concerning the employees of WorkCover are investigated and responded to by the mining inspectorate?"

**Response**

The Public Service Commission does not believe it was consulted and has no record of being consulted about the memorandum of understanding under which workplace health and safety issues concerning employees of WorkCover are investigated and responded to by the mining inspectorate.

**Page 41 of the transcript**

"There are 3,735 contractors, full-time equivalent. I presume about 4,000 contractors. Are they the people who were surveyed for the purposes of People Matters?"

**Response**

The People Matter Employee Survey 2014 asks respondents to identify themselves as being in one of the following categories:

- Senior Executive (ongoing/permanent or term)
- Ongoing/permanent (other than Senior Executive)
- Temporary (including temporary teachers and graduates)
- Casual
- Contract - Non-Executive (staff employed directly by the organisation on the basis of individual contracts)
- Labour hire (staff employed via recruitment agencies generally for a limited term)
- Other (sessional/seasonal, trainee, apprentice, retained staff etc.)

**General Purpose Standing Committee No. 1**  
**Review of the Inquiry into Allegations of Bullying in WorkCover NSW**  
**Supplementary questions: Mr Graeme Head, Public Service Commissioner**

1. Given there are 32,587 full-time temporary employees and 26,555 part-time temporary employees across the public service (according to PSC Workforce Profile Data), how many temporary employees are impacted by Reg (Rule) 10 of the Public Sector Employment Rules?

**Response**

This question concerns the impact of Government Sector Employment (GSE) Rule 10 (Maximum period of temporary employment).

As at 19 June 2014, the NSW Government Sector as a whole had 55,863 temporary employees. However, the GSE Rules on temporary employment apply to the Public Service only, and not to the Police, Transport or Health Service and thus do not apply to teachers, nurses and police.

The number of Public Service temporary employees affected by the GSE Rules is 9,572. Of the 9,572 employees employed on 19 June 2014, 7,193 were full-time employees and 2,373 were part-time (with 6 not classified).

Of these, the number of employees potentially impacted by Rule 10 is approximately 2,400 (the number of employees who will have been employed for more than four years in one agency as at 24 February 2015, assuming continuous employment).

The Committee should note that matters raised at the hearing may have given the impression that a significantly greater number of NSW Government temporary employees were potentially affected by the Government Sector Employment (GSE) Rules coming into effect on 24 February 2015 than is in fact the case. As my answer to supplementary question 1 makes clear, if no action were to be taken prior to February 2015, the potential number of temporary employees impacted by the GSE Rule 10 (Maximum period of temporary employment) is 2,400.

However this Rule is to be amended shortly following consultation with the sector and with unions. This will ensure that appropriate transition arrangements can be put into place for the affected group of temporary employees.

2. What is the gender breakdown of the temporary employees impacted by Reg (Rule) 10? Please provide this breakdown for each agency and by full-time and part-time temporary employees.

**Response**

**Temporary employees impacted by GSE Rule 10 by gender, arrangement and agency tenure**

Employment Arrangement	Gender	4 Plus years	Agency tenure will reach 4 years by 24 Feb 2015
Full-Time	Male	755	70
Full-Time	Female	757	74
Part-Time	Male	244	17
Part-Time	Female	451	37
	<b>Total</b>	<b>2,207</b>	<b>198</b>

Please see the answer to supplementary question 8 regarding the gender breakdown by agency.

3. **What processes are in place to ensure that, in determining what the employment status of temporary employees will be after 24 February 2015, there is not a disproportionately adverse impact on female temporary employees?**

**Response**

This is being managed by agencies at a local level. The amendments proposed to the GSE Rules by the Public Service Commissioner and which will commence shortly will provide agencies with mechanisms to avoid the unintended consequences of Rule 10 on all temporary employees, including women, who have been employed on a long term temporary basis in the Public Service.

4. **What were the circumstances surrounding the making of the Reg (Rule) 10(3) exemptions by you on 15 April 2014? What caused you to make the exemptions in those terms?**

**Response**

The Category 1 exemption of the 15 April 2014 Determination requires at least 20% of funding for the temporary roles from non-Government sources to be exempt. This mirrors the exemption to the maximum period of temporary employment that existed under the former *Public Sector Employment and Management Act 2002* (refer Category 1.2.2 of the Commentary and guidelines on temporary employment (part 2.4) and casual employment (part 2.6)).

Categories 2 and 3 of the 15 April 2014 Determination are required to meet the changing nature of the NSW Public Service i.e. temporary employees of agencies established to deliver a time limited infrastructure project, or subject to a transfer of business plan:

- Category 2 provides for an exemption from the maximum total period of temporary employment where an agency has been established for a temporary purpose in connection with a specific project.
- Category 3 exemption relates to temporary employees who are required to deliver services during a major reform which will result in those services no longer being delivered by the NSW government sector.

5. **How many temporarily employed persons (by actual number of persons, not FTE) come within each of the three points in your 15 April 2014 exemptions?**

**Response**

The Public Service Commission does not have exact figures for the number of temporary employees exempt from the maximum period of temporary employment pursuant to Category 1 of the 15 April 2014 Determination. It is the head of the Public Service agency who determines whether the funding of the temporary employees meets the requirement of Category 1.

Although the Commission does not have exact figures, it is understood that temporary staff exempt from the maximum period of temporary employment pursuant to Category 1 are primarily employed in the Department of Trade and Investment Cluster. The Department has advised that they are predominantly employed in the Department itself, the Sydney Opera House and the Local Land Services.

The Public Service Commission does not have exact figures regarding the Category 2 exemption as it is the head of the Public Service agency who determines whether the agency employing the temporary staff is established for a temporary purpose in connection with a specific project.

To date the Public Service Commissioner has received one request for an exemption pursuant of Category 3 which is currently under consideration.

- 6. What agencies are the temporarily employed persons employed by in each of the three points your 15 April 2014 exemptions?**

See answers to Question 5 above.

- 7. Can you please advise the Committee as to how many temporary employees impacted by regulation (Rule) 10 are employed in each region of the State? For example Central West, Sydney Metro (or any sub regions), Illawarra, Hunter, Mid North Coast, Far North Coast, Far West, South Coast etc.**

**Response**

Postcodes are the only location-related data item collected in the Workforce Profile. As postcode boundaries do not align with Local Government Area (LGA) boundaries, and one postcode can overlap across two or three LGAs, headcount is weighted across the relevant LGAs using ABS population concordance tables. Consequently, weighted headcount can be showing in one region which belongs in an adjoining region.

As such, this limits the Commission's ability to accurately determine an employee's tenure in a particular region of the State.

Detailed regional data in relation to the numbers of temporary employees in each region by reporting entity is available - see Attachment A. Due to weightings applied, small numbers should be treated as indicative only.

- 8. Can you please advise the Committee as to how many temporary employees are employed by which agency in which region?**

**Response**

See Attachment A for the answer to this question. Please note that the reason for the difference in the total number of Public Service temporary employees affected by the GSE Rules in the answer to supplementary question 1 is that the breakdown by regions provided in the answer to supplementary question 8 excludes employees where no postcode has been provided.

- 9. For each of the above questions, can you please provide the gender breakdown of those temporary employees and also how many are full-time and how many are part-time employees (also by gender breakdown)? Please provide the information in actual numbers of persons not FTE.**

**Response**

See Attachment B for the answer to this question. Please note that the reason for the difference in the total number of affected employees in the answer to supplementary question 1 is that the breakdown by regions provided in the answer to supplementary question 9 excludes employees where no postcode has been provided.

**Public Service: Headcount as at census date June 2014**

**Table 1: Number of temporary employees by Regional Ministry Group, Cluster and Agency in the Public Service**

**NOTE 1:** This table shows all Public Service temporary employees subject to the GSE Rules on temporary employment (weighted headcount total 9,551). Of these, the number of employees potentially impacted by Rule 10 is approximately 2400.

**NOTE 2:** Numbers should be treated as indicative only, particularly where they are small, due to weightings applied.

Postcodes are the only location-related data item collected in the Workforce Profile. As postcode boundaries do not align with Local Government Area (LGA) boundaries, and one postcode can overlap across two or three LGAs, headcount is weighted across the relevant LGAs using ABS population concordance tables. Consequently, weighted headcount can be showing in one region which belongs in an adjoining region.
