Pg 44	In the past two years have any offenders been released on a date earlier or later than their prescribed release date?	Yes.

Pg 45	What was their crime, sentence and correct release date?	Refer to answer to above question.
Pg 45	How early or late was each release?	Refer to answer to above question.

The largest figure is inmate on inmate assaults and the rates for the years 2003-04 down to 2005-06, three financial years in a row—13.57, 11.88 and 11, which demonstrates a reduction in the number of assaults on inmates in the last three consecutive years.</p> <p>It should also be noted that the Department of Corrective Services collates data on assaults as part of its contribution to the Report on Government Services. Inmates who had served previous custodial sentences were more likely to be recidivists than those completing their first prison sentence. Age was also identified as a factor, with younger inmates having higher recidivism rates. Also, inmates who had committed certain offence types had higher recidivism, specifically property offences and assault.</p> <p>The report specifically states that Aboriginal inmates did have higher</p>

		<p>recidivism but that this was a result of other factors such as their younger age and the offences committed rather than their Aboriginality itself.</p> <p>The following table reports on the recidivism rate of inmates discharged in 2003-04.</p> <p>It should also be acknowledged that there a large number of complex socio-economic and other factors that are known to be related to criminal behaviour.</p>

Weapons Confiscated	146. With respect to each Department, Agency and Entity that the Minister is responsible for:		
	i) How many weapons were confiscated from inmates at each NSW Correctional Facility for the following periods:		
	a. FY 2005/06		Disclosure of such information would raise security issues.

	b. FY 2004/05		Refer to the answer to Q146(i)(a).
	c. FY 2003/04		Refer to the answer to Q146(i)(a).
	d. FY 2002/03?		Refer to the answer to Q146(i)(a).
	<b>148.</b> With respect to each Department, Agency and Entity that the Minister is responsible for: iii) How many individuals have been caught smuggling drugs, weapons or other contraband into NSW Correctional Facilities in each of the following periods:		
Contraband	a. FY 2005/06		559 individuals were caught.
	b. FY 2004/05		The statistical counting method in the years prior to 2005-2006 was different and the resources required to compile the data to answer this question cannot be justified.
	c. FY 2003/04		Refer to the answer to Q148(iii)(b).
	d. FY 2002/03?		Refer to the answer to Q148(iii)(b).
247. Outcomes Research?	(1) What part of the budget and what programs are funded to look at the success or otherwise of the program? i.e. rates of recidivism (I can't see any in the budget or annual reports!!)		This question fails to identify the program in question.

	<p>(2) If none, what's the point of having these programs if there is no evaluation of outcomes at say 2/5/10 year intervals?</p>	<p>See answer above.</p>
<p>248. JUSTICE</p>	<p>(a1) What is the incidence of assaults of staff on inmates? Why do the Budget papers do not include any figures relating to this or does this not occur at all within the prison system in NSW? Or does this go unreported and is unaccountable within the administrative record of the Department of Corrective Services?</p>	<p>All allegations of assault are referred to the Department's Professional Conduct Management Committee (PCMC) for consideration. The PCMC reviews the reports and decides how the matter is to be dealt with. Some matters are referred to the Police (the CSIU - the branch of the NSW police attached to the Department); other matters are referred to the Department's Investigations Branch for an internal investigation; other matters may be referred to the correctional centre General Manager to be dealt with locally and other matters will have no further action.</p> <p>In deciding how to deal with the matter the PCMC will consider a range of issues including whether an external agency has referred the matter to the Department; whether there are any injuries; whether those injuries are consistent with the version of events put forward by the officer/s or the inmate; whether there are any anomalies in the use of force reports, etc.</p>
	<p>(a2) What is the Budget allocation to assess and monitor corrective service officers in terms of their conduct with inmates?</p>	<p>There is no separate line item in the budget for this. There are a number of persons and branches and units within the Department who have reporting and investigative functions and responsibilities.</p>
	<p>(b) For example their conduct when searching for contraband after an inmate receives prison visits? Have there been any incidents reported of inappropriate conduct towards inmates?</p>	<p>Refer to the answer to part (a1) above.</p>
