

Jonathan Clark  
Principal Council Officer  
Legislative Council Committees  
New South Wales Parliament

By Facsimile: (02) 9230 3371

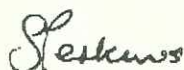

Dear Mr Clark

**New South Wales Legislative Council – Nanotechnology Inquiry**

I refer to your invitation to give oral evidence at the public hearing to be conducted by the New South Wales Legislative Council's Standing Committee on State Development in the course of its inquiry into nanotechnology in New South Wales.

The Therapeutic Goods Administration is unfortunately not in a position to provide the Committee with the evidence required. The Commonwealth will be represented by the Department of Innovation. Where appropriate, the Department of Health and Ageing will be liaising with portfolio agencies (including the Therapeutic Goods Administration) to develop input to the Department of Innovation's development of its responses.

Yours sincerely

*for* Dr Rohan Hammett  
National Manager
