Vanessa Viaggio
Principal Council Officer
Joint Select Committee on the NSW Workers Compensation Scheme

Dear Ms Viaggio

I am responding to questions taken on notice from the Joint Select Committee.

1. Request from Hon Adam Searle to provide Benchmarking data. Spreadsheet provided from WorkCover NSW is attached. We have also attached a brief summary of key findings demonstrating a reduction in claims costs over the past 4 years which we attribute to improved early intervention strategies including the provision of suitable duties.
2. Request from Mr Rob Stokes to provide concrete examples of instances where treating doctors were ordering unnecessary treatments. On reflection we have found that our evidence remains anecdotal. It is recommended that this question be referred to representatives from Scheme Agents who would have accumulated details of such practices through their probity strategies of organising independent reviews of treatment in both the allied health and medical practitioner arena.
