

NSW fans encouraged to buy before dynamic pricing hits

NRL.com
5:46pm Tue 22nd May, 2012

True Blues believers are being urged to beat the post-match ticket rush for Game 2 of the Harvey Norman State of Origin Series in Sydney and save money at the same time.

More than 10,000 seats are still available for the Sydney blockbuster at ANZ Stadium on June 13 and by securing seats now members and fans will be able to access cheaper tickets than those who wait until the last minute.

Under the dynamic pricing system announced at the Sydney Origin launch in March, ticket prices opened for sale at the same price as 2011 to reward members and fans who purchased tickets early with the best seats at their cheapest prices.

Prices have increased closer to the event as demand has grown and the final increases across all categories will be implemented from 8pm tomorrow, Wednesday, May 23.

Tickets for Game 2 of the 2012 Harvey Norman State of Origin Series at Sydney's ANZ Stadium on June 13 are on sale from Ticketek on 132 849, at Ticketek outlets or online at www.ticketek.com.au/origin.

Every Origin ticket includes the price of public transport to and from ANZ Stadium.

2012 Harvey Norman State of Origin Series Game 2, Wednesday, June 13, ANZ Stadium, Sydney
