Re: Native Forest Material From Approved Clearing

Dear Graeme,

I am writing to advise of our intention to receive Native Forest Material for use in the
Condong Co-generation Plant.

This material is being supplied by O'Keefes Transport from an Approved Clearing at Hinze
Dam Queensland.

A copy of the relevant approval notice is attached.

It is envisaged that approximately 5,000 tonnes of material will be delivered from this site to
Condong over the next 6 months. This period may increase if site access is hampered due
to wet weather.

This material is expected to commence Mid June 2010, weather permitting.

If any further information is required please contact myself.

Subject: Development Permit Number

Hi Julie

Our development permit number which relates to the raising of the dam, interfering with water, and construction of a waterway barrier is

DM0907BEE0001/OW

This may be referring to our permit to clear the vegetation under the Vegetation Management Act (VMA). For the mechanical clearing that we are doing around the dam we are exempt from this act and do not need a permit.

I hope this helps

regards

Re: Native Forest Material From Approved Clearing

Dear Graeme,

I am writing to advise of our intention to receive Native Forest Material for use in the Condong Co-generation Plant.

This material is being supplied by Green Waste Energy from an Approved Clearing at Jimboomba QLD.

A copy of the relevant approval notice is attached.

It is envisaged that approximately 15,000 tonnes of material will be delivered from this site to Condong over the next 6 months. This period may increase if site access is hampered due to wet weather.

This material is expected to commence on Tuesday 6th April 2010, weather permitting.

If any further information is required please contact myself.
