Wynn

Revd the Hon Fred Nile MLC,
Chairman
Joint Select Committee of the Parliament of NSW
Inquiry into the Cross City Tunnel

Dear Reverend Nile,

In response to a request from Victoria Pymm, attached is a schematic diagram showing the lane arrangements in the 3.6 km Lane Cove Tunnel.

In the eastbound direction, approximately 60 percent of the tunnel is three lanes.

In the westbound direction, approximately 100 percent of the tunnel is three lanes.

It is noted that there are short sections in both directions where the lanes are in separate tunnels.

Yours sincerely
