QUESTION 4

4. Are any initiatives or processes in place from the department to help schools to develop their enrolment? Where you have identified a school that might have less strong enrolment or is losing students, are the principals in training or is something done to help those schools?

ANSWER 4

4. The Department's Communication and Engagement Directorate develops materials, resources and training courses for school leaders to increase their capacity to communicate with their local community and actively promote their school. Social media is utilised by many schools to promote educational opportunities and events offered to students. The Department's School Website Service also provides support to schools in the development of attractive, informative and easy to manage websites.

QUESTION 2

2. A further allegation was made that a parent whose family lived in the catchment for Wollombi Public School was told by the Relieving Principal and Director, Public Schools, that if she moved her child with additional needs to Laguna Public School they would be eligible for additional support, but if they remained at Wollombi, they would not. The child and one sibling were at the time enrolled at Wollombi, with three further siblings being potential new enrolments. What is your response to this allegation?

ANSWER 2

2. The Relieving Principal and Director Public Schools NSW did not tell a parent that their child would receive additional support by moving the child to Laguna Public School.

QUESTION ON NOTICE SUPPLEMENTARY QUESTIONS

QUESTION 3

3. The committee notes that under Section 28 (10) (a), the procedure in that section for the closure of a school does not apply in the case of a one teacher school. However, the Protocol for schools where recess, closure, amalgamation or other educational provision models are to be considered states that the protocol applies to all schools, regardless of their size.
- (a) Please explain what, if any differences in applying the protocol are allowed for one teacher schools, and what process is followed in such cases.
 - (b) How does this differ from the processes followed prior to the Protocol?
 - (c) The committee heard in evidence that Wollombi was treated as a one teacher school (prior to the December 2014 protocol) for the purposes of the school closure policy/process, when it was in fact a 1.3 teacher school. What is your response to this allegation?

ANSWER 3

3. (a) The Minister can use Section 28 (10) (a) of the Education Act to close a one teacher school without the majority of parents consenting.
- (b) Prior to the development of the protocols different and inconsistent processes to close schools were used.
- (c) A "one teacher school" is not defined in the Education Act. It means what those words normally mean. That is, a school to which only one full-time teaching position has been allocated. P6 schools are schools to which only one full-time teaching position is allocated. They are therefore one teacher schools. The additional 0.3 fraction was made available at Wollombi Public School to support the one full-time teacher and is made up of relief from face-to-face teaching, library and learning and support.
