the anatomy of a male and a female makes their relationship unique

Same sex relationships do not fit anatomically and can cause physical illness to the partners.
Any children created by arrangements between supporting opposite sex friends live in a very strange world.

It is often hard for two people to agree on parenting style let alone three people.

Calling same sex arrangements marriage with all the rights of a heterosexual arrangement put undue stress on all concerned and any children produced by arrangements made.

It is against natural order
