Reverend the Hon. Fred Nile

Select Committee on the Planning Process in Newcastle and the Broader Hunter Region  
NSW Legislative Council

Reverend Nile, I write this email to you in the hope you may be able to find out and stop the development of King Edward Park Headland. I find that there are plenty of planning for a function centre on the land that is not right. Please will you take into consideration of the corrupt happening that have occurred in Newcastle recently . I the planning of KEHR one of them. I am an Aboriginal person and I know the land there was of significance to us, Please have an investigation of how Crown Land was to be turned to a function centre, where only well off people can go. Thankyou

Jaye Quinlan
