**INQUIRY INTO VOCATIONAL EDUCATION AND
TRAINING IN NEW SOUTH WALES**

Name: Mrs Samantha Peters

Date received: 29/06/2015

TAFE needs to remain the majority provider for at school and post school education. TAFE as the entity it is now is only way we can assure that people who undertake training receive adequate knowledge and skills to ensure that the qualifications students receive are genuine and we can be assured they have received the TIME and training to keep themselves and us (the rest of society) safe and productive. Private providers are in it for profits - that's their bottom line! But at what cost? We may find that it's too high if TAFE is dismantled from the highly regarded training organisation it is now and private operators are allowed to take over.
