**Date:** 5/9/2012 6:01 pm  
**Subject:** Increase in Workers compensation premiums

I strongly oppose an increase in workers compensation premiums, we are struggling enough with wage increase's power costs carbon tax and other unnecessary insurance costs that we have taken out to protect us from the unforeseen disasters our insurance agents warn us of!!! I will not employ any more staff if premiums rise I will however pay my business debt off and close our business down!!! We are just over been squeezed and the life sucked out of us as small business owners who are propping up the Australians and new Australians on welfare!
