Hi ,

I would love to talk with you with regards to workers comp system, which is under review.

I Know I am on the System, And I don't want to be. I May have issues and policys that you may want to review. Through ackting, with myself. The issue is, that I want to work, and work hard, But under the curent legislacion, I can't. Future employers want me but cant afford further injury.

My only work issue is a crushed right toes!

I would love so much as a responce>

Cheers looking for support!!
