

**INQUIRY INTO USE OF CANNABIS FOR MEDICAL
PURPOSES**

This is a submission to the GPSC no.4 to express my support for the legalization of medical and recreational use, of cannabis in Australia.

I have smoked cannabis regularly for the last 7 years and have so far experienced none of the physical/mental illness' that many people still seem to associate with cannabis use. I am tired of being punished by government and police for doing something that has been proven time and again to be significantly less damaging than alcohol or tobacco (or caffeine in my honest opinion).

Thank you for your consideration, .
