INQUIRY INTO GREYHOUND RACING IN NSW

Name: Name suppressed

Date received: 15/10/2013

Partially Confidential

It is fairly straight-forward. The greyhound racing industry is a dog-killing industry. It promotes the mistreatment and killing of animals for 30 seconds of human entertainment!

It is absolutely dispicable that thousands and thousands of dogs are bread only to be put down for failing to run fast enough. It would be even more dispicable for a government to turn a blind eye to the animal cruelty and mass-murder of greyhounds that is at the core of this industry.
